HAIR RENEWER was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: the entire fulfilment of its promises.

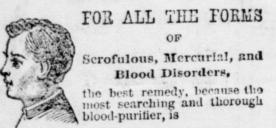

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction. The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not

tions, but remain a long time, which makes its use a matter of economy. BUCKINGHAM'S DYE

Choose which of these you will have to do the work in this enlightene lage. The Missouri Steam Washer is no longer an experiment in washing, but is a practical success, unparalleled in the history of Washing Machines. We have been established in Woodstock only a few weeks, but we are almost daily in receipt of letters testifying to the merits of the "MISSOURI" over all other washing Machines used. Read what others say about this labor, time, and clothes-saying Machine. The original letters can be seen at our office at any time :-METHODIST PARSONAGE, DEBEC JUNCTION, April 21, 1885.

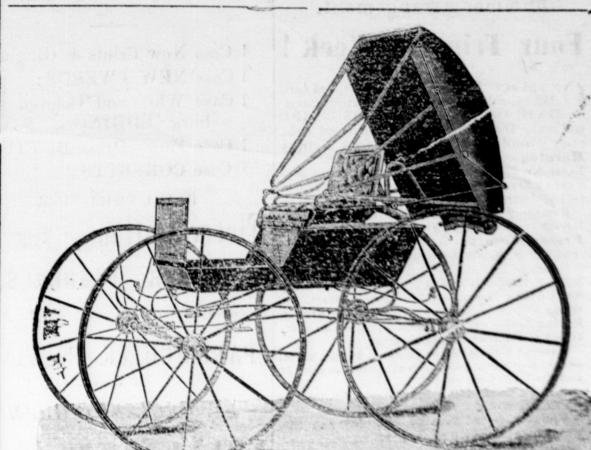

GEO. F. Morr. Dear Sir:—I have pleasure in saying that the Steam Washer purchased from you has given entire satisfaction. I have used it for six weeks and have washed all kinds of Clothing, cotton and woollen, white and colored, with complete success. The objection to some of the old Steam Washers that the clothes were left streaked and yellow does not apply to the "Missouri" for the obvious reason that the dirty water is not returned continuously to stain the clothes, but remains at the bottom of the bailer while the steam does the work. Yours truly, Mrs Isaac Howis. OVERCOATS, Mort, Dear Sir:—Having thoroughly tested your Steam Washer, I find it perfect in every respect. It not only washes the clothes in less than one third the usual time, but it is a great saving in soap and labor; while its greatest merit lies in the saving of clothes, as they escape all wear and tear such as that given by the use of the wash board. Mrs. L. W. Johnston.

Woodstock, April 27, 1885.

Geo. F. Mott, Dear Sir:—Lam very much pleased with the Steam Washer purchased of you. Although I had no faith in washing machines, yet I can say that the "Missouri" does its work thoroughly, and the clothes look nicer every time they are washed with it, besides being a great saving on the Clothes. Yours Truly, Mrs. Wm. Upham:

By Many more could be a ided if space would permit but we think that those already given are sufficient to convince any reasonable person that this Washer is just what we represent it to be. Remember the price—ONLY \$12.
