In 1882 the firm's interest in the foun- means as the foregoing to accomplish that dry was merged into the company, whose lines end. of business embrace castings for stoves, ploughs, cultivators and general purposes. Since its organization the company has made good progress and bids fair to be one of the most important industrial institutions of the town.

Small & Fisher, leaving their foundry interest with a well organized company in 1882 turned their attention specially to the manufac. ture of threshing machines, farming machines of other kinds, machines for sawing firewood, and general mill and engine work. In these lines there is good reason for saying that they are making fair progress.

# Sunday School Column.

"At the International S S. Convention at Louisville last summer, M. C. Hazard opened The Garleton Sentinel. the topic "What should be expected of scholars " as follows

It is no unimportant thing to get a right no-

tion of what should be expected of scholars. To expect is to look for something with the assurance that whatever is looked for will be realized. Whatever a man looks for that he is most and to find. One man will see in a mass only a horse-block-a Michael Angelo will behold in it an angel. Whether it shall be merely a convenience or a thing of beauty and Assembly authorizing rate payers to vote at a joy forever, depends entirely upon the expec- municipal elections without having paid their tation that is roused within the man into whose hands it comes-upon his ability to see what taxes. possibilities there are in it. One man sees in a The bill applies to York, Carleton, Charrocky hill only so much waste farm land—a lotte, Gloucester, Queens, Kent, Albert and tional particulars are given. Crozier's and been adopted providing for amending the to the effect that all town coupons will be paid with the view that he gets from the summit, and builds there a home that is the admiration of every passer-by. Franklin toys with electrical of New Brunswick, Mr. Hibbard in the chair.
