Long-Standing

Blood Diseases are cured by the persevering use of Ayer's Sarsaparilla.

This medicine is an Alterative, and effects a radical change in the system. The process, in some cases, may not be quite so rapid as in others; but, with persistence, the result is certain. Read these testimonials:—

"For two years I suffered from a severe pain in my right side, and had other troubles caused by a torpid liver and dyspepsia. After giving several medicines a fair trial without a cure, I began to take Ayer's Sarsaparilla. I was greatly benefited by the first bottle, and after taking five bottles I was completely cured."—John W. Benson, 70 Lawrence st., Lowell, Mass.

Last May a large carbuncle broke out on my arm. The usual remedies had no effect, and I was confined to my bed for eight weeks. A friend induced me to try Ayer's Sarsaparilla. Less than three bottles healed the sore. In all my experience with medicine, I never saw more

Wonderful Results.

Another marked effect of the use of this medicine was the strengthening of my sight."—Mrs. Carrie Adams, Holly Springs, Texas.

"I had a dry scaly humor for years, and suffered terribly; and, as my brother and sister were similarly afflicted, I presume the malady is hereditary. Last winter, Dr. Tyron, (of Fernandina, Fla.,) recommended me to take Ayer's Sarsaparilla, and continue it for a year. For nine months I took it daily. I have not had a blemish upon my body for the last three months."—T. E. Wiley, 13 Chambers st., New York City.

"Last fall and winter I was troubled with a dull, heavy pain in my side. I did not notice it much at first, but it gradually grew worse until it became almost unbearable. During the latter part of this time, disorders of the stomach and liver increased my troubles. I began taking Ayer's Sarsaparilla, and, after faithfully continuing the use of this medicine for some months, the pain disappeared and I was completely cured."—Mrs. Augusta A. Furbush, Haverhill, Mass.

COLIN KING, Sec.

COUNTY COUNCIL DISCUSSIONS

ON PETITION RE POLLING PLACES IN BRIGHTON.

Mr. Craig said he would ask the candid consideration of the Council to this matter, the more especially as there were now two petitions before them, one asking for the repeal of the by-law establishing two polling places in Brighton, and the other opposed to this and seeking to have the matter remain as it is. There was evidently a want of union among the people, as the names of some of the same parties were on both petitions, and some of them asking for repeal of the by-law are resident in the locality of the polling place it established.

He could not understand how this came: he did know that the petition he presented in January respectably signed, asked for the repeal of the by law; that it had been laid over for consideration at this June session and that he, now, in accordance with the views of the petitioners who had entrusted it to him, wished to have the petition disposed of and thought the wish of the voters interested should be considered and their convenience as to the locality of the polling place consulted.

Mr. Cooper said the petition he had now presented was handed to him last Saturday, and he himself had nothing to do with getting it up. He had been informed that the reason why some who had signed the petition brought here last January had signed this later one, was because they had signed the former under a misapprehension, the matter not having been properly represented to them. There had been contention in Brighton for several years as to the locality of the polling booth, and a compromise was effected by holding the elections alternately at Hartland and Rockland, then two Councillors belonging to the vicinity of Hartland were elected, and they succeeded in keeping the polling place at Hartland to the dissatisfaction of large numbers until the by-law in question was passed and two polling places established. He, Mr. Cooper, when elected, was asked if he would seek to give the electors the old system, and he had suggested that it would be better if a polling place was established further out in the district than Rockland, and the result was that Windsor was chosen as the best polling place. There were 150 electors of the parish living within three miles of Windsor polling booth, and a majority of the voters want to have a booth continued there. He had run an election successfully on this question and was prepared to do so again. The chief business of the parish was done at Hartland and, of course, it was an advantage to traders to have the annual gathering of electors at that place, but still there was not a single business man at Hartland who favored the proposed change, as having a polling place at Windsor was a simple act of justice.

It was a grave injustice, an act of robbery of their time and money, to ask or compel men to travel 15 miles to vote, as they would have to if only one polling place was maintained.

Mr. Cronkhite said there was nothing to establish as the additional polling place had already been established, and as the former petition was not now before the board it would be better to postpone further discussion 'till January. The motion to postpone then prevailed.

RE COUNTY GROUNDS WOODSTOCK.

Mr. Drysdale said the erection of the wooden portion of the fence was delayed last fall because it could not be fastened 'till the iron fence had been put up. As he had been a contractor for the wooden fence he had not felt at liberty last January to take an active part in the discussion that then took place. He would now say that, in his opinion, the fence should not have been put up until the ground had been graded, and he doubted if a good job could be made of the work now; it would cost a good deal of money to make a respectable job of grading the ground and he thought it would perhaps be better, now, to fill in some of the low places with the old brick, cleaning up the old rubbish, loose earth, &c., and leave the perfecting of the work to some later period when the Council was prepared to pay for it.

Mr. Carvell had no objections. There was no doubt chance for a large expenditure of money.

Mr. Williams liked Mr. Drysdale's suggestions for a partial levelling of the grounds now.

Mr. Cronkhite had every confidence in the building committee, and thought it would be safe to leave the matter to their judgment, after the expression of opinion which had been given against a large expenditure.

Mr. Boyd said there had been an accumulation of old rubbish, brush, tin cans, etc., on rear of grounds, and Mr. Connor had said to him he would clean it up for the privilege of putting up a temporary fence and turning his horse in. He Mr. Boyd had told him he might do so subject to approval of Council.

Mr. Smith said that Mr. Connor had spoken to him as a member of the committee about cutting the grass, but he did not understand anything about putting a fence up. He saw no special objection to a neat fence, but the one put up by Mr. Connor was very unsightly.

Mr. C. R. Watson said no doubt the grounds should have been levelled before the fence was built; this work could not now be done as it should be. Still much could be done in this way of improving the appearance of the grounds for $20 or $25.

Mr. Drysdale explained the topography of the grounds. They should be graded, loomed and sown with grass, and the walks gravelled. To do this $20 would not go far in town. They could not do such work as cheaply as it was done in the country.

Mr. Moores had thought, at first, that only a few dollars expenditure would be necessary, but now as the matter had been explained it would perhaps be better to let it remain as it is until a good job could be made of it, and the work done as they would like to see it done.

Mr. Cronkhite agreed with previous speakers. If it could be done as cheaply as it could be in the country it would be well to have the work done now, but as it is it were better to dispose of the old iron, clear up the rubbish and let the matter rest for the present.

Mr. Smith asked how it would do to take off the old iron and receive tenders for grading and thus ascertain what it would cost.

CORRECTION.—In our list of additions to parish officers, Richmond, last week there was an error in names. Thos. Hazen, should read Thomas Slegard, and Noel Henderson should read Joel Henderson—pound keepers and field drivers.

Woodstock, April 5, 1889.

Why Should Every Man Buy a BUTTERFIELD OR AN EXCELSIOR

Spring Bed?

BECAUSE one-third of his life is spent in bed.

Because feather beds absorb the poisonous exhalations of the body and are a fruitful source of disease, especially in summer

Because they have a perfectly elastic surface.

Because they will adapt themselves to every part of the body;

Because they have a spring and brace coupling, which holds every spring in position.

Because they are comfortable, healthful and economical.

Because they are the best beds in the world.

I am prepared to fill either Wholesale or Retail orders for these Celebrated Beds, at my old stand Main street, (now occupied by Johnston & Co.

GEO. N. CLARK.
