

who were using those remedies of Dr. Pierce's found them so beneficial that they began to send applications for their use, and, as these appeals became so numerous, the Dr. concluded to erect his Invalid's Hotel. The Big Bend Tunnel Company is fortunate in having so progressive a man as Dr. Pierce as their President.

The tunnel does not represent all the capital invested. More than a hundred claimants to mining grounds on the bars, banks and river bed had to be bought out in acquiring title to this vast extent of rich mining grounds. Boarding houses, stores and telegraph have been built on the road and tracks have been built; a substantial bridge erected across the West Branch of the river, and what was an unbroken wilderness, around the vicinity of the tunnel, when the Company commenced operations, has become a thriving village with dwelling houses, general stores, hotel, and a school house. A post office has also been established here, and a telephone line built to Oroville, sixteen miles distant.

THERE was a decrease in the total debt of the Dominion, in September, of \$1,152,000.

LONDON has elected a Roman Catholic Mayor, the first since the abolition of the Test Act.

On July 1st, the amount of balances to the credit of depositors in the Dominion Savings' Banks was \$21,250,000.

The Great Show.

Returning to a consideration of the show of the Carlton and Victoria Counties' Agricultural Societies so bravely opened and successfully closed last week, we may make these additional comments on the show proper, and its associate circumstances, so far as not disposed of in the press, without special regard to order or consecutive review.

In presence of thousands of persons entire or partial strangers to this part of the Province, among them very many gentlemen, truly representative, from various parts of New Brunswick the up-river districts immediately concerned, have justified their reputation and by practical proof asserted their ability as regards the fertility and productivity of the soil; the intelligence and progressiveness of the people engaged in agricultural arts and as well the vital energy and forwardness and skill of their manufacturers. In ready and even enthusiastic terms, whether on the streets, in the show or on the platform, those of our visitors whose praise is most complimentary, being the proudest men qualified to judge airtight, have uttered words of warmest praise and commendation, positively as regards the show in general and comparatively as contrasting some of the more important departments with similar exhibitions in other Provinces and States.

This is satisfactory and it should have a stimulating influence in the future.

THURSDAY'S CONCERT, ETC.

On Thursday evening the second concert was given in the Town Hall. It differed in character from that of the previous evening in that its programmes embraced speech as well as music, and it was admittedly a success. We need not reproduce the programme as originally printed, because its personnel had of necessity to be changed. Mr. Samuel Wates, by request of the committee, occupied the chair.

The vocalists of the evening were Miss Sharp, Woodstock; Mrs. Lupton and Mrs. Black, Fredericton; and Wm. Wilson, Esq., M. P. P., Fredericton; Miss Jordan and Miss Alice Connell being the accompanists.

All these accomplished vocalists, delighted the large audience by their fine rendering of well chosen pieces and were all applauded and encored.

Dr. Smith and Charles McLean, each gave acceptative readings.

The speakers were Hon. Attorney General Blair, G. M. Twitchell, one of the *Maine Farmer* editors, C. H. Lovell, Rev. G. M. Parks, president of the North Brookton Agricultural Society, and Francis Barres of the Maine State Board of Agriculture.

The speeches were for the most part in regard to the show and the capabilities of country and of people which that show demonstrated.

While some of the speakers had been surprised by the exhibition which surpassed the most sanguine anticipations, and while some of the gentlemen from the United States went so far as to suggest that reciprocity would give us customers for our manufactures from Maine, all were as one in bestowing compliments upon the show as regards its breadth, comprehensiveness and character.

The Attorney General whose entire address was a most able one, took advantage of the opportunity to express himself as heartily in sympathy with the agitation for commercial union with the United States, and his remarks on this subject were most cordially received, an agitation which he claimed was not and should not be considered as a political one but as proposing a change in our commercial relations which would benefit the whole people. It would appear to the country future prosperity in all departments of its trade, especially would it adapt to benefit those vast interests—lumbering, fishing and farming. It was not very difficult for those who had been so far as to suggest that reciprocity could readily be arranged farther along—but the time had come for the free discussion of principles.

He said the only opposition there is to commercial union is from individualism and the manufacturers, but the will and interest of the people must prevail. He was not an anarchist; but had sympathy with annexation sentiment, but he was in favor of commercial union as an antidote to any feeling that might exist favorable to a closer union.

AT LARGE.

We print, elsewhere, a list of the prizes awarded, so far as the items are obtainable at the present time of writing; the list we publish includes a majority of the classes of exhibits, but some important ones are not yet reached; if the Secretary is able to complete the latter before we go to press they will be published, but for text they should not be, we will make some general reference to them. Where the lists are published and "superior excellence" in the several classes thus stamped by authority, further reference is not now called for.

PAXTON BAIRD'S

Exhibits, not in competition, command attention from the spaces they occupy and their prominent position just within the main entrance to the building. Here, Mr. Baird has neatly and skillfully arranged a fine display of medicinal and toilet preparations, and flavoring extracts, all of his own manufacture.

GARDEN BROS., Druggists, at the head of the stairs, show a nice case of fancy goods and medicines, perfumery, and toilet articles, while just adjoining this exhibit,

N. L. FLETCHER.

Has a beautiful display of jewelry, silverware, etc.

J. D. DICKINSON.

Ocupies a large space, to the left of the main entrance, with a display of domestic boots, shoes, slippers, etc., in every style and variety, that would do credit to any establishment anywhere.

BURTON BROS.

Have, near by, some splendid specimens of men's cuff bats, and

S. J. PARSONS.

Some sides of sole leather from his Boston Tanery.

In the annex, are excellent specimens of bracelets shown by RICHARD CLUFF, of Woodstock, and BURTON BROS. of Centreville, respectively. The last named also show fine looking harness leather.

MUSICAL INSTRUMENTS, ETC.

A considerable portion of the space in the main building, down stairs, is occupied by pianos, organs and sewing machines of various makes exhibited by T. R. WATSON, ALFRED LESTER, C. S. JAMISON, R. McLellan—these are all local agents—and by C. H. SMITH, of St. Stephen.

The sewing machines, where such were shown, were manipulated by skilled hands; and accomplished performers were constantly giving practical evidence of the purity, richness and power of tone of the several musical instruments.

GOELLIN BROS.

Have thrashing machines and horse power, wood cutter, a dozen or more plows, horse rakes, horse harrow, cultivator, stoves in cylinder, cook and parlor, Sink etc.

SMALL & FISHERS.

Exhibit—includes—improved end shake Little Giant thrasher and cleaner with horse power; Whitman's horse power with Benjamin Allen's thrasher and cleaner; sewing machines of different designs, some for sawing ordinary logs into stave wood, others for sawing small logs or second growth wood; one and two horse Crown mowers; a grain separator and chaffier made after the pattern of the King of the Harvest. Some of these machines were tested on the ground, and to some price tickets were affixed but this the price list will settle.

UNION FOUNDRIES CO.

had on show, cook, parlor, and cylinder stoves; farmers boilers, different sizes; combined cultivator and horse hoe with reversible steel teeth; Getchell's patent horse hoe and one of their Eagle farmars set up in a casing to show exactly it operates when in use. We may add here that the firms named had a display convincing to all beholders as to the resources and ability of our local manufacturers, in these lines, to supply the demands of an extensive home market.

Besides these home manufacturers, Mr. W. McDonald and Gen. N. Clark had on show full lines of agricultural implements, made by establishments in Ontario and Quebec, for which they are, respectively agents, and McFarlan Thompson & Anderson of Fredericton also exhibited some of their

machines.

Mr. GEO. C. WATSON Jacksonstown also showed a hand fanning mill and W. B. TURNER a churn worked by a peculiar arrangement of weights and levers.

A little high pressure steam engine made and run by ALICE WERNER attracted much attention.

CARRIAGES ETC.

In this department—D. GRANT made the largest display and his goods showed excellent workmanship. LOANE BROS. also exhibited one each, nice specimen of carriages and sleighs, Geo. N. Clark exhibited Toronto made carriages and buggies, also specimens of his patent spring bed bottoms.

S. T. BAKER showed a very handsome boat of fine lines said to be remarkably light and buoyant.

DAVID JONES displays a good assortment of cutlery, hatters, axes, etc.

T. J. KERRIGAN, a case of his celebrated horse shoes.

FRED. BEARDSLEY showed a Severance Sulky Plow.

A potato digger exhibited by MOSES BRUNN had a very substantial look and seemed well adapted for its work.

The WOODSTOCK WOODWORKING FACTORY had several specimens of work embracing doors, easels, newel posts, furniture for Church and School—a churn and butter worker.

J. S. MARCY.

Not the stainer, on the second floor of the New Brwick S. School association held in St. Stephen this week, the following were elected officers: President, James Wates, of Woodstock; Vice-president—Albert, John J. Steeves of Hillsborough; Carleton, Geo. L. Holroyd of Woodstock;—Wright, Hugh Stevens of St. Stephen; Thos. L. Alexander of St. John; Steeves, John, J. Trickey of Sussex; N. Chamberlain, Rev. K. McKey of Chertsey; R.
