

POOR COPY

TERMS OF THE SENTINEL.

Subscription \$1.00 a year in advance; \$1.50 not paid in advance.
Short notices not exceeding 6 lines, 20 cents first insertion; 15 cents each subsequent insertion.
Transient Advertising should be accompanied by a remittance to insure insertion.
Mr. J. A. BATES, Newspaper Advertising Agent, 41 Park Row, (Times Building), New York, is also authorized to conduct for advertisements in this paper all business not transacted with the Standard or the Star.

This paper is the property of D. G. B. & Co.'s Newspaper Advertising Bureau (10 Spruce Street), where advertising contracts may be made for it in New York.

The Garleton Sentinel.

SATURDAY, MAY 7, 1887.

SENTINEL Office, in Vanvar's Brick Building, King street, up stairs.

Or the English speaking people of Canada, 957,403 are of Irish origin.

The May number of "Our Little One and The Nursery," is full of attractive matter for the juvenile class of readers.

Mr. DAVID JONES, striving to be consistent with his previous record, now shows his vote twice six inches high.

According to the Telegraph, it must be two years at least before the affairs of the Maritime Bank are finally wound up.

The farmers of Ontario are moving in earnest in favor of the removal of trade restrictions between the United States and Canada.

It is now claimed as a recent discovery that the waste of the tobacco plant is equal to linen rags for making paper, and vastly cheaper.

It must be a painfully novel sight to witness funeral processions moving through the streets in boats, as have been witnessed this week in Montreal.

During the past week, 2,618 emigrants left Queenstown for America. The total for the month of April is 11,854, against 6,656 for April 1st.

WILLIAM O'BRIEN and one of Lord Lansdowne's exiled tenants have sailed for New York. Mr. O'Brien would serve the cause of Ireland better by staying at home.

The Courts, from present appearance, will be kept busy for some time, determining protests against returns of members of parliament, so large a number of protests have been entered.

BISHOP BINNEY, of Nova Scotia, died at New York on the 1st, whether he had gone three weeks previous seeking medical advice. With the exception of the Metropolitans, he was, it is said, the oldest bishop in the world.

The Aroostook Herald states that the increased freight on potatoes, owing to the Interstate Commerce bill, will make a difference in the amount received by the county for that root, of between \$80,000 and \$90,000 per year.

New Paper.

A new weekly paper, the Saturday Gazette, edited by Mr. J. A. Bowes, has just made its appearance in St. John. It is an eight page paper, the first number is well filled with original and selected matter, and the mechanical execution is good.

England & Canada.

Some of the English papers regard the action of the Dominion Government in passing the Irish resolutions in an unfavorable light. They think Canada had no right to interfere and that it was unseemly to do so. They intimate that England may properly advise the colonies but the rule doesn't work the other way.

True, not Strange.

A gentleman in York County handed us the payment of a year's subscription, saying: "Put me on the list again. I took the Sentinel for 23 years, till last year when I stopped it, but find I can't get along without it." Not an unusual experience with the few old subscribers who try a similar experiment.

A File Driver.

Under the superintendence of Moses Burpee, Esq., engineer in chief of the N. R. Rail way, there has just been completed here—not as a temporary intimation at MacAdam—a novel form of file driver for railway purposes. The frame, the machinery, including the portable steam engine which is to work it, is built into a flat car, with which it can be transported to any point on the road where piles are to be driven, and is always ready for operation, without shifting any part of the machine.

A Probable Liquidator.

It will be observed, from the statement published in another place, that Mayor Conneli secured a very handsome vote among the many candidates for the position of liquidators of the affairs of the Maritime Bank. He received the suffrages of many creditors, not belonging to Carleton County. This vote, as well as the fact that by doing the different localities would be recognized and, at the same time the services of a shrewd, practical business man be secured, may, possibly, have considerable weight with the Chief Justice when selecting liquidators.

Victoria Hospital.

Lady Tilley proposes to have established in Fredericton, an institution which will be a most worthy and permanent monument of Her Majesty's Jubilee and, at the same time, a fine tribute of the benevolent generosity of those who contribute, in the form of an hospital for free public use. The idea was a happy one on the part of Lady Tilley who has, by her individual zeal and energy, and by rousing others to an active sympathy made success sure. Of course some large contributions have been made, but has been sought to make the movement a popular one by encouraging rather many small subscriptions than depending upon a few large ones. Thus all classes may, without inconvenience, secure a practical interest in the noble charity. We have reason to suppose that the people of Woodstock will be given an opportunity to add a quota to the fund. It is intended that the hospital shall not only free from any sectarian restrictions but as we believe, from local restriction in the exercise of its beneficence.

Parliamentary Notes.

It is intimated that the Government will, in future make known the contents of the blue books, etc., and publish financial and statistical statements of public interest, at the close of each fiscal year without waiting for the meeting of parliament.

It is said that the Government will probably totally prohibit the importation of cattle from Great Britain for a year at least, in consequence of the danger of introducing pleuro-pneumonia.

Mr. Skinner's motion to declare Mr. King entitled to the seat for Queen Co., instead of Mr. Baird, returned thereto by the returning officer, was negatived after a lengthy debate, and an amendment to refer the matter to the committee on privileges and elections carried by a vote 109 to 77. Some Conservatives voted for the original resolution. Hon. Mr.

Thompson who moved the amendment, said: He would, therefore, not try to persuade the house to give a direct refusal to the unprecedented request of Mr. Skinner, but would submit that the committee referred to him pointed out the wrongs which might arise from the house presuming to unseat one member and give his place to another claimant. It was a rather dangerous thing for the house to take from the electors the right to determine over controverted elections, depriving claimants of what legal rights they might have.

Mr. Hale voted for the original resolution.

Commercial Union.

Prof. Goldwin Smith has recently given publicity to the opinion that the Mother Country would not object to Canada entering into commercial union with the United States. Mr. Smith says:

"For my own part, being British to the core, I would vote for union with the Mother Country if the few conditions which I thought were necessary for such a union were taken care of. There is the interest or honor of Great Britain, and Canada has already been taken, formally as well as practically, out of the commercial unity of the empire by Sir John Macdonald, and he has decided that he is free from rule to rule. The voice of Canada in the council of her empire is the best support which she can ever lend England either commercial or otherwise."

It is urged that the movement in the direction of commercial union is steadily gaining force, and, in answer to those who fear that such union would tend to annexation, it is pointed out that when with much smaller population than she has now the reciprocity treaty between Canada and the United States did not lead to annexation, and that there is no reason to fear that our being permitted to do business, without the stringent restrictions now existing, with the people of the United States would affect our national spirit.

The London Times says: "The shock of war, the want of money, and the difficulty of procuring a loan, will probably be the chief causes of the present depression in the market for Canadian products."

The Farmers of Ontario are moving in earnest in favor of the removal of trade restrictions between the United States and Canada.

It is now claimed as a recent discovery that the waste of the tobacco plant is equal to linen rags for making paper, and vastly cheaper.

According to the Telegraph, it must be two years at least before the affairs of the Maritime Bank are finally wound up.

The farmers of Ontario are moving in earnest in favor of the removal of trade restrictions between the United States and Canada.
