To the Editors of the Carleton Sentinel:

Gentlemen,—In your last issue of the Sentinel your correspondent, M., manifests great surprise that the indebtedness of the Parish is as great as A. W. Rideout's reply to Fair Play stated it was. Any sudden or unusual shock will alarm the firmest of us. There are six hundred and twelve ratepayers in the Parish. I have no hesitation in believing that six hundred and ten will be equally surprised, and the balance may not equally surprised, and the balance may not swathe in Washington. These men, all of manifest any surprise. Be that as it may, them genial and most of them generous, bold the statements in A. W. atest, just opened, at R. B. Belyea & Co.'s. To the Editors of the Carleton Sentinel: Pursuant to notice in your paper a large number of my friends assembled at Robinson ne by Mr. Longstaff. I wish through Sentine to tender to my friends my hearty chanks for the same. I appreciate very highly the kindness of Mr. and Mrs. R. Longstaff in allowing us the use of their house on the occasion, and the good will of all who assembled that morning. I hope each giver feels as happy and pleased in giving as I do in receiving; I know a greater blessing is theirs, for it is written "16 is more blessed to give than to receive."

arisen from the fanatical adhesion of the Government to arguments long since out of date, the Government's aim being to worry the Americans into granting free admission to Canadian fish. A Liberal paper at Leeds says, "This scheme has utterly failed, as it deserved to fail," and deprecates any action by the Imperial authorities that would tend to create the slightest friction between England and the United States.

Social Excursion.

To the Editors of the Carleton Sentinel: The Engineers of N. B. R. are to be con gratulated for their very successful and en-joyable trip to the Grand Falls and Edmundson on Saturday last. Invitations were extended to Engineers from Maine Central, St. Uroix and Penobscot Railways, also to friends in Woodstock and Houlton. The train arrived at Grand Falls in due time and the capacity of the hotels was tested to their utmost in order to provide accommodation for the furnished by Manson and Jones of Houlton. On Sunday morning the ladies and gentlemen composing the party were out early viewing the many sights to be seen at the Falls, until the church bells called them to Divine service. In the atternoon the party went to Edmurdston and spent a couple of hours there and arrived back at the Falls at 7 p. m. The weather was everything that could be desired, and the party one and all were more than pleased with their trip. The committee in charge were: Jas. Curran, Geo. Sinclair, Geo. Gabel and A. McGibbon, and they were unceasing in their efforts to make they were unceasing in their efforts to make it pleasant for their guests. A gentleman from Montreal, although on a business trip, contributed very materially to the amusement of the party; he is commonly known by the name of "Buffalo Bill," and is one of the best fellows travelling, a general favorite with the ladies and always ready to entertain. John Rose and lady of St. Stephen, were of the party, and seemed to enjoy their trip very much; Thos. McKeena of Carleton, St. John, Chas. Berry and wife, Thos. Manny and wife. Dam At Grand Falls.

To the Editors of the Carleton Sentinel Under the head of "Dam at Grand Falls," water to run logs down the Falls and through the Narrows. I don't wish to throw cold water on any scheme tending to improvement or progress, but common sense must govern all things. A common sense view of a dam intended to carry logs through a narrow, rocky and difficult place for logs to pass, is that the dam should be in that place. What is wanted is rolling dams to flow out such is wanted is rolling dams to flow out such places sufficient to give lumber a chance to run over them. Only two would be required, one at the Narrows and one under the bridge. The work should be undertaken by government and a fish-way should be provided. Even if a dam above the Falls were advisable it would not be allowed, for it would destroy more by backing up the water over private lands than it would save the lumbermen. The Beardsley dam backed the water up to St. Leonard's flats and no reserve. P. O. BYRAM.

WASHINGTON LETTER.

(From Our Regular Correspondent.) WASHINGTON, Sept. 21st, 1888. When John Sherman arose on Tuesday and announced to the Senate that he would H. PAXTON BAIRD'S "briefly" address that august body on the resolution to inquire into our relations with Canada, there was no trace of irony in his tones. He read his speech, rather an unusual thing for Mr. Sherman to do, having only occurred once before during this session, that being when he challenged the President's Sherman's speed is about two hundred words a minute, and as he talked one hour, the speech was long enough, at least, to be a complete review of the case. The attendance was unusually large. The remedy advanced, annexation, was insisted upon with much new and novel argument, and this set speech was perhaps more interesting than most of Mr. Sherman's efforts. It had the weight of

an official manifesto of his party, and was so It pleased Senator Morgan, in his reply, to pursue a light not to say chastely jocular, vein of thought.
