of America, says that while a passenger from r York on board a ship going around Cape m, in the carly days of emigration to Calno, he learned that one of the officers of tarvers I had cared himself, during the voyag of an obstinate disease by the use of

Ayer's Sarsaparilla. Since then Mr. LELAND has recommended AYER'S SARSATARILLA in many similar cases, and he has never yet heard of its failure to effect a radical cure. Some years ago one of Mr. LELAND's farm laborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enormously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND's direction, was supplied with AVER'S SARSAPA-RILLA, which allayed the pain and irritation, healed the sores, removed the swelling, and

completely restored the limb to use. Mr. LELAND has personally used Ayer's Sarsaparilla for Rheumatism, with entire success; and, after careful observation, declares that, in his belief, there is no medicine in the world equal to it for the cure of Liver Disorders, Gout, the effects of high living, Salt various forms of blood diseases.

Rheum, Sores, Eruptions, and all the We have Mr. LELAND's permission to invite all who may desire further evidence in regard to the extraordinary curative powers of AYER'S SARSAPARILLA to see him personally either at his mammoth Ocean Hotel, Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York. Mr. LELAND's extensive knowledge of the good done by this unequalled cradicator of blood poisons enables him to give inquirers much valuable information.

PREPARED BY Dr. J.C. Ayer & Co., Lowell, Mass. Sold by all Druggists; \$1, six bottles for \$5.

FARM AND LIVE-STOCK NOTES.

Don't let the tools rust. Fix up the stables for winter. Store potatoes in a cool, dry cellar.

Productiveness depends on the food. One year's seeding makes seven years Start with a good calf and feed it well, and ou will have a good cow cheap. A cow that will not yield 400 pounds of butter a year isn't worth keeping. Many

Shingles may be made fire-proof by setting the butts into a trough of water, in which a balf bushel each of lime and salt. and six pounds of potach have been dissolved. Potatoes not wanted before spring may go into pits, where they will keep with less shrinkage than in the cellar. In burying. the only secrets are dry ground and plenty of

reases the milk flow, but soon goes to fat and lessens the milk. Many a valuable cow has been injured by overfeeding in this way. Home-Sickness in Animals.-Many a cow that has been bought as a first-class milker less, and by the time it must be weaned, she is likely to be sufficiently accustomed to the Plan to Sow More Clover .-- As a fodder it
