School Visitations. On Sunday last, the V. P. of Woodstock. C. R. Watson, accompanied by the Co. Secretary, visited the Union S. S. at the Ridge, of which John Moxon is Superintendent. This is a small school, the average attendance being 16, but it is a lively and interesting one; a plan here pursued might be followed with advantage by other schools; all the school stand and in consecutive order the scholars repeat certain passages of Scripture committed to memory. At the request of the Co. Secretary a vote was taken, when the unanimous decision was to keep the school run-

ning all winter. In the afternoon of the same day the Benton school was visited and, as was to be expected, was found to be in a flourishing condition under the faithful Superintendent David Porter and GOOD HOURS
his able staff of teachers, the prestige of this school is being fully maintained. The roll of membership contains some 115 names; present on Sunday, 3 officers, 11 teachers, 71 scholars; total 75.

Communicated,

The First Presbyterian President of the United States.

To the Editors of the Carleton Sentinel: In your last issue I notice a paragraph stating that General Harrison will be first Presbyterian President of the United States. This byterian President of the United States. This byterian President of the United States. This is distinctly an error, as the present occupant of the Presidential chair (Grover Cleveland) is a Presbyterian, as was also. I believe, James Buchanan. I am of opinion that Mr. Harrison will be at least the third Presbyterian President of the neighboring republic.

Vonce truly Yours truly.

A PRESBYTERIAN. Woodstock, N. B., Dec. 11th, 1888.

John Bright on Federation. The federation project seems to me to be founded on ignorance alike of history and geography. It is partly or mainly the off-spring of the jingo spirit which clamors for a vast and continually widening Empire, and seems almost ready to boast that it can fight the world outside its own limits. I would recommend all sensible men to let the question rest. If we are conciliatory and just to the colonies, and if our foreign policy is less mad than it has been during much of the present century, we may hope that the friend-ship between Britain and her daughter States may long continue and may strengthen. It changes come which we cannot now foreeee, but from which nations cannot escape, and if separation becomes necessary, let us hope that what will be done will be done in peace and with general concurrence, and that the lustre of the English name and fame will not be tarnished, but will receive an added 100 DOZEN AXES, glery from the greatness and the prosperity and wisdom of the States which England has
