WARRIOR MOWER!

The Old Warrior Mowing Machine to the Front again! I BEG leave to inform the public generally that I have secured the agency of the OLD WAR-RIOR MOWER of 1873 patent, for the County

The great many years it has been in successful use in the field has proved it to be superior in mechanical construction, lightness of draft, ease of management, durability and capacity to do good work under all circumstances In claiming a superiority for the Warrior Mower over others, we would call special attenion to the following points:-

cause the grass is more evenly divided, is collected in smaller bunches, and consequently cut One throw to the crank, which is shortened, and the work brought near the power applied.

4th. The finger bar has a wabbling or rolling motion in its length, allowing the points of the guards to rise or fall, and to rise out of the dead

furrows or run over the cradle knolls with ease. 5th. The driving wheels are eight incher further apart than in most other machines, which allows them to run in the track made for them by the track clearer, and thus avoid running over the cut crop.
6th. The frame is iron, so arranged and bal-

anced that it brings no weight on the horses necks, and entirely prevents all side drafts.

7th. The manufacturers have made a small change in the Warrior since they commenced its manufacture, making the main brace longer, thereby doing away with the possibility of the horse walking in the grass.

8th. Every Machine is run and thoroughly tested before leaving the factory, and gueran. tested before leaving the factory, and guaranteed to be made of the very best material. Machines can be seen at my place. Write for circulars and price list.

Repairs kept on hand. W. A. SHERWOOD, Waterville, N. I Carleton Co., April 18, 1988 -17.

The old wives tell us " that blushing is virtue's livery." But, alas! to many a maiden, whose soul is purity itself, has been denied the gracious privilege of wearing the delicate crimeon; and all because her skin is covered with blotches, pimples, yellow "liver spots," and other dis-colorations. Who can tell how such a maiden loathes the very sight of herself, or who shall intrude upon her as she weeps bitter tears over her uncomely appearance? Thrice unhappy she, if by the use of cosmetics, she shall seek to hide her wretched complexion. But if she will use Dr. Pierce's Golden Medical Discovery, to regulate the liver and purify the blood of all the poisonous humors, she will find that her "flesh shall come again like the flesh of a little child.' It cures scrofula, tetter, salt-rheum, pimples, blotches, eruptions, and all skin diseases. Drug-

let that cold of yours run on. You think it is a light thing. But it may run into catarrh. C into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself. The breathing apparatus must be kept clear of all obstructions and offensive matter. Otherwise there is trouble shead. All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boschee's German Syrup. The Guards are nearer together than those of any other Machine, being only 2½ inches from centre to centre, which is a very desirable feature for the following reasons:

1st. It is almost impossible to stone the knives.

2nd. It renders the Guards less liable to break.

3rd. It takes less power to do the work, because the grees is more evenly divided is col-GLASS: IRON; Blacksmiths' Coal.
