# The Garleton Sentinel.

SATURDAY, SEPTEMBER 18, 1886.

Building, King street, up stairs. THANKS to "Uno," for his letter, of correspondence, as well as for his private note.

Will be glad to hear from him again. WE notice by posters that a meeting will be held to-night in the Town Hall, to give the people an opportunity of expressing their views on the question of introducing the

Electric lighte.

L. H. DAVIES, M. P., from P. E. Island Hon. W. S. Fielding premier of Nova Scotis and others, last week, addressed enthusiasti audiences at Moncton, Gagetown and Susex, on political matters, from the Libera, He informs us that he has 11 acre, on which the funds. platform. Full, fair and free discussion by leaders of the political parties is at all times

THE result of the election in Haldimand by which Mr. Colter was returned with a majority of 194 votes, is no doubt a disappointment to the government, which has been so generally successful in the by-elections and a cause of great exultation on the part of the Liberals. It was anticipated, we character of the constituency which is strongly Protestant and in which there is a large Indian vote, the prospects for success of the Conservative candidate were most favorable The present result in an Ontario constituency will cause the approaching Quebec local elections to be viewed with increased interest.

#### University Federation.

Woodstock, Sept 17, 186.

Prospectua of contemplated Branch Railroad from and line surveyed west, via mouth of Little through by a line (now being surveyed), near Waterville and Lakeville, on to Centreville Bridgewater, and extended points west. Advantages claimed and presented are : Short-st and best paying route TO PLACE ABOVE NAMED HOUSE, aking in and accommodating all paying trade any road possibly could do ; being shortest route, on the Presque Isle, Aroostook, by thirty miles, and saving torty miles travel, if constructed through to Masardis. Upper Aroostook, compared with present line and Aroostook River Branch, side of line, numbering thirty mills now in active operation ; giving sho test outlet from west to east ; as a valuable fe der for New Brunswick Trunk Line, and travel north and south on same. and in return opening local and foreign markets west for shipment from east side of river here, in plaster, lime, bricks bark, clapboards, and various natural products of fe'd and forest; assimilating Aroostook lumbering demands with labor and numerous head operatives residing here ; letting in American buyers of cattle, sheep, horses etc. etc , and showing a great saving in construction and right of way over long line contemplated on west side, by unitizing this road already built. And as an investment of subsidies and public noney for the who'e people, containing the essential support of an area of country, seven-eights of the whole LOCALLY requiring this connection. And if consumated, sure to stimulate the construction of corresponding Eastern Branch into immense interior country, by natural outlet of Guimic waters, thoough the Miramichi and Plaster Reck Tobique, making that connection twenty miles shorter than any other, and inspiring the vast and PIONEER SEITLEMENTS thus reached, of Guimic, Carlisle and Coldstream mills, Knowlesville, Glassville, Johnville and Beaufort, that the Government for the people shall extend aid and support to THEIR EFFORTS as against competing lines along the river a few miles apart; and that the NEW BRUNSWICK TRUNK LINE shall

be further developed in the interest of the whole (having cost the people about all their wild lands) by Government now subsidizing west and east branches thereto, making main line a sufficient north and south road to accommodate the whole valley of the St. John River above Woodstock. CALL AND SEE HIM. PUBLIC MEETING. A RAILWAY MEETING will be held at Cigars, HARTLAND, on MONDAY, the 20th inst., at 2 o'clock, p. m., to discuss in all its bearings the above project, and a general invitation is hereby
