WARRIOR MOWER!

chine to the Front again! I BEG leave to inform the public generally that I have secured the agency of the OLD WAR-RIOR MOWER of 1873 patent, for the County

The great many years it has been in successful use in the field has proved it to be superior in mechanical construction, lightness of draft, ease of management, durability and capacity to do good work under all circumstances.

In claiming a superiority for the Warrior Mower over others, we would call special atten-Mower over others, we would call special attention to the following points:—

The Guards are nearer together than those of any other Machine, being only 2½ inches from centre to centre, which is a very desirable feature for the following reasons:

1st. It is almost impossible to stone the knives.

2nd. It renders the Guards less liable to break.

3rd. It takes less power to do the work, because the grass is more evenly divided, is collected in smaller bunches, and consequently cut easier: and because narrow sections require less

easier; and because narrow sections require less throw to the crank, which is shortened, and the work brought near the power applied.

4th. The finger bar has a wabbling or rolling motion in its length, allowing the points of the guards to rise or fall, and to rise out of the dead furrows or run over the cradle-knolls with ease. 5th. The driving wheels are eight incher further apart than in most other machines, which allows them to run in the track made for them by the track clearer, and thus avoid running 6th. The frame is iron, so arranged and bal-

change in the Warrior since they commenced its manufacture, making the main brace longer, thereby doing away with the possibility of the horse walking in the grass.

8th. Every Machine is run and thoroughly tested before leaving the factory, and guaranteed to be made of the very best material. Machines can be seen at my place.

Repairs kept on hand. Carleton Co., April 18, 1988 .- 17.

ONE THIRD OF YOUR LIFE IS SPENT IN BED.

Woodstock, February 15, '88

How important then that you have a good Bed to sleep on. The more quiet and undisturbed your slumber, the more fully does nature repair the waste and damage your system has sustained during the day. The man who comes home exhausted by the labors of the day and stretches himself upon a hard uneven bed will rise in the morning very little benefitted by his sleep. Other things being equal, the man who has a comfortable bed will have clearer brain. A stronger arm, and a longer life than his neighbou who is not so fortunate. The Burterfield China, Spring Bed will positively give more solid comtort to the square inch than any other bed in the market. And the man who is fortuna's emough market. And the man who is fortuna'e equugh perfect spring surface, which gives an elastic movement wherever weight is placed. Having secured the exclusive right to manufacture these Beds in New Brunswick, I am prepared to sell them either at wholesale or retail.

Good reliable agents wanted in the Northern and Eastern Counties, to waom exclusive Territory will be given. I am also prepared to sell rights to manufacture in Nova Scotia and P. E. Island, or to arrange with reliable parties who

wish to manufacture on royalty.

A FTER nearly a year's use of SIMPSON'S LINIMENT, I have proved it to be what I supposed at first it was, an excellent Liniment to have about a Stable. I have used it in cases of

Cuts, Galls, Bruises and Sprains on my horses, and in every case found it to give relief at once, cleansing the Cats and Galls so that they healed rapidly, and reducing the sore-ness in cases of Sprains and Bruises in a short

Nothing has presented itself to me that so et-Relieves and Prevents the Horse Distemper.

I have also found it of very great service both in my family and in the families of my men, in cases for which it is intended to be used.

R. T. WATSON, Livery Stable, 31 King Square, St John, N. B. BROWN BROTHERS & CO., Chemists, Halifax, N. S. Burdock
