county show would do us no hurt.

energies, a good show could be held.

SATURDAY, MARCH 26, 1887.

SENTINEL Office, in Vanwart's Brick Building, King street, up stairs.

Hon. C. P. Brown, Provincial Secretary and the reform inaugurated should embrace of Manitoba, has resigned his portfolio. THE Toronto Globe now employs a special

train running between Toronto and London, to carry exclusively its morning edition. It is a fast train reaching London at 6.45. THE elections in the Northwest bave re-

sulted in the return of government supporters, as follows :- West Assiniboine, Davin ; East Astiniboine, W. Dell. Perley; Alberta, Davis; Saekatchewan, Macdowell. A CLERGYMAN at Buffalo, New York, last

week, united in matrimony two couples-one 14 and 16, and the other 16 and 17 years of age respectively. One of the ladies was a Miss with skirts above her knees, and bair hanging down her back.

THE local government has purchased three more horses, viz :- A standard bred Hamble tonian stallion ; "Aurora," of Morgan descent; and an English thoroughbred race horse. These are said to be very fine animals; they will not be sold, but will stand for service at different sections of the pro-

work being done by the Army on this continent; only way by which to preserve a good credit, and a financial statement of the Temple account, and brief reference to the operations of the Army in brief reference to the operations of the Army in brief reference to the operations of the Army in brief reference to the operations of the Army in public expenditure, is to curtail as far as their departure, all loud in their praises that law is defective and lax in its provisions; a good and creditable show. He was of the made for conveying freight from Aberdeen.

| About to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that endeavors be made to get up to be one of the finest counties in the Province, and urged that the definition of the finest counties in the Province, and urged that the definition of the finest counties in the Province, and urged that the definition of the finest counties in the province, and urged that the definition of the finest counties in the province, and urged that the definition Australasia, Sweden, France, Switzerland, Africa, India, etc Everywhere the Army raises its standard, large numbers appear ready to battles, thus far much good, we believe, has been accomplished by the Salvation Army.

Holocaust.

By the burning of the New Richmond Hotel at Buffalo, New York, on the 18th, some 30 persons lost their lives and many more were severely injured. It was an awful sight to witness women and men in their nightclothes at the upper windows screeching for help that could not reach them, and falling back into the embrace of the flames.

The Maritime.

Mr. H. L. Sturdee, of St. John, has been appointed liquidator, provisionally, of the Maritime Bank. A meeting of the shareholders and of the creditors is called for April 27th.

There have been no new developments with regard to the affairs of the bank. Holders of the bills feel easier, and many traders are taking the money now at the face for goods and some at a small discount.

Worth Considering.

A Montreal paper makes the following suggestions which should have special inter

est to our readers in this county :-As a result of the experimental purchases of Canadian horses for the British army. made last summer, it is stated that 3,000 horses are to be bought here next year and it is to be expected that the demand will be a steady one. This should encourage our farmers to take up the breeding and training business, and it, as a result, Canadians generally put themselves on top of a horse, instead of behind one, a little oftener, it will be a gain.

Strange.

The Boston Globe tells of a young man named Stanton who died, it was supposed, and was buried in a tomb. It was on a Monday that he was pronounced dead; on Thursday he was buried. His brother, a doctor, held meanwhile to the belief that he was not dead and visited the tomb several times, and Mr. Harrison movedon Friday morning had the coffin opened, when it was found that the body was turned on its side. The young man, however, reon us side. The young man, nowever, re- assembly upon the question of amending the covered; he has no knowledge of the events constitution of this Province by abolishing the legislative council; and covered the transpired between his apparent death legislative council; and that transpired between his apparent death and restoration.

Railway Bridges.

The recent disaster near Boston has aroused attention to the subject of railway bridges and will have the effect of leading son, Harrison, Hally and Flowelling ha said railway corporations to give renewed and careful attention to the state of bridges on their lines. Frequent and expert examinations are called for; this is a matter in which, we believe, the New Brunswick Railway is exercising particular vigilance. As a contemporary states, " Every one in these days finds it necessary to travel more or less, and almost the only means of land travel now is by railway. Hence the necessity of making railways as safe as science and law can make

Favors Biennial Sessions.

The Moncton Times, after quoting Ontario journals in favor of biennial sessions for the legislature of that great province, says :-We commend the idea of biennial sessions larger. Mr. Black has made a move in the committee for that purpose. right direction in the matter of registrars; perhaps he or some other gentleman will take the sense of the Legislature on the question of biennial sessions. It is evident from the financial statements that are brought down from year to year that the province must bridge and school services even in their Lewis-13. present efficiency without imposing fresh
