A Burning Sore Leg

Ulcers Form. Hospitals and Doctors useless. Crazed with Pain. Cured by Cuticura Remedies.

About eight years ago I wrote you from Wilkesbarre, Pa., describing how your wonderful remedies completely cured me of a terrible case of eczma or salt rheum. I must now tell you what CUTICURA REMEDIES have again done for me. On the 22nd of last September, I had the misfortune to bruise my leg, and I put a piece of sticking plaster on it. Inside of a week I had a terrible leg. My wife became frightened and advised me to go to a surgeon. I went, and doctored for two months, but no good was done me, besides costing me big money. My leg had by this time formed into an ulcer and got worse every day. I could not stand it any longer, and made up my mind to go to hospital and see if I could be helped. I went to several here in the city, in turn, but none could do me any good. I had a terrible leg, with a hole in it as big as a dollar, and pain that almost set me crazy. I got scared about it, and determined to try CUTICURA REMEDIES. I obtained a set, and inside of five weeks my leg was healed up as well as it ever was except the terrible scar it left for a reminder of what was once a terrible sore leg. These REMEDIES are worth their weight in gold.

N. B. S. S. Association.

We hope to see every Sabbath School in Carleton County fully represented at the convention of the N. B. S. S. Association to be held at Chatham on the 15th and 16th of the present month. Each school is entitled to send two delegates, one of whom ought to be the superintendent; all ministers are ex officio, members of the Association.

The program prepared for the meeting is an attractive one to Sabbath School workers, and the prospect is that the coming convention will be one of the best ever held by this increasingly important body. Mr. Reynolds, ex president of the International Convention, of Peoria, Ill., and S. S. Eddy, Provincial field secretary, will be present and take a prominent part in the convention.

Arrangements have been made with the I. C. R., Kent Northern, Buctouche, Albert, Elgin, Petitcodiac and Havelock, Shore Line, Chatham Branch, Northern and Western and Caraquet Railways, and with the Union Line Steamers, that all delegates who purchase one first class ticket going to Convention shall be furnished by *ticket agent*, on presentation of the Secretary's certificate, (which will be given them at the Convention,) with a return ticket *Free*.

NOTICE—That the *C. P. R.* requires delegates to buy an *excursion* ticket to S. S. Convention, which ticket will be *good* to *return*, and will cost one full fare. Remember the C. P. R. will *not* take certificates. You must ask for S. S. excursion tickets.

Wilmot Parish S. S. Convention.

There will be a meeting of the Wilmot S. S. Convention convened in the F. C. Baptist Church, at Charleston, on Tuesday, the 21st day of October next; two sessions, 2 and 7 o'clock p. m. The Executive are making use of all available means to make the meeting one of interest and usefullness as well. We expect a number of clerical gentlemen will be present, and several prominent S. S. workers; also Mrs. S. E. Briggs has kindly consented to be present and teach a lesson if the meeting desire. It is apparent that the public work of the S. S. Convention has somewhat fallen from its former estate, therefore the workers of this Parish now appear to be of one mind to arise with an extra effort and implore the Divine blessing to attend it. Now we hereby cordially invite all who feel any interest in the work to come over and help.

I. S. CARVELL, Secretary.

About McAdam Junction.

To the Editors of the Carleton Sentinel:

Now that the C. P. R. has taken over the old N. B. R., it is to be hoped that something will be done at the above station for the convenience of travellers.

We suppose that the company do their best to make close connections, and that the long waits at McAadam are unavoidable, but there is no reason why better accomodation should not be provided. The road-bed, cars and engines are a credit to any company, but many of the station buildings are miserably lighted and, in the case of McAdam, dirty withal. The benches are of the rudest make, the floors look as though they had never been washed since the day they were laid down, and the walls and ceilings are perfectly innocent of either calsomine or whitewash. The closets are a disgrace to any company, and the stench from *the cess pools under the buildings* is most offensive, and it has long been a mystery to many how the place has escaped a fever epidemic. The writer has spent many a weary hour in its semi darkness and grime and devoutedly hopes there will soon be a change for the better. There is also a good chance for improvement in connection with the dining room for a poorer meal for the price charged we have seldom met with.

Yours truly, TRAVELLER.

Have you seen the Grand Display of Neckties now being shown by Hugh Hay.

Gaol Breaking at Upper Woodstock.

To the Editors of the Carleton Sentinel,

Having been requested by a member of the Grand Jury and two members of the Municipal Council—bodies which ordered certain repairs upon our gaol—to give the Electors of the County, though the SENTINEL and *Press*, an account of the improper work which has been done upon it, in order that those Electors may, by their votes, take such measures as will as far as is possible, remedy the damages upon the building, by certain members of the Committee of the Council, who were directed by the Council to perform certain work and repairs upon it, which had been before directed by the Judge of the Supreme Court and by the Grand Jury.

I have no words at my command which would properly characterize this work; to call it *repairs* would do violence to the language, and to say that it is a deliberate attempt to damage and eventually destroy the building would look a little too strong by those *who have not seen* this most scandalous and ridiculous attempt at the destruction of a building, which the people of the County by a formal vote resolved to retain, preserve and repair. I am prepared to prove from the mouths of members of the committee themselves that the job is part of a deliberate plan to *destroy* and not to *repair*, and I hope representative men from the County will take the trouble to view this scene of the work of Boyd and Watson; the sight will amply repay them for all the trouble of a visit. The work is a show, it is unique, unparalleled! A foundation wall, supporting the Gaol of the rich and populous County of Carleton, of such a character as no man would put under his barn!! Messrs. Editors I say it deliberately and I defy Mr. Boyd and Watson, or the whole body of the committee, to contradict the statement, that among all the thousands of barn cellars built upon the continent not one can be found with such a contemptible wall as has been put under gaol of this rich County. I have not seen all the barn cellars as a matter of course, yet I *know* that they are none supported by such a wall because a barn *could not stand* upon such; it would fall, and our gaol will fall, if a different class of men from those who directed this scandalous job is not elected by the people of the County to to look after the County property.

Why Messrs. Editors to give you and the rest of those persons who have *property in the County Buildings* a slight idea of the ridiculous state of this foundation, I will relate a ludicrous incident of our recent visit to it. I was accompanied by Mr. Hipwell and others, and he being something of a wag, gave the wall a contemptuous glance and a slight kick, when, *down tumbled about a bushel of the stones of the wall*—we hurried out and he promised in his droll way that he would not kick it again, until he was *on the outside*! Why the real fact of the matter is that any man of ordinary strength could in a short time *with his hands* only pull down every stone of this wall.

Not to be too tedious I will wait until next week for the balance of the story.

Yours, F. P. SHARP.

For recent and chronic Coughs and Colds, Bronchites, Hoarseness, Loss of Voice and other inflamed condition of the lungs. Syrup of Tar and Wild Cherry will cure. Prepared by Garden Bros. 50 cents per bottle.

The Judgment Day.

The Rev. Mr. Vaughan, a Protestant clergyman of Ireland, has hit upon a new method of determining the date of the Day of Judgment. He says it will occur when the mass of matter, that has gone to make up the bodies of all the human beings since Adam, equals the mass of the entire terrestrial globe. As a believer in the resurrection of the body, he holds that it was the purpose of the Creator to turn the whole earth into human bodies, and when all the material is used up the trumpet of Gabriel will sound the signal, and the entire globe, land, sea, rocks and all, will instantly resolve itself into the bodies of the resurrected dead, leaving not an atom of residue. Rev. Mr. Vaughan says he has figured it up, and is very sure that the last particle of the earth's substance will have been turned into human bodies before the close of the coming century, and probably much earlier. What the resurrected bodies are to stand on and where they are to find lodgings are minor points of interest which this highly-speculative clergyman has not yet explained.—*Exchange.*

BRONCHITIS

Is an inflammation of the bronchial tubes—the air-passages leading into the lungs. Few other complaints are so prevalent, or call for more prompt and energetic action. As neglect or delay may result seriously, effective remedies should always be at hand. Apply at once a mustard poultice to the upper part of the chest, and, for internal treatment, take frequent doses of

Ayer's Cherry Pectoral

C. O. Lepper, Druggist, Fort Wayne, Ind., writes: "My little sister, four years of age, was so ill from bronchitis that we had almost given up hope of her recovery. Our family physician, a skilful man and of large experience, pronounced it useless to give her any more medicine, saying he had done all it was possible to do, and we must prepare for the worst. As a last resort, we determined to try Ayer's Cherry Pectoral, and I can truly say, with most happy results. After taking a few doses she seemed to breathe easier, and, within a week, was out of danger. We continued giving the Pectoral until satisfied she was entirely well. This indisputable evidence of the great merit of Ayer's Cherry Pectoral has given me unbounded confidence in the preparation, and I recommend it to my customers, knowing it cannot disappoint them."

"Ayer's Cherry Pectoral cured me of a bad cough and my partner of bronchitis. I know of numerous cases in which this preparation has proved very beneficial in families of

Young Children,

so that the medicine is known among them as 'the consoler of the afflicted.'"—Jaime Rufus Vidal, San Cristobel, San Domingo.

"A short time ago, I was taken with a severe attack of bronchitis. The remedies ordinarily used in such cases failed to give me relief. Almost in despair of ever finding anything to cure me, I bought a bottle of Ayer's Cherry Pectoral, and was helped from the first dose. I had not finished one bottle before the disease left me, and my throat and lungs were as sound as ever."—Geo. B. Hunter, Altoona, Pa.

THE MOODY THRESHER.

A WORD

With intending buyers of Threshing Machines. Every man wants to buy the best. The best can be found by comparison of one Machine with another, and their respective records. No Farmer wants a Machine in his barn which will only do half a day's work in a day. The MOODY will thresh, and thresh clean, fifty bushels per hour without waste of grain.

No Farmer wants a Machine in his barn that is everlastingly breaking down. Users of these Machines will tell you there is far less breakage on the Moody than on any other.

No buyer wants a Machine that requires four horses to haul it.

The Moody Weighs Half a Ton Less than any other Machine Sold in this Country.

No Buyer wants a Power that is a horse killer. The Moody is so constructed that it is very easy on the horses.

COLES LONDON, of Peel, says, "Two men can't pitch grain from the mow fast enough to feed her, and she keeps one man hustling to keep the grain clear and oil her. I have run different Machines all my life, and the Moody is far ahead of any other I ever used. Have put fifty bushels through in sixty minutes without any trouble." Same parties have threshed as high as seventy-five bushels in an hour.

We have these Machines with both closed and bar Cylinders, for sale at our usual low prices and liberal terms.
