## How Lost, How Restored!

Dr. Culverwell's Celebrated Essay on the radical cure of Spermatorremes or incapacity induced by excess or early indiscretion. The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of early error may be radically cared; pointing out a mode of cure at once simple, certain, and effec-tual, by means of which every anfferer, no matter what his condition may be. may cure himself cheaply, privately and radically

Dress Goods!

The Butterfield spring Bed has been in use in this country nearly two years. From a very smell beginning and with very little effort the trade has grown until the sales have run up into the thousands, and with the exception of a slight defect in a few of the first manufactured the Beds have given universal satisfaction. In fact in many localities the very name has become a synonym for Ease and Comfort. The EXCELSIOR SPRING BED is a later invention which, while retaining all the elasticity and freedom of action which characterize the Futterfield, is so securely braced that there seems to be no possibility of the outside springs being bent inward under any circumstances.

Having purchased the Patent Rights for the above mentioned beds, I am prepared to furnish them at either Wholesale or Retail. I am also prepared to sell rights to manufacture in any part of the Dominion not already taken, or to arrange with parties to manufacture on royalty. GEO. N. CLARK. Woodstock, Dec. 21, 1888.
