HON. G. W. WHITE'S SPEECH

In the Legislative Council in the Quer- Look at the results which recently took place in the city of Montreal, in the province of Hon. Mr. White said it would be useless guarded, thousands of lives would have been for him to deny that he was on record as saved and the business of the province would voting in favor of abolition when he occupied not have been so profoundly disturbed. What a seat in the lower branch. He expressed would be the result to this province it such a his surprise that the report had been sent disease as the cholera or small pox should broadcast through the Province that this reach us in our present unprotected state?

broadcast through the Province that this house had refused to appoint a committee to confer with that of the other house, and the statement had been made in the other branch had a few days ago that "if the other branch had treated the people's representatives with the treated the people's representatives with the respect due them they would have appointed a committee to discuss the subject of our respect that they had so restanced the country of Madayaska and not by the locality visited. He instanced the country of Madayaska and not province and not by the locality visited. solution." He denied that they had so restanced the county of Madawaska, and point-fused and proceeded to justify the action ed out that it was one of the avenues by which taken. The government not only appointed epidemic diseases might enter the province, their committee down stairs, but sought to and it would not be just to ask these people appoint the committee from this branch to bear all the expense of stamping out this species of disease, and protect the province. members that the government had named and He was strongly of the opinion that the local that they they would appoint three more. boards of health should be under the control. He did not know for what reason the govern-ment had declined the conference. He had to bear the expense of the maintainence thought the arguments advanced by the gov. of these boards, which except in cases of

He (White) did not intend to bill to incorporate the Hartland and Tobique bow every time the government whip was Railway Co., Mr. Young in the chair. Dr. snapped. He particularly objected to being Atkinson said the proposed railway would snapped. He particularly objected to being told that the eyes of the people were upon them and they were holding their seats by the sufferance of the government. It was well known that himself and Mr. Barberie had been referred to, but he wanted it understood that he was there in the capacity of a legislator and not as a slave, to do the bidding of the one-man power. Had it not been for of the one-man power. Had it not been for himself and Mr. Barberie the man who made this reference would never have been in a

He described the movement for a colition in Nova Scotia, which had been nearly successful, and said the present legislative council stood there to-day as a barrier against repeal and possibly annexation. The same issue might some day arise in New Brunswick. He had only to go to St. John to see a journal which openly advocated annexation. As a descendent of a British subject who had fought and bled for his country. nexation. As a descendent of a British subject who had fought and bled for his country, he (White) was not the man to leave this Province without a second branch, whether it was composed of government appointees or elected by the popular vote of the people. The head and front of this movement were a have sent the same to the house for their

Hon, Mr. Ryan-Young will be the other one.
Hon. Mr. White—I am as willing to go as Jones, Woods, White, Davidson, Ryan, Mche is. If the government can discharge two of us why not all? Why keep us in suspense? I guess there are some doubts about it and that the result of this vote will be a Bob, being aware that the Czar must find it

Hon. Mr. Ryan.—I would like to go for one.

Hon. Mr. White.—You are working the wrong way to get on a delegation. He thought if the government were very anxious about this question they should dissolve the house and go to the country. (Hon. Mr. Dran House hear)

But he did not believe plate Matrimony consult the Truth Ryan-Hear, hear.) But he did not believe ful Jeweller in whom is no guile this question would ever be submitted to the people. If economy was the object of the government, he would suggest a recast in the epresentation of the Province, involving a reduction in the other branch and possibly in this one. He presented the following com-

Kent 22,618 He thought it was time that the government remedied the inequality revealed by these figures. He proposed a gerrymander which he thought would meet the difficulty. One parish should be taken from Gloucester and added to Restigouche, two from York and added to Sunbury, one from Kings and added to Queens, two from Westmorland and added to Albert, one from Northumberland and added to Kent, one from Carleton and added Victoria; Charlotte and St. John to remain as they are; two members to be returned from each electoral division. It was unjust that Carleton with only 1,000 less population should have but half the representation Charlotte. By reducing the members to 30, as by his plan, \$3,803.80 in indemnities would be saved, and if the legislative council was reduced by four members there would be a further saving of \$1,228. He thought the amount allowed heads of departments for travelling expenses might well be reduced one-half, which would save \$1,724, that by uniting the offices of chief commissioner and surveyor general \$2,100 would be saved, and

that \$1,144.10 could be saved in contingen-cies—making a total reduction by the reforms he proposed, of \$10,000. It was true that he bad voted for the abolition of the council, but not true that he had ever abused the council. He had voted for abolition just as many others did. It seemed to please other parties and the idea had got abroad that it was a foregone conclusion that the council would be abolished. Even if he had strongly advocated abolition both in and out of the assembly he would feel very much delicacy about voting for the amendment, because he was anxious that the proposed conference should be brought about. If the council were done away with it would make the

government a one-man power. Alluding to the bill to legalize the acts of the St. John River Driving and Boom Company, he said that a gross injustice would have been done the lumber interest only for this branch and the scrutinizing eye of the committee. HOUSE OF ASSEMBLY.

The bill was amended and agreed to. Dr. Atkinson said he had not been aware of this bill coming up to-day, and was therefore not prepared to go fully into the discussion of the subject. He felt that the province should have some general system for the protection of the public health. It must be admitted that we have no such system now. my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Eheumatism and Dyspepsia.— G. F. Miller, Attleborough, Mass. Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.

— Morris Gates, Downsville, N. Y. I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Aver's Pills, and soon regained iny customary strength and vigor. - John C. Pattison, Lowell, Nebraska. Last spring I suffered greatly from a

troublesonm humor on my side. In spite

of every effort to cure this eruption, it in-

creased until the flesh became entirely

raw. I was troubled, at the same time,

with Indigestion, and distressing pains in The Bowels. By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured. - Samuel D. White, Atlanta, Ga. I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss. My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all

pain went away, and health was restored.
