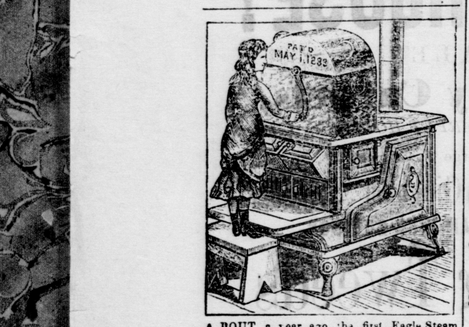
EMERY & SEGEE,

Grocers,

King Street, - - Woodstock, N. B.



ABOUT a year ago the first Eagle Steam Washer came to Woodstock. It has been followed by hundreds of others which have been scattered over the country not one of which has ever failed to give entire satisfaction when used according to directions. In case any person may have tried one without satisfactory results we have no hesitation in saying that they in some point failed to carry out the directions. In any ordinary family it will save much more than its cost each year in the wear of clothing alone, besides the immense saving of labor, and the minor saving of water, soap and fuel.

Miscellaneous.

Ask fifty ladies in succession what Perfume they consider the most delicate, the most pure and salubrious, the most permanent, and in all respects the most desirable, and forty nine of them will answer, MURRAY & LANMAN'S FLORIDA WATER.

HAD TO GO IT ALONE.—That is a droll story about a fellow on board an ocean steamer who sat off by himself, and seemed to be generally sore in his mind about something. He presented such a forlorn appearance that some ladies on deck thought they ought to inquire what was the matter. So one old lady approached and asked the lonely one why he was so disconsolate. "The fact is," said he, "I m on my bridal tour, but I didn't have money enough to bring my wife with me.

A Pleasing Duty.

"I feel it my duty to say," writes John Borton, of Desert, P. Q., "that Burdock Blood Bitters cured my wife of liver complaint, from which she had been a chronic sufferer. Her distressing painful symptoms soon gave way, and I can highly recommend the medicine to all suffering as she did"

A bright youth, undergoing examination a few days since for admission to one of the departments, found himself confronted with the question. "What is What is the distance from the earth the sun'?" Not having the exact number of miles with him, he wrote in reply: I am unable to state accurately, but I don't believe the sun is near enough to interfere with a proper performance of my duties, if I get this clerkship." He got it.—*[Buffalo Express.*

A Double Benefit.

Harry Ricardo, of Toronto, certifies to the benefits received from the use of Hagyard's Yellow Oil as a cure for rheumatism and deafness, his affliction with these combined troubles being a severe one.

"Arrah, me darling, cried Patrick O' Flannigan to his loquacious sweet-heart, who had not given him an opportunity to get a word in edgeways during a two hours' ride behind the little bay nags in his oyster wagon, "are you after knowing why your cheeks are like my ponies?"

"Shur, and it's because they're red is it?" quoth the blushing Bridget,

"Faith, and a better raison than that, mavourneen. Because there is one of them nich side of the waggin tongue."

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of "MRS. WINSLOW'S SOOTHING SYRUP" for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. "MRS. WINSLOW'S SOOTHING SYRUP" for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP" and take no other kind—1 yr.

The man whose pants were too short was asked by an Irishman:

"Hi! where did you get those trousers?" "I got them where they grow," was the indignant reply.

"Thin, be me sowl, yer have pulled them a year too soon."

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections; also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 149 *Power's Block, Rochester, N. Y.*

CALL A LITTLE LOUDER.—Deacon Jones [from out of town]—"I am deputed to learn, if a "call" from our church would likely be favorably entertained by you?" Minister—"H m. It would depend somewhat, I think. Mr. Jones, upon—er—circumstances." Deacon—"Ah, yes, : I see! We discused the matter in rather an informal way, and the sense of the majority seemed to be that—er—about $900——" Minister—"H'm! Yes. I am afraid, Mr. Jones, that the good people whom you represent will have to "call 'a little louder than that.'—*New York Times.*

ART IN ITALY.—Mrs, Farmer John—"Oh, I am so sick and tired of this humdrum existence. I wish I had been born in Italy instead of in this practical work-day country.' Travelled guest—"And why in Italy, Mrs. John?" "Oh, I don't know; only Italy is the home of art, you know. I suppose even the country women there all have opportunities to gratify their artistic instincts. They sing or paint or draw, don't they?' "I have seen a good many of them drawing." "How nice! What do they draw principally?" "A Plow."—*From the Nashville Banner.*

GENTLEMEN,—Having thoroughly tested the "IMPROVED LITTLE GIANT THRESHER," and Double Gear and Level Tread Horse Power and Wood Cutter bought from you last Spring, I can readily certify that I am in every respect fully satisfied with them. I was told before buying not to get a "Giant" for they would not clean grain when threshing fast, as the sieves were too small. But when I heard that you were making the sieves four inches longer than the American machine, I thought you must have the machine I wanted. The long sieves add greatly to its capacity, without danger of wasting grain. Your Level-Tread Horse Power is so very easy on horses; my team does not weigh over 2,100 lbs, and they can run it with great ease. It was so late when I bought that I could not get enough grain in a place to make one whole day's threshing. I have threshed at the rate of four hundred bushels per day, for half a day at a time; the machine was not crowded any; the sieves were clearing themselves: threshing clean, and no grain going over. Every place where I used your Wood Cutter it gave good satisfaction: it is so light and handy: can set it up in so small a space. I had no faith in it and bought it on condition, but I would not have any other now. One man said he had so little faith in that Cutter that he would not let me saw his wood, unless I called his pile of wood a day's work, he always had the same amount of drags cut for a day's work before: I cut it in a little more than half a day. Yours truly.

MANHOOD

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years successful practise, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

ANY middle aged Farmer who will look back a quarter of a century and contrast the Farm implements in use at that time, with those of the present day, will be surprised at the improvement which has taken place. And no where is this improvement more marked than in the HARROWS. Instead of the cumbersome wooden Harrows which had to be driven over a hard piece of ground five or six times, and then only half did its work, he has now the

FLEXIBLE COLLARD HARROW

which will adapt itself to any kind of ground and which will thoroughly pulverize any soil by going over twice or three times. Being made of a soft grade of steel, and having none of the cast iron clips which are found on other varieties of Iron Harrows, it is almost unbreakable.
