

TERMS OF THE SENTINEL.
Subscription \$1.00 a year in advance; \$1.50 not paid in advance.
Short notices not exceeding 6 lines, 50 cents per line; 10 cents each subsequent insertion.
Transient advertisements should be accompanied by the money to insure insertion.
Mr. J. H. Bates, Newspaper Advertising Agent, 41 Park Row, Times Building, New York, is also authorized to contract for advertisements in the SENTINEL at our best rates.
This paper may be found on file at 420, P. O. Box 100, New York, where advertising contracts may be made for it in New York.

The Sentinel.

SATURDAY, AUGUST 4, 1888.

SENTINEL OFFICE, in Vanwart's Brick Building, King street, up stairs.

EMPEROR OF GERMANY has given birth to a son.

THE POPE is reported to be suffering from liver complaint.

IN PORTLAND, ME., last year, 14,000,000 cases of corn were calked.

IN VENTURA CO. CAL., there is in one place 6,000 acres planted with beans.

NASTY for the queen of Denmark, who has been made deaf by a bug crawling into her ear.

BUTTERFLIES are popular drink in New York this summer; it sells for 3 cents per glass.

YOUNG LADIES, in Maine, may frequently be seen in the hay fields driving mowers and rakers.

LOD SALUBRITY is in bad health and has been advised by his physicians to seek change of climate.

A NOVELTY IN NEW YORK is a store kept by a Hindostani merchant with five clerks of like nationality.

MR. EDWARD BLAKE sailed from Liverpool for Canada on the 27th. He is to be banqued at Toronto.

THE MONTH OF JUNE showed in England an income of \$15,000,000 in the imports and \$8,000,000 in the exports.

THEY ALL DO IT, and now the Baptists of Louisiana in State Convention have resolved against admission of female delegates.

ONE THOUSAND persons were killed by a volcanic eruption at or near Yokohama, China, and several villages destroyed.

BREAST AND PUNCH.—A Baltimore man who committed suicide, directed that \$10 should be expended for beer and punch at his funeral.

DURING THE QUARTER ended June 30th, 3,270 forms of evictions were filed out in Ireland and most of them have been served.

BUREAU ATTES has a railroad extending 211 miles without a curve; it has no bridge and no cut or fill extending three feet in depth or height.

A PARISH in the County of Berks, Quebec, has been visited by swarms of grasshoppers which have destroyed nearly all the growing crops.

THE DRIED FRUIT production in California has become immense; this year it will be 250 million pounds or more than five times as much as in 1887.

WATCH THE SKY in the Northwest about 9 o'clock p. m. on 5th and 12th of August for the meteoric display which is promised them to occur.

FOR THE MOSQUITOES.—Dampness powder burned over a lamp in a room, it is said, has been found very effective in its destroying effects upon mosquitoes.

A MR. LANE, not lamb like in disposition, quarrelled in New York with his wife recently, and threw her out of a fourth floor window. She is dead or dying.

THERE ARE THREE candidates out for the representation of Colchester, N. S. Sir A. Archibald, conservative, Angus Eton liberal, and Mr. Fulton a third party candidate.

Mrs. Donaldson, aged 70 years, left her home in Ottawa, where she had been nursing her sick son, to take a walk. She fell headlong over a cliff, near the residence, a distance of 100 feet breaking her neck.

A THOUSAND CHILDREN, 80 says Rev. B. Waugh, ex. of society in England, for protection of cruelty to children, are murdered every winter in England to obtain the insurance on their lives.

ON MONDAY NEXT will be put in operation an oil pipe line by which, in a pipe 8 inches in diameter and 200 miles long, crude petroleum will be conveyed from Lima, O., to South Chicago. The pipe holds 65,000 barrels.

NO INQUEST was held on the remains of James Moore, in California, who committed suicide by sitting down on a 50 pound box of giant powder and touching it off. The coroner vainly asked, as to his remains, where are they?

IT IS SAID that some learned foreign doctor has been investigating the death of Cleopatra and discovered evidence that she was suffocated by carbonic oxide and not bitten by a viper. It is admitted without investigation that she is dead.

MR. GEORGE HAGEMAN, of Scotch Settlement, York Co., died on the 27th ult., aged 70 years. He was a gentleman highly respected. Mr. W. Hageman, the well-known popular conductor on the Fredericton branch railway, is a son of deceased.

ON THURSDAY LAST, the venerable duchess dowager of Montagu, aged 70 years, twice before married, a big stout, horse-racing lady, was married to Henry Milnes, aged 24. It is said the eldest son of Milnes's point of view is that Her Grace is in vigorous health.

THE BILL TO APPOINT a commission to investigate the charges against Parnell passed the House of Commons by a majority of 43. The commission is composed of Judges H. Smith and Day. Mr. Parnell's speech on the bill was remarkably clear and impressive, and when he sat down, not a minister or follower of the ministry thought it safe to follow him immediately.

DEMANDING ATTENTION is the statement of Sir James O'Riordan Browne, M. D., who is quoted by a London education paper as furnishing in a report to the education department ground for the inference that the main cause of the increase in certain brain, nervous, kidney, and heart trouble is "over-pressure in elementary schools." In short, that the children are cramped with the seeds of disease.

PREMIERES AND CONCLUSIONS, and perhaps the conclusion is not far fetched or exaggerated in the following.

A number of dead Chinamen were shipped back to Canton the other day from Chicago. Each body was placed in a tin box, on which was fastened an appropriate epitaph.

One of these notices read as follows: "The blessed bones of Ling Chuan. May they rest in peace. They are the bones of an honest man. He washed shirts and washed them well, and was also a good runner. His reward is here. Collect cash \$13.00."

SOLD PERPETUALLY.—A successful Russian method of solidifying petroleum, consists

simply in adding to the heated oil from one to three per cent of soap, which dissolves, and, on cooling, the mixture becomes a cement like mass, having the hardness of compact tallow. This forms a convenient and economical fuel which is used to light, heat, and without smoke, but develops much heat, and leaves about two per cent of a hard black residuum.

A CLERGYMAN of the Church of England, in Suffolk, who enjoyed a stipend of £500 per annum, has recently been sent to prison, on having been discovered that he obtained admission to the ministry by use of forged papers representing him as having been formerly a Catholic priest, converted priest admitted to the Church of England ministry without ceremony or re-ordination. He had previously imported by fraud on the Roman Catholic Bishop.

WELDING BY ELECTRICITY is likely to find an almost infinite variety of applications in mechanics, the arts and sciences. Among the advantages of electric welding, according to O. K. Stewart, are an absolutely pure heat, that is, a heat free from harmful gases, absolutely perfect means of regulation, heating constantly before the eyes of the operator, a method of welding which is not affected by the weather, an increased economy of about 300 per cent. in most cases, absolute safety of handling apparatus, and portability of the apparatus for use in repairing, etc.

The New Ministers.

It is announced that Hon. Edgar Dewdney, late Governor of the Northwest, and formerly a representative in Parliament of a Pacific constituency, has been appointed Minister of the Interior, and Mr. Haggart, representative from South Lanark, Ont., Postmaster General.

Constitutional Progress.

The progress of the work, as regards constitutional and political methods, has an indication in the fact that the people of the Sandwich Islands are perfecting their representative system. A bill has been introduced in the Legislature of the Hawaiian Islands, on the English plan, providing for full secrecy, a uniform system of registration, ballots to be furnished at the public expense, and the controversial elections to be tried by the judges.

Hodging.

To outsiders, it looks as if the Republican Senators of the United States were trying to budge on the tariff question and this opinion we have heard expressed by independent Republicans. The Mills' bill passed by the House of Representatives, and the essential principles, facts favor with the people and for the Republicans simply to defeat it in the Senate, where they have the majority, would be to injure their party at the elections. They, therefore, propose to substitute a tariff bill which they have prepared themselves and which makes a still greater reduction in duties than does the Mills bill, hoping thus to satisfy that large section of their party who desire tariff reform.

The Town.

How long one may live in a town as a town and remain in ignorance of its extent and its surroundings! No doubt there are not a few of our readers, old residents too, whose ideas of the size of this town as indicated by the number of its streets and dwellings, are limited by observation made when its inhabited area was much more limited than it is today. A walk or a drive of exploration, to and in the suburbs, show that Woodstock has expanded and is expanding quite vigorously and rapidly. In the back streets, buildings are crowding up the before vacant spaces, and many very nice residences are met with. The short streets, running East and West, are bordered by edifices showing individual taste and liberality of expenditure. On Connel Street one may find now for a mile an almost continuous row of excellent dwelling houses, and the same may be said of Main Street almost half-way to Upper Woodstock. South of the Woodstock, the place has become more and more a suburb of South as the Hudson road, and East of Broadway it has compact squares of quiet residences and pretty streets, while at Lower Corner, very marked improvement is evident. Indeed, many argue that Wellington Ward is the most inviting locality in town for private dwellings.

Referring to the North Western part of the town, it is to be regretted, and by-and-by succeeding generations will regret it more, that greater regard to straight lines and right angles had not been observed in laying out the streets. In this respect, Woodstock is more likely to rival Boston than Philadelphia.

When you want a change, instead of driving out into the beautiful country, over the commonly used thoroughfares, spend an hour in the streets of the town and notice how it has grown and is growing.

Proposed Changes.

The Telegraph, while remarking upon the speech of Hon. Mr. Mowat, in London, makes a statement which seems rather surprising as a statement of fact, and still more so as being made by a paper which has, in this, ignored the idea of there being considerable changes in Canada to any considerable extent. Our contemporary says:—

"It is because there is in certain quarters some favor for giving away the country that the imperialist movement grows. It is because the main body of the population are not yet sufficiently educated to understand the advantages of the Dominion that the imperialist movement grows. It is because the main body of the population are not yet sufficiently educated to understand the advantages of the Dominion that the imperialist movement grows."

MR. GEORGE HAGEMAN, of Scotch Settlement, York Co., died on the 27th ult., aged 70 years. He was a gentleman highly respected. Mr. W. Hageman, the well-known popular conductor on the Fredericton branch railway, is a son of deceased.

ON THURSDAY LAST, the venerable duchess dowager of Montagu, aged 70 years, twice before married, a big stout, horse-racing lady, was married to Henry Milnes, aged 24. It is said the eldest son of Milnes's point of view is that Her Grace is in vigorous health.

SOLD PERPETUALLY.—A successful Russian method of solidifying petroleum, consists

Hon. Mr. Mowat, Premier of Ontario at a celebration dinner in London, this expressed himself regarding future changes in Canadian relations:—

Some enthusiastic Canadians, seeing what a great country we have become, are yearning to become an independent people. But we older men feel that we are not in a position to be thoroughly independent. Twenty-five years hence we might think of independence, but we cannot think of it now. Then there is another scheme which I will not discuss. I do not think such a thing would be a good proposal that we should give away this great country which has been entrusted to us to another country altogether. (Hear, hear.) And then there is the scheme of English independence. (Hear, hear.) But whatever solution this important matter may receive, I refuse to hope and feel the whatever change may be made in our relations with the old land it will be one which will make our connexion with the mother country indissoluble and perpetual.

Union by Rail.

The Empire comments on the increasing facilities demanded for trade between the upper and lower Provinces of Canada and the response to such demand that is being made by the construction of three railroads namely, the road from Rivière du Loup to Edmundston, the Quebec Central and the Canadian Pacific short line said to be the shortest line between the west and the lower Provinces.

The Will says:

It will be seen that, whereas there has been for many years only the one line of railway communication between the upper and lower Provinces, the close of the present year will see three independent lines in operation, while the Quebec Central gives what is almost equivalent to a fourth route to a large section of the Province of Quebec. Each of the lines will shorten the travelling time greatly, as compared with the Intercolonial. Indeed it is understood that by the Canadian Pacific short line the trip from Montreal to St. John, N. B. will be reduced for passengers to about twenty-four hours. What this means for tourists and travellers of all kinds is especially to be noted. The saving in money need not be enlarged upon. We have no doubt that with the three or four lines of railway to the Maritime Provinces in operation, for one Ontario or Quebec visitor to the Maritime Provinces there will be a saving in time and money which will be a great boon to the tourist and the business man.

Constitutional Progress.

The progress of the work, as regards constitutional and political methods, has an indication in the fact that the people of the Sandwich Islands are perfecting their representative system. A bill has been introduced in the Legislature of the Hawaiian Islands, on the English plan, providing for full secrecy, a uniform system of registration, ballots to be furnished at the public expense, and the controversial elections to be tried by the judges.

Hodging.

To outsiders, it looks as if the Republican Senators of the United States were trying to budge on the tariff question and this opinion we have heard expressed by independent Republicans. The Mills' bill passed by the House of Representatives, and the essential principles, facts favor with the people and for the Republicans simply to defeat it in the Senate, where they have the majority, would be to injure their party at the elections. They, therefore, propose to substitute a tariff bill which they have prepared themselves and which makes a still greater reduction in duties than does the Mills bill, hoping thus to satisfy that large section of their party who desire tariff reform.

as well as social order here, and both justly popular, are soon to enter into the history of the Dominion.

July went out August came in, accompanied, in some sections, by a violent rain storm with thunder and lightning. July has been a month of unusually old weather, the weather being in some districts very close to the freezing point.

We are glad to learn that the fair prospect of the burnt district at Gratton being immediately rebuilt. Already has J. H. Hale commenced rebuilding, and we are told Mr. W. Watson, William Watson, Mr. Brackett, and others are about to do likewise at once.

We notice that Mr. Stuart, from Williamsburg, and Mr. E. W. Widdow, who let their house last October and went to Wisconsin, and are now in the lumber woods on the North shore of the Patuxent, have been recently distinguished themselves by capturing a bear weighing 452 lbs.

G. W. Sipp's horse, attached to a plow, ran away on Monday, and after taking a hurried glance at a number of the streets, finally brought up on the hydrant opposite his owner's store, King Street. The horse was badly demoralized, and the cause of the hydrant being struck by the horse, Mr. Sipp's horse, attached to a plow, ran away on Monday, and after taking a hurried glance at a number of the streets, finally brought up on the hydrant opposite his owner's store, King Street.
