What Am I to Do? The symptoms of Biliousness are unbappily but too well known. They differ in different individuals to some extent. A Bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but now. he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order and Diarrhœs or Constipstion may be a symptom or the two may alternate. There are often Hemor-rhoids or even loss of blood. There may be gid-diness and often headache and acidity or fistulence and tenderness in the pit of the stomach.

To correct all this if not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy. Uncle takes Tommy to the barber to Barber-Well, Tommy, how do you want vour hair cut? Tommy-Oh, short, please, with a

The condition of tens of thousands of women today is pitiable in the extreme; they are week, bloodless creatures, a prey to mental anguish and bodily pain; in a word, "broken down," from aby one of the numerous causes. To this unhappy multitude we strongly urge the use of Dr. Pierce's Favorite Prescription, an infallible, world-famed remedy, for all "female" irregularities and "weaknesses," and which restores the worst sufferers to vigorous health, and rein-vests her with all the charms of figure, face and complexion, that receive such willing homage

"Gift Enterprises" seem to be all the rage in the Soap Business, owing to the idea of some manufacturers of get-ing something out of nothing, if possible. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made by the patient at home.
