POPULATION.—Every minute of the day seventy hu- Nov 3 man beings are brought into existence and sixty-seven are removed, says a writer. The population of the world is steadily increasing at the rate of three per minute, of 4,320 per day, more than 1,500,000 per year. Just think of the yearly increase of man being equal to the entire population of the State of Iowa. Where do they go? The home of the human race, so far as we are able to learn, was in Asia, and from there all the nations have come. The rapid Carriage and Sleigh increase of population in the United States shows the tendency of the race to scatter and seek new fields.

MANHOOD,

How Lost, How Restored We have recently published a new edition of Dr. Culverwell's Cele-BRATED Essay on the racical and permanent cure (without medicine) of Nervous Cability, Mental and Physical Incapacity. Impediments to Marriage, etc., resulting from Price, in a sealed envelope, only 6 cents, or two postage stamps. The cel-brated author, in this admirable Essay, clearly demonstrates, from thirty years successful practise, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every suff-rer, no matter what his condition may be, may care him-self cheaply, privately and radically.

This Lecture should be in the hands of

every youth and every man in the land. The Culverwell Medical Co., 41 Aun St., New York.
