WARRIUR

WARRIOR MOWER! The Old Warrior Mowing Ma-

chine to the Front again! I BEG leave to inform the public generally that I have secured the agency of the OLD WAR-RIOR MOWER of 1873 patent, for the County

The great many years it has been in successful use in the field has proved it to be superior in mechanical construction, lightness of draft, ease of management, durability and capacity to do good work under all circumstances. In claiming a superiority for the Warrior Mower over others, we would call special atten tion to the following points:—

The Guards are nearer together than those of any other Machine, being only 2½ inches from centre to centre, which is a very desirable feature

for the following reasons: 1st. It is almost impossible to stone the knives. 2nd. It renders the Guards less liable to break. 3rd. It takes less power to do the work, be cause the grass is more evenly divided, is collected in smaller bunches, and consequently cut easier; and because narrow sections require less throw to the crank, which is shortened, and the work brought near the power applied.

4th. The finger bar has a wabbling or rolling motion in its length, allowing the points of the guards to rise or fall, and to rise out of the dead furrows or run over the cradle knolls with ease.

5th. The driving wheels are eight incher further apart than in most other machines, which allows them to run in the track made for them by the track clearer, and thus avoid running over the cut crop.
6th. The frame is iron, so arranged and balanced that it brings no weight on the horses necks, and entirely prevents all side drafts.
7th. The manufacturers have made a small change in the Warrior since they commenced its manufacture, making the main brace longer, thereby doing away with the possibility of the A. & W. F. THORNTON, - - HARTLAND. horse walking in the grass.

Sth. Every Machine is run and thoroughly tested before leaving the factory, and guaranteed to be made of the very best material.

Machines can be seen at my place. Write for circulars and price list. Repairs kept on hand. W. A. SHERWOOD. Carleton Co , April 18, 1988 -17.

very tired if she walks five blocks. A New Home Treatment for the Cure of Catarrh, Catarrhal Deafness and Hay Fever. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple rem edy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made by the patient at home.

READ THE FOLLOWING; Ritcey's Cove, Nova Scotia, June 22, 1885 GENTLEMEN—I am happy to say that the treatment which you sent me last February has effectually cured me of Catarrh. Mine was a case of long standing, and up to the present time I have been waiting for developing remains of Catarrh, but none are manifest. You may use my nam as a proof that your remedy cures Catharrh. I feel grateful for the removal of such a trouble. Yours etc., (REV.) G. O. HUESTIS. TWO YEARS LATER.

Mill Village, Queen's Co., N.S. Dec. 23. 1897.
GENTGEMEN—Allow me to say that after three years' trial I find no unpleasant odor in the nose or, fetid breath, which used to effect others in my company. No symptons of Catarrh remained after the second application of your remedy.

Wishing you success in doing good, I remain, Yours sincerely (REV.) G. O. HUESTIS,

We send a pamphlet describing this new treatment on receipt of postage stamp. A. H. Dixon & Son. 303 King St. W. Toronto, Can.
