Any doubts as to whether the attendance at the St. John Exhibition would be large enough to give receipts equal to expenditures, should be dispelled in view of the fact that the presence at the show is promised for to day (Friday), of Lord Stanley, Sir John A Macdonald, Hon. Mesers. Thompson, Foster Costigan and Tupper, No doubt hundreds will attend to see and do honor to Her Majes ty's representative and the veteran statesman Sir John, who would not be attracted by the other features. It is expected that those who are present will have an opportunity of hearing a speech from Lord Stanley and the Premier. The announcement is also made that, on the evening of Friday, the Ministers above named and some local politicians will address a public meeting in one of the St. John rinke.

It is thought, by many, that this visit to the Maritime Provinces of so many members of the Canadian Government is a pretty sure indication that an early general election is contemplated. We have a very strong conwiction, however, that there will be, at least, one more session of the present Parliament before it is dissolved.
