Sir John A. Macdonald is about convalescent.

An exchange says that Mr. John Leary, formerly of Woodstock, now of Seattle, is the owner of a new steamer just placed on Puget Sound. Mr. Leary says she will make twenty miles an hour, and will be the fastest stern wheeler in the world. She will be 175 feet keel and 1,200 horse power. She is to run between Seattle and Tacoma.

The death occurred at her residence at Douglas, the other day, of Mrs. Elizabeth Ann Peabody, relict of the late Mr Stephen Peabody, and mother of Mr. Isaac Peabody of St. Marys, in the 83rd year of her age. Deceased was a native of Devonshire, Eng., and has long been a resident of this vicinity. She was a lady universally respected.—*Gleaner.*

Wm. Bryce, Toronto, in his series of Canadian novels, has published "Upon this Rock," by M. C. O'Byrne. The book is well written, interesting as well for its peculiar style, as for the object sought which is to show that by the close of the twentieth century, the Anglo-Saxon race will have universal dominion. For sale at the book store; 60 cents.

Canada's Christmas, published by Wm. Bryce, Toronto, is a beautiful number. Besides containing excellent views of the chief cities of the Dominion it gives two complete stories by R Rider Haggard, "Long Odds" and "Hunter Quartermain's story." There is also given away with the work, the latest novelty, a Santa Claus stocking. At the book stores, 25 cts.

We are glad to know that the *Maritime Agriculturist* is receiving a generous support from the farmers of the Maritime Provinces, as from its make-up, mechanical and literary, it so well deserves. A new cover for the *Agriculturist*, and other improvements recently made, adds to the appearance and increases the value of the magazine. Published by Patereon & Gilbert, Sackville, $1 00 per year.

Splendid Bargains in all kinds of foot wear for Xmas, at McCormac & Steeves.

The firm of Johnston & Co., with head quarters in Fredericton, has been dissolved. L. W. Johnston will carry on the farm machinery and carriage business at Moncton, Newcastle and Woodstock, N. B., and New Carliele, P. Q., and the piano and organ business there and elsewhere. Messrs. J. T. and W. J. Clark, of the firm, will conduct a business in Fredericton and Petitcodiac under the name of J. Clark & Son.

The Woodstock branch will be under the popular management of Wm. and Geo. E Balmain, who have fitted up in connection with their office a neat show room for their musical instruments.

Great Bargains in all kinds of foot wear, including 6 cases Barton's French Kid Boots, at McCormac & Steeves.

At the annual general meeting of the shareholders of the Temiscouata Railway Co., at River du Loup, directors for the coming year were elected, and, at a subsequent meeting of the Board, Mr. McDonald was elected president, and Mr. Cameron vice president. The appointment of Thomas Crockett as general superintendent of the company was confirmed.

The new time table for above road appears in this issue. The Temiscouta Railway is now thoroughly equipped, and travellers over it speak in highest terms of the road, and the obliging and gentlemanly deportment of the officials from the popular General Supt., Thos. Crockett, down to the brakemen.

Where are you going? I am off to buy goods from McCormac & Steeves, who sell 10 per cent. lower than any others in town.

Christmas and New Year's Goods.

If there is not a breath of Christmas coming in the air, there are, on every hand, indications which appeal to the eye, and mutely speak of the holiday times. The millinery, dry and fancy goods stores may be said to be aglow and the jewelers' stores ablaze with large display of the paraphernalia of necessity, comfort and adornment for the person and the habitation, while in the drug stores and book stores are arranged an unusually abundant and varied stock of prettinesses in all manner of design and material to meet every taste, every want and every purse. The carriage makers, too, are well prepared to furnish any kind of a sleigh, etc., which, by the way, would be a useful and acceptable present.

Those who want to secure good value and desirable articles for money expended for Christmas or New Year's presents, and who have not time or opportunity to stroll round town and examine at all the stores the several exhibits, may safely rely on the index which our advertising columns afford and go or send for what they want to the establishments there referred to.

While referring generally to the claims of our advertisers in Town upon intending purchasers at this season, we do not forget that in some of their lines we have advertisers in the country districts of the County and them and their establishments we can most heartily recommend.

Should any of our readers visit St. John, and wish to make purchases, we can safely recommend them to make a first call on Turner & Finlay for dry and fancy goods; J. & A. McMillan for books, bric-a-brac, etc; Ferguson & Page for jewelry or W. H Thorne & Co. for hardware, etc.

In Fredericton, at Lemont & Sons, one can find almost anything except dry goods so called.

10 Case of Over Shoes and Felt Boots just opened, which we will sell so low as to astonish the natives. McCormac & Steeves.

For Dyspepsia, Loss of Appetite, General Debility, Nervousness, use Garden's Quinine and Iron Tonic. 50c. per bottle.

McDonald Arraigned.

William McDonald was arraigned before Judge King, at St. John, on Saturday, and pleaded not guilty. The entire panel was exhausted and only one juror secured, the rest being rejected for cause or on peremptory challenge by the defence. An order was given to summon 100 additional jurors. Finally, on Tuesday, a sufficient number of jurors was secured and sworn, and the trial is now being proceeded with.

Train Service.

We have not heard what, if any, answer has been received to the request made by some of our traders to Mr. Cram, asking for increased railway service. We can imagine, however, that the General Manager would scarcely see his way clear to putting on an additional train for mere local service, nor to disarrange the entire service, so far as present through connections are concerned, by materially changing the arriving and departing time of the through trains.

We have the assurance that some of the business men in town and country—some even who signed the petition—see no necessity for a change. Any one can see by a glance at the time cards that there is no town in the Province, perhaps not excepting St. John, that has so numerous and convenient a railway train service as has Woodstock, certainly not one where to so large a rural population means of frequent and ready access is given.

As the trains are now arranged people living up along the river can each week day come to Woodstock and have three hours there in which to trade, and on and after the 1st of January, when the time changes, there will be opportunity to spend five hours each day in town. We have heard that people in Fredericton complain that Woodstock is better favored, than are they, by the existing arrangement, which makes Woodstock a more convenient market for farmers along the line, between this place and Gibson, to reach than Fredericton. Of course if any injustice is done or attempted, those who suffer do right to complain; but, in this particular instance, those who have petitioned do not, we suppose, assume so much the role of complainers as that of men who desire to further individual or local interests. But justice is justice, and it is only just to admit that we have for this town an excellent train service.

While writing we are reminded of the fact that the railway contributes to the revenues of the town considerable in the way of water rate and through the taxes of its numerous employes; and, if we have been rightly informed, some of those latter have just cause to complain at what seems a discrimination against them in the levy of income tax; we are told as an instance among several that an employe of the Ry. Co. here whose wages is $60 per month has to pay more income tax than do some other citizens of high position and wealth.

District Lodge I. O. G. T.

In connection with the session of the Carleton Co. District Lodge, which meets here on Tuesday next, there will be a public temperance meeting in the Town Hall, in the evening. The following is the progamme arranged for the occasion; Addresses, by Dr. Atkinson, M. P. P., Rev. Mr. Noble and D. McLeod Vince, Esq., and recitations by several young ladies.

Election and Installation.

Woodstock Lodge, No. 38, L. O. A., elected and installed its officers for the current term on the 3rd inst., as follows: A. F. Lockhart, W. M; David Hipwell, D. M.; Joseph Vanwart, Chaplain; C. N. Scott, R. S; Chas. McLean, F. S; D. F. Merritt, (P. G. M) T; G. W. Hovey, D. of C.; John Sutton, L. Committee.—G. I Britton, C. N. Scott, J. T. Kerrigan, J. W. Boyer, J. J. Rogers.

Northampton Election.

At the election for councillors, in the Parish of Northampton, on Tuesday, the candidates were the same three that ran the protested election. There was a good deal of excitement, the sharpest canvassing of voters, but no unruly conduct or disorder. Geo. W. Hovey was the returning officer. The vote at the close stood C. P. Hull, 105; A C. Phillips, 103; John J. Rogers, 98. The two first named were declared elected.

Death of Alex. McDonald.

William McDonald received intelligence by letter, last week, that his brother Alexander was down sick with fever, at his home, Ansonia, Conn., but that no serious results were anticipated. On Monday morning over the wires came the sad and unexpected information that the fever had terminated fatally. Wm. McDonald, on receiving the news, left on the next train for Ansonia. The deceased left Woodstock some 20 years ago, was aged about 50, and leaves a widow and one child.

Narrow Escape.

Dr. E W Stevens, Hartland, had a very narrow escape from drowning on Monday. He started from the east side of the river to walk over to Victoria Corner, and when a little more than half way across, the ice suddenly began breaking up and moving. The doctor turned to retrace his steps which of course was now rendered exceedingly difficult and dangerous; however by dint of running, leaping and creeping, he succeeded in getting so near the shore that Messrs B. N Shaw and A. McMullin, who had seen his danger and hurried to the rescue, were enabled to reach him with boards and thus afford him a means of escape. The doctor was thoroughly prostrated, and he certainly had a close call.

McAdam's Church

The ladies of McAdam Junction provided an entertainment, at that place, Thursday evening of last week, to aid the funds of the Union Church building. The affair passed off most satisfactorily. The spacious new paint shop afforded a grand hall for the assemblage. The program embraced an oyster supper and refreshment table; and a vocal and instrumental variety. The musical part of the entertainment was rendered by a choir from Vanceboro and some St. Stephen talent under the direction of Miss Baird of Woodstock, who performed on the organ and guitar. Fifty-seven dollars was the amount realized. In furtherance of the object above named, the ladies have formed a sewing circle.

County Court.

The County Court, Judge Stevens presiding, opened on Tuesday. The following was the business transacted:—

Hathaway & Co. vs. Peter Masten, Assumpsit. J. N. W. Winslow, atty. and D. McLeod Vince coun. for plff. Undefended. Verdict for $90.14.

Catherine Gidney Administratrix, and John Gidney, administrator estate Isaac B. Gidney, vs. Samuel R. Huestis, Assumpsit. D. McLeod Vince atty. and coun. for plff.—Undefended. Verdict for $144 74.

Queen vs. G. F. Craig. Obstructing a Revenue officer in the discharge of his duty. Prisoner pleaded guilty. Sentenced to 3 months imprisonment in jail.

Queen vs. Geo. F. Craig. Obstructing Sheriff Dibblee and others in their discharge of duty. Pleaded guilty. Sentenced to 3 months in jail.

Railway Notes.

The new railway bridge at Monquart, near Bath Station, with the new piece of road, was put into use on Thursday of last week. Owing to the necessity of removing both the superstructure and abutments of the bridge, as well as the advisability of relieving the track of several sharp curves, a new location was decided upon, which is nearer the mouth of the stream. The abutments of the bridge are built of granite from Sugar Brook, and laid in hydraulic cement mortar. They were built by Mr. S. Gray, of this town. The superstructure is a 103½ feet Howe Truss, of modern dimensions and design, which are considerably heavier than that of 15 years ago when the old one was built, which we will recall was for a narrow guage road. Mr. W. E Alexander was the foreman in charge of this work.

The same day the new steel bridge was put in place at Stickney Brook. It is a steel plate girder, built at the Dominion Bridge works of Montreal, and is 44 feet long. It was put together complete at the works and carried to the site on two flat cars.

Stephen Peabody, from the committee appointed to visit the Wakefield and Jacksontown Agricultural Society, and consult on matters in connection with holding an exhibition next year, reported that the committee had been received very courteously, and after a full consideration of the question, the society named had determined on calling a meeting of representatives from all the county agricultural societies to further consider the question. Report received.

A communication was read from the Wakefield and Jacksontown Society, inviting this society to elect three delegates, to meet with the same number of delegates from each society in the county, at Jacksonville, on the 23rd inst. to discuss the question of holding a County Convention in 1890.

Victoria and Madawaska Teachers' Institute.

E. L. O'Brien, Inspector, has issued a call for a meeting to organize a Teachers' Institute for the Counties of Victoria and Madawaska. This is a move in the right direction, and the teachers in the counties named should enter upon the scheme with such a whole heartedness as shall make their Institute second to none in this Province. We are fully convinced that Institutes of this character are largely influencing for good the teachers, and through them the schools, of New Brunswick; and the more distant the teachers are located from the great centres of population and educational establishments, the more necessity there is for some such an organization. We have no doubt the intelligent teachers of the two counties referred to will make their Institute highly productive of good. The following is the programme issued by Inspector O'Brien:—

The first meeting of the Teachers' Institute for the Counties of Victoria and Madawaska will be held on Thursday and Friday, 19th and 20th December, at Grand Falls. The following programme has been arranged:

Thursday—First Session, 10 to 12 a. m.; Address by Inspector; Enrollment, Election of Officers, etc. Second Session, 2 to 5 p. m.—Paper, School Management, E. M. Brundage; French Paper; Reading, Miss Lea Dumse. Third Session, 7.30 to 10 p. m.—Public Meeting in Victoria Hall; Addresses on Education, by Wm. Crocket, Chief Supt., and others.

Friday—First Session, 9 to 12 a. m—Paper; Arithmetic; Paper; Oral Grammar, D. W. Ross. Second Session, 2 to 5 p. m.—Modelling in Clay; Question Box.

Teachers are requested to bring for exhibition specimens of Manual Work executed by their pupils.

As this will be the first Institute held in the Counties of Victoria and Madawaska, every teacher in the two Counties is particularly requested to attend and make the meetings successful. Those who live at a distance will be allowed Wednesday, 18th December, for travelling.

E. L. O'BRIEN.

Grand Falls, N. B., Dec. 2, 1889.

Jubilee Year of a Woodstck Drug House Founded Half a Century Ago.

Since the establishment of Apothecaries Hall by William T. Baird, in 1839, just 50 years ago, Woodstock has seen many ups and downs, through its many disastrous fires, and Apothecaries' Hall has had its share, having been burned out three times, viz., in 1860, 1868 and 1877. Notwithstanding these put backs the business has gone on prospering and to prosper.

The name of Apothecaries' Hall is synonymous with fair and honorable dealing and good quality of goods, and always abreast of the times. Succeeding his father in 1873 the present proprietor, H. Paxton Baird, who has had over twenty years experience in the business has left nothing undone that would make Apothecaries' Hall a popular as well as a profitable place to deal at. With such a complete stock, one is almost certain to get what is asked for, in all the various branches of the business. To celebrate the year of Jubilee of the business, Mr. Baird has replaced with new ones, many articles of shop furniture about worn out in the service—among which is particularly noticed a handsome and commodious Prescription Counter. The store itself is a model of neatness and convenience, is well lighted, finished in ash and walnut, and is one of the handsomest in the Province. Just now the store is transformed into a bazaar of goods for Christmas, and all manner of useful and beautiful presents for young and old are tastefully displayed.

But this is not all. In his large brick building adjoining on King street is the wholesale and manufacturing department, which is kept entirely separate from the retail building. The building is well adapted for the business. An elevator runs from the basement to the third flat above; here we find the bottling room, everything is in order and cleanliness, and it is almost a wonder how with so many hands employed in bottling oils and other preparations, the place is kept so clean and neat, but then there is a place for everything and things are kept in their proper places.

Although it is only six or seven years since this branch of the business was gone into to any extent, it has increased rapidly, especially in the sales of some of his proprietary articles, many of which have had an excellent local reputation since the foundation of the business, such as his Quinine and Iron Tonic, Liniment, Balsam of Horehound, etc., etc., but now these with a full line of his preparations and Flavoring Extracts, etc., are to be found in nearly every dealer's store in the Lower Provinces. When we see boxes and barrels being wheeled out for shipment to different points of our Southern Dominion, Newfoundland, etc., and remembering our excellent railway service to and from all points the question is suggested, why cannot similar shipments be made in other lines? Employment is given to quite a number of hands and as the growing business demands it, the force is every now and then increased; business is unusually good this fall and all hands are doing their best to clear out accumulated orders. With Mr. Baird's knowledge and management, we look for a large measure of prosperity to reward his enterprise—which he certainly deserves.
