LESSON CALENDAR FOR APRIL.  
1. April 4.—The Word Made Flesh. John 1:1-18.  
2. April 11.—The First Miracle. John 2:1-11.  
3. April 18.—Jesus and Nicodemus. John 3:1-21.  
4. April 25.—Jesus and Nicodemus. John 3:1-21.

Secretaries of Parish Sunday School Conventions should send a notice of the proposed meeting of their Conventions to the Rev. J. M. B. Bates, Newspaper Advertising Agent, 41 Park Row, (Times Building), New York, is also authorized to contract for advertising in the SENTINEL, at our best rates.

A meeting will be held in the Methodist church, Florenceville, on Wednesday, April 27, at 2 o'clock P.M. for the purpose of electing the members of the Parish of St. John, S. S. Convention for the Parish of St. John, and of organizing such a convention if deemed advisable. Superintendents, teachers, and all others interested in S. S. work, are requested to attend.

C. T. HENNING, Vice-Pres.

The quarterly meeting of the parish of St. John, S. S. Convention was held in the Methodist church, Florenceville, on Wednesday, April 27, at 2 o'clock P.M.

The day being wet and the roads in bad condition the attendance was not large as was anticipated. A service of prayer and prayer, conducted by deacon G. W. Currie, was held at the opening of the session, Mrs. S. Gibson presiding at the organ.

The President took the chair at 3:30 o'clock and declared the convention open for business. After reading minutes the superintendents and delegates were called upon to give a report of the work of the schools they represented.

Bro. G. W. Currie, C. A. West, J. W. Plummer, I. S. Currie, and Dr. H. G. Briggs each gave a favorable report, and the interest in the study of the lessons during winter had been well sustained and the prospect of an increase in the number of scholars for the summer months was encouraging.

The Vice President for Florenceville (S. Currie) was called upon to give a report of his school institution, and he stated that the school had been well sustained and the interest in the study of the lessons during winter had been well sustained and the prospect of an increase in the number of scholars for the summer months was encouraging.

The President then addressed the meeting, and thought that the present gathering was not a fair representation of the entire parish, and that the work in the parish, but saw no reason to be discouraged.

The subjects for consideration at the evening session were: "The announced, was 'How complete should be the teachers' preparation of the lesson in its geographical, historical and scientific aspects?' and 'How can we best sustain the interest in S. S. work in the parish?'

Rev. Geo. Howard was then invited to lead in the devotion of the subjects. The afternoon session was closed by prayer from the choir, and prayer by Bro. G. W. Currie.

The evening session opened at 7 o'clock, by prayer and prayer for 30 minutes, Bro. G. W. Currie conducting the service.

The President took the chair at 7:30 o'clock, the church being comfortably filled and called upon Rev. Geo. Howard, who spoke for forty-five minutes, making a neat and interesting address on the subject of "The announced, was 'How complete should be the teachers' preparation of the lesson in its geographical, historical and scientific aspects?' and 'How can we best sustain the interest in S. S. work in the parish?'

The President also gave a short address, announcing the time of meeting of next convention (which would be the study of the lesson in its geographical, historical and scientific aspects, and the interest in the study of the lessons during winter had been well sustained and the prospect of an increase in the number of scholars for the summer months was encouraging.

The President also gave a short address, announcing the time of meeting of next convention (which would be the study of the lesson in its geographical, historical and scientific aspects, and the interest in the study of the lessons during winter had been well sustained and the prospect of an increase in the number of scholars for the summer months was encouraging.

C. KING, SECY.

FOR THE CARLETON SENTINEL.  
EDITOR SENTINEL:  
Dear Sirs:—I noticed a paragraph in the Sentinel of the 20th February, describing the largest tree in the St. John river that still retains the leaves of the year 2075.

We saw logs in our mill every day not longer than 20 feet that could make more than a barrel of staves, and the largest of these logs was 11 feet in diameter at the top end, and perfectly straight, it could have cut into short logs 20,314 feet.

In a house we purchased the other day, was a log 20 feet long 6 inches at top end, making 4805 feet. These figures may seem large to you, but they are only common logs here.

Yours,  
H. L. DEBECK.  
New Westminster, B.C., Mar. 27/80.

FOR THE CARLETON SENTINEL.  
MESSRS EDITORS:—If the Government is sincere in its professions with reference to the abolition of the Legislative Council, why not ascertain the wishes of the people by a vote or nay vote at the coming election, if they do not bury the thing up, the parish institution, and was talking with the Rev. Geo. Howard, who spoke for forty-five minutes, making a neat and interesting address on the subject of "The announced, was 'How complete should be the teachers' preparation of the lesson in its geographical, historical and scientific aspects?' and 'How can we best sustain the interest in S. S. work in the parish?'

Mr. Baird appears to be the right man in the right place in this County and we think he will be returned again.

Yours Etc.,  
AMICUS.

# TERMS OF THE SENTINEL.

Subscription \$10.00 a year in advance; \$15.00 not paid in advance.  
Transient Advertisements should be accompanied by the money to insure insertion. Short notices not exceeding 6 lines, 50 cents insertion; 10 cents each subsequent insertion.  
This paper may be found on file at Geo. P. Dowling, 1808 Newspaper Advertising Bureau (30 Spruce Street), where advertising contracts may be made in New York.  
Agents, 41 Park Row, (Times Building), New York, is also authorized to contract for advertising in the SENTINEL, at our best rates.

# The Carleton Sentinel.

SATURDAY, APRIL 10, 1880.

SENTINEL Office, in Vanwart's Brick Building, King street, upstairs.

The Local Legislature has scarcely been pronounced when the announcement was made that the General election would come off immediately, to wit, on the 10th of the present month.

It is not to be denied that the announcement caused a surprise to nearly every body, and evidently to the chagrin of many local politicians, all over the Province, who delight in election excitement and anticipated a summer's work at canvassing.

Of course, there are many who will find fault with the government for their promptness in the matter, but really we know of no interests that can suffer, and it is for many reasons greatly to be desired that the contest should be disposed of with the least possible delay.

We think the thoughtful people in every constituency will commend the Government for doubt the members of the late house were in the confidence of the Government, and they should know what course would best suit the convenience of the electors and the interests of the public.

It may be said that the roads will be bad and, therefore, that it will be difficult for voters to get to the polls, but that point of view is not a very good one to take, and it is much better that they should endure a little inconvenience than be subject to loss of time later on, when business duties will be more pressing.

It can't be said that intending candidates will suffer, because the house of Assembly has died a natural death, and it was known that within a few weeks, or months at most, the elections must be held.

The Government appeals to the electors under circumstances, which would seem to assure a favorable response. Since it came into power, the opposition in the Legislature has been watchful and intelligent, but have failed entirely in successfully piercing the reason of the Executive, which has consistently shown majority, and now comes from the last session of the Assembly with such a majority as is a decisive proof, according to the spirit and letter of responsible Government, that they enjoy the confidence of the country.

A more clever than parliamentary was practiced on the 20th ult. in the Legislative Council. A bill to incorporate the electric and Cape Tormington Railway Co., had come up from the Assembly, but the Corporation Committee of the Council refused to report favorably. The bill was then introduced, but the members of the Council, who were not in the confidence of the Government, and they should know what course would best suit the convenience of the electors and the interests of the public.
