This stand taken by Mr. Blaine has brought the idea of reciprocity clearly to view, and put the word into every one's mouth.

It is becoming more and more evident, each day, that in reciprocal trade, upon certain defided lines of commerce, is to be found the solution of the question of better relations with Canada.

At the hearing in Boston, on Sept. 11th, 1889, Mr. Alden Speare, the President of the Boston Chamber of Commerce, gave a lengthened and important testimony in which he stated that, in his judgment, the re-enactment of the Reciprocity Treaty of 1854, with the exception of a single article on the list. With such an endorsement as this from Mr. Speare it has seemed to me that it could not come amiss if a discussion upon the provisions of that Treaty of 1854 should be entered upon in the columns of the Sentinel,

I was troubled with dandruff and was rapidly becoming bald; but since using the Vigor my head is perfectly clear of dandruff, the hair has ceased coming out, and I now have a good growth, of the same color as when I was a young woman. I can heartily recommend any one suffering from dandruff or loss of hair to use Ayer's Hair Vigor as a dressing."—Mrs. Lydia O. Moody, East Pittston, Me. bald, but is also caused an entirely new growth of hair. I am ready to certify to this statement before a justice of the peace."—
H. Hulsebus, Lewisburgh, Iowa.
"Some years ago, after a severe attack of brain fever, my hair all came out. I used such preparations for restoring it as my physicians ordered, but failed to produce a growth of hair. I then tried, successively, several articles recommended by druggists, and all alike fell short of accomplishing the desired result. The last remedy I applied was Ayer's Hair Vigor, which brought a growth of hair in a few weeks. I think I used eight bottles in two years; more than was necessary as a restorative, but I liked it as a dressing, and have continued to use it for that purpose. I believe Ayer's Hair Vigor possesses virtues far above those of any similar preparation now on the market."

With intending buyers of Threshing Machines. Every man wants to buy the best. The best can be found ty comparison of one Machine with another, and their respective records. No Farmer wants a Machine in his barn which will only do nalf a day's work in a day. The Moody will thresh, and thresh clean, fifty bushels per hour without waste of grain. No Farmer wants a Machine in his barn that is everlast-

ingly breaking down. Users of these Machines will tell you there is far less breakage on the Moody than on any other.

No buyer wants a Machine that requires four horses to The Moody Weighs Half a Ton Less than any other Machine Sold in this Country.

No Buyer wants a Power that is a horse killer. The Moody is so constructed that it is very easy on the horses. Coles London, of Peel, says, "Two men can't pitch grain from the mow fast enough to feed her, and she keeps one man hustling to keep the grain clear and oil her. I have run different Machines all my life, and the Moody is far ahead of any other I ever used. Have put fifty bushels through in sixty minutes without any trouble." Same parties have threshed as high as seventy-five bushels in an hour.
