In Brief, and to the Point. Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a fee to good nature. The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a won-

derful work in reforming this and business and making the American people so healthy that they can enjoy their meals and be happy. Remember:-No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

The condition of tens of thousands of women today is pitiable in the extreme; they are weak, bloodless creatures, a prey to mental anguish and bodily pain; in a word, "broken-down," from any one of numerous causes. To this unhappy multitude we strongly urge the use of Dr. Pierce's Favorite Prescripton, an infallible, world-famed remedy, for all "female" irregularties and "weaknesses," and which restores the worst sufferers to vigorous health, and reinvests her with all the charms of figure, face Glycerole of Celery Compound. and complexion, that receive such willing hom-

Since the fact that consumption is both preventable, and in its earliest stage curable, it has lost much of its terror. If the first symptoms are at once recognized, and the proper remedy JOHN M'LAUCHLAN,

applied, very few, if any one, need die of consumption, which is really lung-scrofula. Like many other diseases this formidable one grows out of impure blood, and this, in turn, from a diseased liver. Hence, we have the hacking cough, the pains in chest, the inflamed lungs, and all the symptoms of hastening consumption,
all the result of a depraved blood and a diseased
liver. The use of Dr. Pierce's Golden Medical
