The French having expelled the Royal Princes and authorized the sale of all the crown jewels, estimated to be worth two and a half millions of dollars, are about to utilize Versailles and the other vacant palaces for educational and art purposes.

The present is the ter-centenary year of the introduction of potatoes and tobacco into Europe. Both have become of almost universal use and, strange to say, a vast number of people would more readily surrender the use of the potatoe than of the tobacco.

Among the items of freight carried in October by the New Brunswick Railway to the United States, from stations on its northern division, were 154,948 bushels of potatoes; 1,909,850 lbs. starch, and 524 tons of hay, which, probably, represents to the producers or sellers over $93,000.

Rev. J. W. McLenan was ordained a missionary of the Presbyterian church, for McAdam and Vanceboro, at the former place on Friday evening last. The services, at which an audience so large as to fill the school house was present, were conducted by Revds. Messrs. Mekay, of Richmond, McNeil, of St. Andrews church, St. John, and McLean, of Harvey.

President Cleveland visited Boston for the first time on the 8th, and received a right Royal welcome from the city authorities and citizens of the hub. He visited Harvard, where James Russell Lowell delivered an oration and Oliver Wendell Holmes recited a poem. The visit only extended over one day into which was crowded processions, parades, two receptions and two banquets.

Some Scotch papers, which strongly opposed Mr. Gladstone and Irish Home Rule at the last elections, are now agitating for a system of Home Rule for England, Scotland, Wales and Ireland. The system proposed is a modified one but would eventually lead, probably, to the same results as the scheme for Ireland, proposed by Gladstone. The more one reads and hears on the subject the greater becomes the wonder that local self-government, on the part of the different sections of Britain has not long ago been secured.

His Remains.

The recent death of the widow of the late A. T. Stewart, of New York, revived interest as to the body of the latter which was stolen from its grave. It is now stated with circumstantiality of detail, that the remains were recovered and $25,000 paid for the bag of bones, by Mrs. Stewart, and they were finally committed to the vault at "Garden City." Toil, thrift and economy made the man a millionaire, and the latest record of him is that his bones became an article of base barter.

Treaty with Spain.

By the recent treaty made between Great Britain and Spain, Canada becomes subject to its trade advantages. By a reduction of the Spanish customs duties on fish, woollen and cotton goods, many articles of manufactures have opened to them a more favorable market than before. Then all Spanish ports are open free as for Spanish vessels to all Canadian ships. We don't know to what extent Canada is to reciprocate with Spain, but suppose the customs duties of the latter nation, even as reduced by terms of the treaty, are higher than those of Canada.

Quick Work.

The "Sebasticook and Moosehead" railroad, of which Thos. Temple, Esq., of Fredericton, is president, and Wesley Vanwart, Esq., of the same place, one of the directors, is completed from Pittsfield to Hartland, a distance of 8 miles. It was begun and completed in ten weeks and there is not, it is said a dollar of debt on it. The capital stock was to be $126,000, of which sum the Maine Central took $1000 per mile, the town of Hartland and its citizens agreed to raise $31,000, and Messrs. Temple and Vanwart furnished the balance. On Wednesday, the 17th inst, there is to be a grand celebration over the result in Hartland.

U. S. Elections.

The general result of the State elections, recently held, appears to be on the whole satisfactory to the Democrats, even though the Republicans have got the most votes Of course, the term satisfactory is a relative one, for in reality the result is not satisfactory to either party. Leading papers of the United States claim that the election is a victory for tariff reformers, and that the administration is sustained. The defeat of Morrison, the great "free trader," is a surprise

Perhaps the most surprising and least assuring incident of the election is the fact that in the contest for Mayor of New York, Mr. George, the labor-unions' candidate, around whom rallied the socialist and, probably, the anarchist elements, got 67,699 votes; Hewitt, the successful one, got 90,296, and Roosevelt 60,392.

To Our Readers.

We cannot too strongly urge upon our readers the necessity of subscribing for a family weekly newspaper of the first class—such, for instance, as *The Independent* of New York. Were we obliged to select one publication for habitual and careful reading to the exclusion of all others, we should choose unhesitatingly *The Independent*. It is a newspaper, magazine, and review, all in one. It is a religious, a literary, an educational, a story, an art, a scientific, an agricultural, a financial, and a political paper combined. It has 32 folio pages and 21 departments. No matter what a person's religion, politics or profession may be, no matter what the age, sex, employment or condition may be, *The Independent* will prove a help, an instructor, an educator. Our readers can do no less than to send a postal for a free specimen copy, or for thirty cents the paper will be sent a month, enabling one to judge of its merits more critically. Its yearly subscription is $3 00, or two years for $5.00. Address, *The Independent*, 251 Broadway, New York City.

Emigrants' Information Office.

We learn from a contemporary that the British Government has established an emigrants' information office under the supervision of the colonial office. The object is to supply intending emigrants with useful and trustworthy information respecting emigration to the British Colonies. Circulars of information of a reliable character will be issued from time to time, for gratuitous circulation. Among the circulars already issued is one relating to Canada, which gives full information regarding the assisted passages, provided for intended emigrants there, and gives advice as to the parties who should emigrate, as well as to those who should not. Desirable emigrants for Canada are said to be of three classes:—1. Tenant-farmers in the United Kingdom who have sufficient capital to enable them to settle on farms. 2. Persons with capital seeking investments. 3. Male and female farm servants, and female domestic servants, for whom there is always a great demand; but it is pointed out that there is little demand just now for mechanics, laborers and navvies. It will be observed that this fairly represents the class of persons we most want, tho' not the class generally most anxious to come out. The establishment referred to should prove of great service to Canada as well as other Colonies.

Capital Punishment.

While in other respects England has led the van of civilization and been foremost in extending its grateful influences as well as its malignant offshoots, in regard to capital punishment she and her children have continued to preserve that most barbarous of barbarities the gallows. There may be some show of practical advantage in the old-time systems of torture intended to force from unwilling victims confessions, secrets and information, but surely it is revolting to every sentiment of humanity, not to say christianity, that system which, in its anticipation and in its application, distracts the mind at a time when it is sought through moral and divine influences to bring it to and maintain it in, a state of calmness and religious hopefulness and, finally, in supreme torture ends the unhappy life. The guillotine of France is a happiness compared with the gallows of Britain and of the United States. Philanthrophy has suggested several alternatives less cruel than even the guillotine. The latest proposal is to apply electricity in putting criminals to death and an elaborate apparatus for the purpose has recently been invented at Leipsic. What objection can there possibly be to the adoption of such a measure, swift, sure, the unseen, unknown agent deprives the victim of life, with only a quick sensation. Objection there can be none valid, while all the better sentiments of society must induce horror of the prevailing system.

Permanent Exhibition.

It is settled, we believe, that the Colonial Exhibition is to remain a permanence. The Prince of Wales has shown great interest in the matter, and the Imperial government will do what it can to secure success, while the Colonial governments propose to deal liberally in a financial sense towards its support.

From conversation with Mr. F. W. Brown of Grand Falls, who recently visited the Exhibition, and from other verbal testimony, as well as from the expression of the press on both sides of the Atlantic, it would seem that most satisfactory results are likely to proceed from the existence of the Exhibition thus far and that from its continuance like advantages greatly increased in degree may be anticipated. There appears to be no room for doubt that the Exhibition as an advertisement for Canada, and even of New Brunswick, as well as of the other colonies and of individual industries and special productions thereof, has proved of special benefit. As regards New Brunswick some of its productions have made a marked impression, and some of its manufacturers who had wares on show have, we learn, received large orders which is convincing proof of the practical advantages.

And the New Brunswick exhibit was not as full or extensive as it might and should have been. Only a few comparatively took any interest apparently in the matter, or cared to accept the opportunity for making the English people acquainted with our resources or our advanced manufactures. Fixed on a permanent basis it may be hoped that in coming seasons our fruits and grains and roots; our minerals and our woods; our manufactures, in many of which a high degree of excellence has been reached, will be more amply on exhibit.

Even Carleton County and Woodstock could do a vast deal in the way of exhibits, which would redound to their credit and probably to their financial advantage, and assist in giving the Province a greater and more favorable prominence in the eyes of those who are interested, whether as intending emigrants or otherwise. Our farmers and fruit raisers and manufacturers may well take the matter into consideration with a view of giving effect to our suggestions next year.

High Wind

A very heavy blow occurred here on Saturday night continuing through the greater part of Sunday. Fortunately, save the throwing over of some fences and the blowing down of a few chimnies, no damage was done in this vicinity.

The blow was general, we learn, throughout the County, but there as here, the damage was confined chiefly to the prostrating of fences, save at Highlands where we are sorry to learn, the new Baptist Church, which was boarded in and ready for clapboarding, was blown down, entailing a loss probably of $400 or $500.

Simonds Items.

Simonds, Nov. 8, 1886.

An accident which came very near having a disastrously fatal termination, occurred here on the evening of the 3d inst. A party comprised of Mr. Charles Ebbett and three others who had been attending a meeting upon the opposite side of the river, started to return to this side in a small boat The river was very rough, owing to a heavy wind which was in progress. and when about half-way across their boat was capsized by its swelling surges and they were precipitated into the cold rushing waters. Fortunately they were able to grasp the sides of their craft, to which they clung as their only chance, for being encumbered as they were with heavy overcoats and boots, rendered it impossible for them to reach the shore by swimming. Their outcries roused the friends upon either side and after considerable delay a boat was at length procured which at once put out and rescued them from their perilous situation. And none too soon, for when drawn into the boat they were so benumbed and exhausted as to be nearly powerless and but a few minutes more would have sufficed to still four stout hearts forever. They were taken to Mr. Daniel Shaw's, where restoratives were at once applied, but it was midnight before they were sufficiently recovered to allow of their being removed to their own homes.

The storm and gale which raged at times yesterday, in a style that would have made Wiggins himself stroke his beard with satisfaction, did considerable mischief, levelling fences, uprooting trees and torturing rickety buildings.

During the beautiful autumnal weather, with which we have been favored during the past month our thrifty farmers have labored industriously preparing the ground for another year's crop.

Elder Woodworth, of your town, who has been holding a series of special meetings in this place ended his labors here last week Though the apparent results were not as satisfactory as we would have wished them, yet we feel convinced that his earnest labors and impressive addresses have not been altogether wasted, but that good has been done, though like the proverbial "Bread cast upon the waters," it may not manifest itself "until after many days."

Most of our men have left for the lumber woods already. Mr. James Christian, with a crew composed mostly of Simonds' boys, left some time ago to commence operations on the Aroostook waters.

Grand Falls, Nov. 8, 1886.

A large and influential meeting of the Liberal party of Victoria and Madawaska counties, was held at Grand Falls, on Wednesday of last week. Every parish in Victoria, we believe, was represented, beside a large number from Madawaska Among the prominent representative men present were Dr. Bernier, Mr. Theriault, Sheriff Rice, A. R. Balloch, Dennis Cyr, Christopher Parent, Jos. Martin, F. W. Brown, Jos. Watson, Hil Peltier, E. Lovely, J. E. Porter, A. J. Beveridge and many others. A. J. Beveridge was called to the chair, and on motion of J. E. Porter, it was resolved to at once organize a Liberal Association for the counties of Victoria and Madawaska. The following were then elected officers of the association; Dr. Bernier, President; A. J. Beveridge, Vice-President; F. W. Kertson, Secretary; T. R. Cameron, Treasurer. Vice-Presidents for the several parishes were appointed as follows:—C. E. Baxter, Perth; J. E. Porter, Andover; James Watson, Grand Falls; B. R. Violette, St. Leonards; Abraham Perron, St. Ann; Henry Gagnon, St. Basil; A. R. Balloch, Madawaska; Peter Michaud, St, Hillaire; Edward Vasseur, St. Francis; Docite Bosse, St. Jacques; G. W. Day, Drummond; Fletcher Tweedale, Gordon; G. L. Everitt, Lorne.

It was resolved that the association be composed of the officers elect, the vice-presidents and eighteen delegates from each county; the vice-presidents were directed to call meetings and organize their parishes as soon as possible.

On motion of Dr. Bernier, seconded by J. E. Porter, the Association heartily endorsed the platform of the Liberal party of Canada and Hon. Edward Blake as their leader. After enthusiastic addresses by a number of gentlemen the meeting adjourned.

At the annual meeting on the 3d inst., the following were elected officers of the Grand Falls Agricultural Society, for the current year:—F. W. Brown, President; Vice-Presidents, P. McMillan, W. Warnell, P. G. Fraser; Chas. McCluskey, Secretary; A. R. Hallett, Treasurer.

T; B. Colpitts, R. S; Wm. Good, F. S; Bessie Harper, Chap; C. C. Good, M; H. N. Payson, O. G; Bertha Alterton, I. G; Emma Good, R. H. S; Annie Harding, L. H. S; Emma Simonson, A. S; S. D. Alexander, P. C. T. The lodge is prospering. We have reason to believe that we have not the sympathy or good wishes of some outsiders, yet we do not get discouraged. We hear the lodge talked of daily. Men say they will give it just six months longer, and that it is a very good place for young folks to meet and have a good time, but it will soon go down, and so on. And these very persons say that they have a great interest in the temperance cause; if they have, why do they not join the lodge and assist in keeping it up and making it interesting. Where are our ministers and S. S superintendents? Should not they be engaged in this temperance work?

Our Sabbath Schools are well attended. Come out, Mr. Editor, some of these fine Sundays and cheer us up by your presence and encouraging words.

Literary Notices.

There have been few more marked successes in journalism than has been achieved by the *Canadian Live Stock Journal*, of Hamilton, Ont. Started less than three years ago as a 20 page monthly, it has gone on steadily increasing in matter and interest, as well as in size, first to 24, then to 28, and finally to 36 pages. Though devoted especially to *stock-raising*, it includes The Farm, The Dairy, The Apiary, Poultry, Horticulture and The Home, so that for the general farmer or such farmers as make live-stock breeding in any of its departments a leading feature of their business, we do not know where to find its equal in Canada. We heartily recommend it to our patrons as the leading paper of its class in the Dominion. It is published at Hamilton, Ont., by The Stock Journal Co. Price, $1 per annum. Those subscribing now for 1887 get the remainder of 1888 free We can furnish it and our own paper together from now to end of 1877 for $1.75. The October and November issues will contain the prize lists of the Industrial Exhibition, Toronto and the Provincial Fair held at Guelph. Call at our office and examine it, or send to the publishers for a free specimen copy.

Gibson Factory Cotton, two cents a yard, at Hugh Hay's.

At Bon's, this week, everything imaginable to eat from Oysters and Clam Chowder clear down to Buckwheat Plugs, at prices that would starve a Chinese. Will any person please inform me of the whereabouts of a knockneed boy that stole my valise; his feet are very large, and go in all directions; it is impossible to tell by his tracks which way he has gone. A stew, fry or a fancy roast, clam chowder or chicken stew shall be the reward for the information at Seaborn's Eating & Oyster House.

Heavy, double-fold Ulster Cloth, only 75 cents per yard, at Hugh Hay's.

All (so called) Steam Washers, which keep a stream of dirty water running through the clothes will, after a short time stain and turn them yellow. In the "Eagle" the clothes do not come in contact with the dirty water, but the dirt is loosened entirely by the action of the copy.

MARRIED.

At Centreville, 7th inst., by Rev J. F. Flewelling, Thomas Conroy and Florence M. McLaughlin, both of the Parish of Wilmot.

On Wednesday, November 10th, in Christ Church, St. Stephen, by Rev. Theodore E. Dowling, Rector, Mr. Charles C. Lee, of Woodstock, to Miss Nellie McIninch, of St Stephen.

DIED.

Donald B. Bunnell, brakeman on the N. B. R, and son of the late Donald and Mary Bunnell, formerly of Queens Co, N. B., aged 22 years, died at Presque Isle, Maine, on October 30th, 1886. Being kind, industrious, quiet and faithful, he was highly respected by all his acquaintances, of whose welfare he was always mindful. Although he suffered much he never murmured, but gave satisfactory evidence of a preparation and willingness to die. His demise has awakened a deep interest concerning religious matters in this community. The widowed mother and fatherless children have the deep sympathy of all who know them in this sad affliction, which seems even more so, it being only six months since the death of the husband and father, whose place had at least been in part filled by Donald. May the God of the widow and the fatherless, greatly comfort this deeply afflicted family.—(Telegraph please copy.
