According to the unrevised revenue statement, there was a surplus, on the 30th June, of $5,700,000 for the year. After subsidy and interest payments are completed there will be, it is said, a net surplus of $1,500,000.

The Coroner's jury which has been investigating the Johnstown disaster, has brought in a verdict censuring the proprietors of the dam for not making it secure and declaring that to them must be attributed the appalling loss of life.

Chicago has recently added some 200,000 to its population by absorbing a number of adjacent towns; its entire population now is stated to be 1,100,000 with an area of 174 square miles making it in the latter respect the largest city in the United States.

Ottawa and Montreal have each, recently, had social sensations. In the former city, a Catholic young lady, neice of Cardinal Taschereau of Quebec, was married to a young English Protestant; and, in the latter, a young Jewess renounced the church of her fathers, joined the Catholic Church and married a Catholic.

The Shah of Persia, having been wined and dined and feted in Russia, is now undergoing similar treatment in England. A contemporary remarks:—

"It is rather an odd thing to keep in mind that England's fate in India may depend in a measure on the amusements provided for the Shah while he is in London, and the things he is given to eat."

At a meeting of ministers and others, in Boston, recently, in a discussion of the "prison problem," the idea was eloquently advocated that it were better to spend the enormous sum of money, now expended to convict and punish men, in keeping them out of prison and in caring for those who have been in after they get out. Too many laws and too severe terms it was urged make law-breakers.

In 1816 it took just one bushel of corn to buy one pound of nails, now one bushel of corn will buy ten pounds of nails. Then it required sixty four bushels of barley to buy one yard of broadcloth, now the same amount of barley will pay for twenty yards of broadcloth. It then required the price of one bushel of wheat to pay for one yard of calico, now one bushel of wheat will buy twenty yards of calico.

At the French Canadian Convention, held in New York on the 3rd, the following resolution was adopted:—

"The French Canadians cheerfully pledge themselves to become American citizens and take this opportunity to proclaim their devotion to their adopted country."

The discussion of the annexation question was postponed 'till next year.

The *Mail's* Ottawa despatch says:—

"The Secretary of State has received from the home government a petition, addressed to the Queen, praying for disallowance of the Act endowing the Society of Jesuits. The petition is returned with the intimation that Her Majesty's government are of opinion that the matter contained in the petition is entirely within the province of the Canadian government."

A Quebec province paper writing on national spirit in Canada, and, referring to the devotion of the French Canadians to their own institutions and language, pertinently asks:—

"How is the Dominion of Canada to come into possession of a truly national sentiment, common to all its citizens, if, throughout one large and solid block of its population, all that might go to feed such sentiment is diverted into the narrower channel of race? We ask the question in all seriousness and kindliness, and should be glad to receive an answer."

Registered Letters.

It is said that the P. M. General has under consideration certain changes in the system of carrying registered letters. There ought to be some system adopted by which the government would assume responsibility for the safe conveyance and delivery of registered matter.

O Tempora! O Mores!

We live in an age of advanced civilization and of pre-eminent religious sentiment, and still England, foremost of civilized and Christianized nations, permits, with the other nations, the existence of brutal forms of slavery in Africa; promotes the use of opium with its terrible consequences in China, and manufactures idols for heathen countries, in which industry there is over $1,000,000 invested. And still the call for more foreign missionaries and for greater zeal in the restraining of the other evils mentioned are being constantly made and as constantly responded to.

Mayor Barker Dead.

There was an expression of general regret mingled with personal grief of numbers of our people, who were acquainted with him, when the intelligence was spread that the Mayor of St. John, Mr. Geo. A. Barker was dead. Mr. Barker had only entered upon the discharge of his official duties as the first mayor of the newly constituted city, when he was stricken down by disease; he had however so far recovered as to have passed, it was supposed the crisis of his illness, and everything looked favorable for his full restoration to health. On Friday last, however, he suffered a relapse and on Saturday morning he expired, aged 47 years, leaving a widow and three children. Mr. Barker was at one time of the firm of T. B. Barker & Sons; was a nephew of Sir Leonard Tilley and was widely known and generally esteemed.

Deceased was the thirty-third mayor of St. John, the first having been appointed in 1785; one of his predecessors died while holding office namely, Hon. John Robinson, who died in 1828.

Moral vs Legal.

The suggestion contained in the following may be of value alike to all the Temperance organizations. The indications all point to the fact that the lever of moral suasion has not yet done its complete work, and that it must be again resorted to as the means to the end desired of prohibitionists. It is not so much by the force of alternative laws as by education, especially of the young, in the principles of temperance that the golden era may ever be reached when entire prohibition, the only complete remedy for and against the evils of intemperance can prevail:—

In his Annual Report to the National Division Sons of Temperance this year at the Saratoga meeting, Most Worthy Patriarch, Rev. Alder Temple, strongly urges that the ground that the policy of degrading moral suasion by elevating legal coercion to the rank of a dominant principle in the practice of the society has not been productive of good. It has, at least, compromised the non-partisan character of the order. He does not recede from the prohibition idea, but holds that it should not be disassociated from the practice of moral suasion. Numerically, the order of Sons of Temperance in the past year has just about held its own.

Church Money.

At the meeting of the diocese in Fredericton last week, there occurred a discussion on an interesting topic embraced in the following resolution moved by Rev. Mr. Dobbs, seconded by Rev. Mr. Newnham:—

Whereas, The custom of raising money for church purposes by means of entertainments of various kinds has been condemned in several dioceses, notably those of Huron and Ontario; and

Whereas, Such a custom is detrimental to the best and truest interests of the church; therefore

Resolved, That all clergy and laity of the diocese of Fredericton, in synod assembled, pledge themselves to do all in their power to abolish such custom in their respective parishes and to educate people to more scriptural and apostolic methods.

After discussion the motion was withdrawn as the object sought, would, it was hoped, be reached without its formal passage.

It does seem a blot upon the protestant churches, that while there exists so much Christian zeal and so much benevolence as regards the claims of various philanthropies and the claims of foreign missions, it should be found necessary to resort to the popular devices of the day in order to sustain the churches at home and their ministry.

So much, even a secular paper may be allowed to say.

Ancient Order of Hibernians.

At the last regular meeting of Woodstock Division No. 1, A. O. H., the following gentlemen, who with the exception of Financial Secretary were the office holders of past year, were re elected to the same honorable positions for the coming year: James Brown, President; Thomas L. McCaffery, Vice President; John P. Malaney, Rec. Sec; John Thibbedeau, F. S.; Michael McManus, Treas.

Fire.

About one o'clock Friday morning last, the dwelling house of Mr. D. S. Gibson, Northampton, was discovered to be on fire, and such headway had the flames made that it was with difficulty the inmates made their exit. Not only was the building burned, but with it nearly all the contents perished, among the articles being a costly piano. Mr. Gibson's loss is a heavy one, to partially cover which he is insured on the building $700 in the British America and $1,000 on his furniture in the North British. We understand Mr. G. will at once rebuild.

New Adventist Church.

According to announcement in our last issue, services for the first time were held on Sabbath last in the Adventist Church. The services did not differ from the ordinary in their order, a change therein not having been contemplated for the occasion. The morning sermon was preached by Elder Hastings Kearney (recently ordained), and was upon the New Covenant, through which Jew and Gentile are alike accepted, with reference also to the foundation of the church as found in Eph. 2: 20; in the evening, Elder Lenfest of Presque Isle, Me., spoke with clearness and force upon the advent of Christ, and urged upon this people faithfulness in the proclamation of the imminence of the close of this dispensation. At the close the pastor, Elder S. Woodworth, took occasion to express the gratitude of the Advent people here to those who kindly assisted in the erection of their convenient place of worship.

A High-Class Entertainment.

The musical community will be glad to hear that Miss Sharp has determined to afford them another opportunity of enjoying a first-class musical entertainment. Of Miss Sharp we need not speak, as her fame as a vocalist is not only established but well known in Woodstock; of her pupils, the fact that Miss S. brings them in this way before the public, is sufficient proof that their vocal efforts will be creditable and acceptable. Mr. Racey has also given evidence here of his fine powers in the singing line. Mr. Neville, a New York professional, whose reputation as a violinist, we are assured, ranks high among the profession in New York, will render assistance, and his rendering of some of the finest violin solos ought to be alone sufficient attraction to draw a large audience. Doubtless this concert will verify the promise that it will be one of the finest musical entertainments given in this town in many years. See ad. and bills.

Runaway Accident.

About half past eight o'clock, and during the hour of service, on Wednesday evening, two teams standing in the yard of the Adventist Church, ran away. One belonged to Mr. John C. Bacon, the other to Mr. James Reid, both of whom live in Richmond parish. As Mr. Bacon's horse stood first upon entering the yard and Mr. Reid's farther down, the presumption is that the latter's horse first conceived the idea of flight, though both horses are thought to have been tied, and, dashing out collided with that of Mr. Bacon's, tearing off a wheel in the collision, and frightening him into breaking loose and accompanying him as far as the Engine House, where Mr. B.'s horse, seeing the doors open, plunged in and was caught. Mr. Reid's horse kept a straight course and was last seen going up Broadway, and probably did not stop until it reached home, or, like its companion in flight, had to. Mr. B.'s waggon was completely demolished, and very likely the same is true of the other.

Be sure and call at R. B. Porter & Co.'s this week and see their new dress materials. They have marked them at astonishing low prices. The sale is going on.

Returned from the War.

Our militia returned from the Brigade Camp, St. Andrews, on Saturday morning. Officers and men express themselves in terms of great satisfaction at the result of the Camp. The weather was fine, there was scarce any sickness in the Camp, and the order maintained excellent. The following complimentary notice of the Carleton Co. corps is taken from the *Sun*:—

Friday afternoon the Woodstock field battery were engaged in target shooting. The target was moored off the northern end of St. Andrews Island, a mile and a quarter from where the guns were stationed at Joe's Point. The gunners soon got the range of the target, which was many times fairly struck by the shells. An old soldier looking on said he had never seen better artillery practice, and that, in his opinion, the Woodstock Field Battery need not fear to meet any competitor. The following is the list of prize winners in the different camp competitions:

Brighton Engineers.—Best shot at target practice, Privates Phillips and Tracey, Sergts. Johnson and H Ross, Private Rideout, Sergt. Pickett, Privates W. Jenkins, M. Bouchard, A Tompkins, Crandlemire, Corp. Crandlemire.

The Railway Works.

On Friday last, the insurance agents finished their appraisement of the damage done at the Railway Works, McAdam, and the work of removing the debris was at once commenced. All the machinists, blacksmiths and others, who for the time had been thrown out of work, were recalled and are now employed at former wages in cleaning the machinery and making such repairs as can be done just now. Additional laborers have been employed. The building at Fredericton Junction, formerly used as an engine room, is being taken down and will be transported to McAdam where, being of exactly the same dimensions as the machine shop burned, it will be re erected on the foundations of the latter. In a few weeks Mr. Haggerty will doubtless have the works in good running order.

Mt. Allison Ladies College.

The Mount Allison Ladies' College, the advertisement of which may be found in another column, is one of the oldest and most favorably known institutions for female education in the Dominion. Ever since it was organized, in 1854, it has taken a leading position among colleges of that class. In order to meet the demands of the age for the best appliances possible, a new building is about to be erected for the use of the musical department, at an estimated cost of $12,000. This, it is anticipated, will give the increased accommodation in the main building, so much needed for dormitories and class rooms. The increased numbers in attendance, as well as the room required for the departments of short hand, type writing and violin, recently added, make some such change imperative.

Ladies should not miss the great bargains that are being offered at R. B Porter & Co.'s.

Haying is now being prosecuted generally throughout the county; the cut will be very light. Grain is looking well.

Rev. W. W. Colpitts is stationed this year at Carberry, a prosperous little town on the C. P. R. line. An amateur Sullivan vs. Kilrain fight took place between two boys, who are old enough to know a better use of their hands and tongues, directly in front of SENTINEL office one day this week. The nearer, we suppose, an editor can find his subject-matter, the better; but this advantage was overbalanced in the present case by the unpleasantness of the sight.

Machum, of St. John, presided and Mr. Charlton acted as secretary. Some 22 names of applicants were enrolled.

The other day, we learn, Mr.——Macdonald, in company with an assistant, was surprised and chased by a huge bear, while engaged in clearing a "follow" back of the mountain on the East side of the river opposite Woodstock. Unwilling to allow bruin his wonted freedom, lest he should repeat his attempt with better success, a trap was set for him, which decided the matter of freedom in their favor, as he was soon taken. He is said to have been taller than the men when standing upon his haunches.

What nearly proved the irreparable loss of a hand occurred in Small & Fisher's Foundry, Thursday, 4th inst. It appears that Mr. Samuel Hamilton, who has been in the employ of the above firm for the period of about 22 years, while using a circular saw, inadvertently allowed his hand to come in contact therewith, which resulted in the fearful mangling of the first two fingers from second joint down, and the possible loss of the first joint of the third finger. The wounded member was dressed by Dr. Hand, whose medicinal and surgical skill is already established.

There was a slight fire on the roof of Fisher's Foundry building on Saturday. The men attached to the establishment and those of Mr. Jones' Wood Working Factory near by soon put out the flames, using the hose kept in the building, which was attached to a hydrant. The fire discovered was on the rear of the building; while the hose was attached it was fortunately decided to go to the front of the establishment and see if the water could be thrown over the building, and then it was discovered that the front portion of the roof was in flames.
