Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

Failing Health. Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever. - Mrs. E. L. Williams, Alexandria, Minn. I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, M. D., D. D. S., Greenville, Tenn.

Dyspepsia Cured. It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians, and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Harley, Springfield, Mass. I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and

assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—

Well backed up-The camel. A Hard Profession.

Old Dr. Johnson once said ad irossing a class of medical students, that the study of medicine was a most arduous undertaking; that the most comprehensive mind and the most industrious student could scarcely do more than explore the portals to medical knowledge during the brief time allotted to study before commencing practice, but that throughout his whole life the responsibility of his profession should rest upon nim like a night mare.

try, natural philosophy and natural history, but, above all, he must learn the construction of his own frame, the means by which he lives, moves and has his being. He must understand the nature of all those influences by which hearth is broken down and restored and by what means lizease, suffering and death may be averted. or Johnson further says that nothing contributes so much to the support of quackery as the present insufficiency of medical knowledge. Men do not, he says, easily abandon hope but as readily put faith in agnorant pretenders as drowning men catch at straws. "The good that men do in this life lives after them." During the lift time of old Dr John. sin he invented what is now known as Johnson's Anodyne Liniment, a standard family remedy f surpassing merit. This liniment is both for internal and external use and it is safe to say that no single remedy ever discovered has done as much good as has this one. It is inexpensive, ready at a moments notice night or day and may be used with absolute confidence in the ousand and one ailments that iuffl ot humanity. In the cure of severa cramps or pains in the
