WOOL, Fancy Goods

Mrs. J. Loane & Co.

The tendency of modern manufacturing is to have machinery at work wherever practicable, because machine work is of greater average ex sellence and uniformity than hand work. The best appointed Mower, Plough and Carriage Factory, will now make all the varied parts of their productions so that threwn into heaps,-each kind in its own pile, enough pieces to make up the complete article may be taken at random and put together with precision, with very little time lest in fitting the parts together. Besides insuring accuracy and ease of duplication of worn out parts, this way of doing is the most economical. Fancy a carpenter toying short notice. Nothing but good work- think that one min or a few men can make men and kiln dried lumber used here. Mowers or Ploughs or Carriages as well and cheaply as the big factories full of modern ma-

> the Gananogue Carriage Factory has absorbed the business of a host of small shops It has put up FOUR THOUSAND CARRIAGES for this season's trade. I have exclusive control of their carriages in this section of the Province. You will find it to your interest to call and ex-PROPRIETOR risge, before purchasing elsewhere. I have also a full line of Farm Machinery made by some of the largest and best Factories in Canada. GEO. N. CLARK.
