ONE THIRD OF YOUR LIFE

How important then that you have a good Bed to sleep on. The more quiet and undisturbed your slumber, the more fully does nature repair the waste and damage your system has sustained during the day. The man who comes home exhausted by the labors of the day and stretches himself upon a hard uneven bed will rise in the morning very little benefitted by his sleep. Other things being equal, the man who has a comfortable bed will have clearer brain a stronger arm, and a longer life than his neighbor has a comfortable bed will have clearer brain. a stronger arm, and a longer life than his neighbor who is not so fortunate. The BUTTERFIELD SPRING BED will positively give more colid comfort to the square inch than any other bed in the market. And the man who is fortunate enough to possess one is led to say with Sancho Parza: "Blessed be the man that invented sleep." It is the orly bed ever made that has the elastic spring and brace, each bed being connected on the surface with side springs. There is thus formed a perfect spring surface, which gives an elastic movement wherever weight is placed.

Having secured the exclusive right to manufacture these Beds in New Brunswick, I am prepared to sell them either at wholesale or retail.
