Scaly Skin Diseases

Psoriasis 5 years, covering face, head, and entire body with white scabs. Skin red, itchy, and bleeding. Hair all gone. Spent hundreds of dollars. Pronounced incurable. Cured by Cuticura Remedies.

Cured by Cuticura

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physicians were afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDIES, and after using two bottles CUTICURA RESOLVENT, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA RESOLVENT and one box of CUTICURA, and one cake CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the CUTICURA REMEDIES cured it without any scars. I cannot express with a pen what I suffered before using the CUTICURA REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use.

MRS. ROSA KELLY, Rockwell City, Iowa.

What is the Drift?

To the Editors of the Carleton Sentinel:

Drifting appears to be the only word which can properly be used to represent the relations at present existing between the United States and Canada, in the matter of trade relations.

Each party in the case professes, in formal language, to desire closer relations, but neither party has found a basis of negotiation upon which to meet the other.

The present position of the Tariff Bill in Congress is such as to preclude any argument in particular, for it may be very much modified before the result is reached. As that Bill stands, after its adoption by the House of Representatives, it seems to be practically a decree of non-intercourse with the world at large. The argument in its favor simply is, "Save the Home Market."

But it has become evident that we must have better trade arrangements with such near neighbors as Canada, and the whole import of the much lauded Pan American Congress was to facilitate trade with South America. Under such condition of things, therefore, what can be done?

In almost all of the commercial aspects of their situation the interests of the people of Canada are identical with those of the United States. If then the wall around the States is to be made thicker and higher than heretofore, how can a trade relation be made better?

Another element in the case which adds to the perplexity of the problem is the practical working out of the absurd provisions of the Interstate Law, so-called, which obliges the railroads to charge for freight according to the miles of track.

While the whole Northwest was tributary to Chicago and the railroads centering there, the Grand Trunk among them, no question of moment arose, but, when the Minneapolis millers built their 400 miles of road to the Sault St. Marie, when the Canada Pacific reached the Red River, and then lapped on to Puget Sound, the situation was revolutionized. The long haul and short haul nonsense does not fit on to the Sound, the River, and the Sault. Discerning thinkers saw, at the time of the enactment of the Interstate law, that the Grand Trunk and Canadian Pacific connections would shatter it to pieces when they came in conflict; and such will be the case though some of the politicians, through fancied self interest, are poeing to hold up the Law.

Relief from the difficulties which beset these questions of trade relations between the two countries could be found in political union, but that step is neither desirable or possible.

It is impossible from the very fact of the construction of the vast railway system which also makes so pressing the need of sympathetic legislation between the two peoples. The Canadian Pacific Railway is to be the imperial highway for the might of the British Empire. It is to rank with the Suez Canal as an integral part of the life of that Empire, and so long as the British power rules in the Orient so long must this road and the canal be in the possession of the British Crown.

Under these circumstances of permanent political separation, therefore, some common ground of living side by side must be found.

Another attitude of non-intercourse which the numerical majority in the United States seem about to assume is the debasement of the currency through the use of the cheap silver. The result of making the United States the buyer of silver bullion to an unlimited degree would be carrying the protection idea to the extreme. "Save the Home Market," and, "Have our own money to use in it," would be the two fold rallying cry.

What the Dominion Government can enact as a species of retaliatione legislatory is altogether uncertain, but, of course, something must be gotten up for local effect, and we are brought again to the starting point, What is the Drift?

The appearance is like a game of chess. The United States has the move, for the moment, with the Tariff Bill. With the enactment of that, the chance turns to Sir John.

FRANCIS BARNES.

Houlton, June 9th, 1890.

Prohibition.

To the Editors of the Carleton Sentinel:

A public temperance mass meeting in the interest of the Prohibition Party, was held in the Hall, Bristol, June 5th. Most convincing arguments in favor of prohibition, through a party, were presented by the following members of the Centreville Club: Rev. Geo Howard, Inspector McClintock, L. J. Sherwood, S. McKenzie, and H. H. Perkins. The sentiments of the speakers were heartily endorsed by Rev. Mr. Gravenor and several others of Bristol. A club was organized. J. W. Sherwood was elected president and Mr. Jones secretary. It is expected that much good will be the result from this gathering of earnest christian worker.

ONE PRESENT.

Victoria County Election.

To the Editors of the Carleton Sentinel:

I notice that your correspondent "Observer" avows that no one else but James E Porter can oppose Mr. Baird in the coming by-election. Now, Messrs. Editors, I object to any such impression. In the first place it would be simply a continuation of the personal struggle which no one cares much about. In the second place, Mr. James E. Porter has had every chance possible to attain election and failed every time. In the third place there are many electors who do not care enough about either Baird or Porter to attend the poll. In the next place Mr. Baird, undoubtedly, will be the Government candidate, and there are many Opposition electors who wish to see him opposed by a straight out and out Opposition candidate, so that the disgraceful scenes enacted by the present Government at the last session, and of which G. T. Baird was one of the most stalwart supporters—may be pronounced against by the majority of the electors of Victoria. But Porter will oppose "Blairism." Well, gentlemen, he upheld it last election; we are glad he opposes it now. Very glad to welcome him to our rapidly filling ranks; but the impression would still remain among disinterested men that if he again opposed Mr. Baird it would only be a personal matter. If he is sincere in his opposition to the Government let him unite with all its opposers and elect some other man. Let him help to give the electors of Victoria a chance to vote on principle, not on personalities, and the result will be satisfactory.

ELECTOR.

By All Odds

The most generally useful medicine is Ayer's Pills. As a remedy for the various diseases of the **stomach, liver,** and **bowels,** these Pills have no equal. Their sugar-coating causes them not only to be easy and pleasant to take, but preserves their medicinal integrity in all climates and for any reasonable length of time. The best **family medicine, Ayer's Pills are,** also, unsurpassed for the use of **travelers, soldiers, sailors, campers,** and **pioneers.** In some of the most critical cases, when all other remedies have failed,

Ayer's Pills

prove effective.

"In the summer of 1864 I was sent to the Annapolis hospital, suffering with chronic diarrhea. While there, I became so reduced in strength that I could not speak and was compelled to write everything I wanted to say. I was then having some 25 or 30 stools per day. The doctors ordered a medicine that I was satisfied would be of no benefit to me. I did not take it, but persuaded my nurse to get me some of Dr. Ayer's Pills. About two o'clock in the afternoon I took six of these pills, and by midnight began to feel better. In the morning the doctors came again, and after deciding that my symptoms were more favorable, gave me a different medicine, which I did not use, but took four more of the pills instead. The next day the doctors came to see me, and thought I was doing nicely, (and so did I). I then took one pill a day for a week. At the end of that time, I considered myself cured and that Ayer's Pills had saved my life. I was then weak, but had no return of the disease, and gained in strength as fast as could be expected."—F. C. Luce, Late Lieut, 56th Regt. Mass. Vol. Infantry.

"Ayer's Pills are

The Best

I have ever used for headaches, and they act like a charm in relieving any disagreeable sensation in the stomach after eating."—Mrs. M. J. Ferguson, Fulton, Va.

"I was a sufferer for years from dyspepsia and liver troubles, and found no permanent relief until I commenced taking Ayer's Pills. They have effected a complete cure."—George W. Mooney, Walla Walla, W. T.

FARMERS BEWARE!

OF the men who wish to take your orders for Western Fruit Trees, as the experience of half a century teaches us that they will not thrive in our climate. You all know that thousands of dollars are sent out of the Country every year for foreign trees, and yet how many of you can point out a good bearing Orchard grown from them? It is a well established fact that the only trees which can be successfully grown here are those which have been raised in some of our local nurseries and are therefore inured to the climate.
