Messrs. Connell Bros. GENTLEMEN,—Having thoroughly tested the "IMPROVED LITTLE will exchange for Farm Produce such as Butter, GIANT THRESHER," and Double Gear and Level Tread Horse Power Eggs. Poultry. Oats, or Buckwheat Meal, for and Wood Cutter bought from you last Spring, I can readily certify that will pay the highest Prices the market will afford. I am in every respect fully satisfied with them. I was told before buying not to get a "Giant" for they would not clean grain when threshing fast, as the sieves were too small. But when I heard that you were making the sieves four inches longer than the American machine, thought you must have the machine I wanted. The long sieves add greatly to its capacity, without danger of wasting grain. Your Level-Tread Horse Power is so very easy on horses; my team does not weigh over 2,100 lbs, and they can run it with great ease. It was so late when I bought that I could not get enough grain in a place to make one whole day's threshing. I have threshed at the rate of four hundred bushels per day, for half a day at a time; the machine was not crowded any; the sieves were clearing themselves; threshing clean, and no grain going over. Every place where I used your Wood Cutter it gave good satisfaction; it is so light and handy: can set it up in so small a space. I had no faith in it and bought it on condition, but I would not have any other now. One man said he had so little faith in that Cutter that he would not let me saw his wood, unless I called his pile of wood a day's work, he slways had the same amount of drags cut for a day's work before; I cut it in a little more than half a day. Yours truly. G. R. Smith.
