DYING OF HUMORS.

Which Three Doctors Could not Cure, Cured in Four Weeks by Cutteura Remedies. failed to understand or cure Three years ago last fall my son went to Sacramento, Cal., and after two or three months he broke out with a humor on his stomach and back, suffering very much. He employed three different doctors, and at last they told him to go back to Maine, as his disease was caused by change of climate, and he disease was caused by change of climate, and he could not live in California. He wrote me that he was coming home, for he was dying with a humor that the doctors could not cure. I wrote him to get some Curicura Remedies and take according to directions, and bathe freely with the CUTI-CURA SOAP, and in four weeks after he got my letter he wrote me he was entirely cured. He

WASHINGTON LETTER.

(From our Regular Correspondent,) WASHINGTON, D. C., Sept. 19, 1890. Mr. Blaine's last letter in favor of reciprocity created quite a sensation in Congressional came home a few weeks ago on a visit, and is at came home a few weeks ago on a visit, and is at home now. His health is good. I have recommended there remedies to a great many people with bad cases that would not yield to doctor's medicines, and in no case have I known them as to what action the Conference committee will take on the reciprocity amendment to the McKinley bill. He knows that at least two of the Republican Senstors on that committee-Messrs. Allison and Sherman-are The new Blood and Skin Purifier and greatest of not particularly enamoured with the idea, Humor Remedies, internally (to cleanse the blood and that the committee, would shed no tears Humor Remedies, internally (to cleanse the blood of all impurities and poisonous elements, and thus remove the cause), and Cuticura, the great Skin Cure, and Cuticura Soap, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), speedily and permanently cure every species of itching, burning, scaly, crusted, pimply, acrotulous, and hereditary diseases and humors, infancy to age, from pimples to scrofula, when the best physicians and all other remedies fail. This is strong, language, but every word of it is true. Cuticura Remedies are the greatest skin cures, blood purifiers, and humor remedies of modern times.

> McKinley bill. The Democrats have the Republicans of the House at a decided disadvantage just now, and they are enjoying and making the most of it. The Republicans have no quorum of their own men, and the indications are that they will not have again this session, though they say they will. Whenever anything is called up that the Democrats don't like, con-tested election cases, for instance, the House suddenly finds itself left without a guerran on

at work on the Senate amendments to the

States, even though they knew in advance that the case would be decided against them.

> Unfair Criticism. The Fredericton Gleaner says, referring to matter which the SENTINEL noticed last

That gives an idea of the profits of the busi-

Some of the up-river newspapers, especially the Aroostook Pioneer, have of late been rather unfairly criticising the present management of the New Brunswick division of the Canadian Pacific Railway. Were the writers of the article disposed to discuss matters or the conduct of those connected with the management, from a fair and business standpoint, their readers might readily understand their meaning of the views so expressed, but in the absence of a substantial reason these attacks only tend to prove the hostility of the authors. Railway managers, like other men, have their faults, and their acts when they affect the public interests are very properly subjects for criticism in the public press. But at the same time everyone is entitled to fair treatment and whatever the fault or grievance may be, the criticism should be carried on in a friendly spirit rather than from a feeling of antagonism.

In the case of the Pioneer the editor has attacked Mr. Timmerman, the general superattacked Mr. Timmerman, the general super-intendent, most inconsiderately, because some

of the passenger trains are not arriving on schedule time. Mr. Timmerman is no more responsible for the delays than is he who endeavors to make him so. To illustrate the point more clearly it is only necessary to mention a circumstance occurring on Thursday last when the writer was on the train. day last when the writer was on the train. The western train was one hour and a half late arriving at Vanceboro. This detention caused delay for that length of time of all passenger trains on the road. In view of this circumstance, which is of frequent occurrence, how is it possible for the superintendent of the C. P. R. to be held accountable?

Besides, the company operating the New runswick division of the C. P. R. are under contract to carry the U. S. mails, and trains of the C. P. R. are obliged to wait for them within a reasonable length of time. All other railways are operated in a like manner, and it would be foolishness were the business of the roads carried on in any other than in this business like way. Because Mr. Time this business-like way. Because Mr. Timmerman carries out just such a policy as this his acts are considered most reprehensible by

ST JOHN, Sept. 22nd-About 11 o'clock yesterday morning, a Russian sailor, belonging to the Schooner Howard H. Hovey, left King's wharf, Kingsville, in a sail boat for Indiantown. Whether from ignorance of the river or other cause, his boat got in the curent and was carried over the falls near the Union Point shore, taking in a quantity of water in the passage. "In the summer of 1864 I was sent to the Annapolis hospital, suffering with chronic diarrhea. While there, I became so reduced in strength that I could not speak and was compelled to write everything I wanted to say. I was then having some 25 or 30 stools per day. The doctors ordered a medicine that I was satisfied would be of no benefit to me. I did not take it, but persuaded my nurse to get me some of Dr. Ayer's Pills. About two o'clock in the afternoon I took six of these pills, and by mid-night began to feel better. In the morning the doctors came again, and after deciding that my symptoms were more favorable, gave me a different medicine, which I did not use, but took four more of the pills instead. The next day the doctors came to see me, and thought I was doing nicely, (and so did I). I then took one pill a day for a week. At the end of that time, I considered myself cured and that Ayer's Pills had saved my life. I was then weak, but had no return of the disease, and gained in strength as fast as could be expected."—F. With intending buyers of Threshing Machines. Every man wants to buy the best. The best can be found ty comparison of one Machine with another, and their respective records. No Farmer wants a Ma-

half a day's work in a day. The Moody will thresh, and thresh clean, fifty bushels per hour without waste of grain. No Farmer wants a Machine in his barn that is everlastingly breaking down. Users of these Machines will tell you there is far less breakage on the Moody than on any other.

No buyer wants a Machine that requires four horses to haul it.

The Moody Weighs Half a Ton Less than any other Machine Sold in this Country.

No Buyer wants a Power that is a horse killer. The Moody is so constructed that it is very easy on the horses. Coles London, of Peel, says, "Two men can't pitch grain from the mow fast enough to feed her, and she keeps one man hustling to keep the grain clear and oil her. I have run different Machines all my life, and the Moody is far ahead of any other I ever used. Have put fifty bushels through in sixty minutes without any trouble." Same parties have threshed as high as seventy-five bushels in an hour.

We have these Machines with both closed and bar Cylinders, for sale at our usual low prices and liberal terms.
