Arbitration Offered by England.

London, Aug. 16—Lord Salusbury's last despatch to Secretary Blaine relative to the Behring Sea dispute bears date August 2. After quoting from historical documents, the despatch concludes: "These show that England refused to admit any part of the Russian claim asserted in the ukase of 1821, to marine joundation and exclusive right of fishing, throughout the whole extent of that claim, from Behring Straits to 51st parallel. Also that the convention of 1825 was regarded by both sides as a renunciation on the part of the County was Hon. Wm. Lindsay.

This number had been decreased to 5,003 actual members by 354 suspensions, 147 withdrawals by card, 304 withdrawals, 25 deaths, 74 expulsions and 1,366 by the surrendering of the charter. It is impossible to admit that the right to fish and catch seals in the high sea can be held to be abandoned by a nation, from the mere fact that for a certain number of years it has not suited subjects for that nation to exercise such right. It must be remembered that the existence of British Columbia as a colony and the development of the colony shipping in-terest are comparatively recent. Is easily injured—the slightest irritation of the throat or larynx at once affecting its tone, flexibility, or power. #### Ayer's Cherry Pectoral

The best of anodynes, this preparation rapidly soothes irritation, strengthens the delicate organs of speech, and restores the voice to its tone and power. No singer or public speaker should be without it. Lydia Thompson, the famous actress, certifies: "Ayer's Cherry Pectoral has been of very great service to me. It improves and strengthens the voice, and is always effective for the cure of colds and coughs." "Upon several occasions I have suffered from colds, causing hoarseness and entire loss of voice. In my profession of an auctioneer any affection of the voice or throat is a serious matter, but at each attack, I have been relieved by a few doses of Ayer's Cherry Pectoral. This remedy, with ordinary care, has worked such a

that I have suffered very little inconven lence. I have also used it in my family, with excellent results, in coughs, colds, &c."-Wm. H. Quartly, Minlaton, Australia.
"In the spring of 1853, at Portsmouth, Va.,
I was prostrated by a severe attack of typhoid pneumonia. My physicians exhausted their remedies, and for one year I was not able to even articulate a word. By the ad-vice of Dr. Shaw I tried Ayer's Cherry Pectoral, and to my surprise and great joy, in less than one month I could converse easily, in a natural tone of voice. I continued to improve and have become since a well man. I have often recommended the Pectoral, and have never known it to fail."—George R.
