## The Logic of Facts.

By a reduction of their own salaries, smong the first acts of the Government, a pretty good evidence was given that economia administration was intended; under no obligation to Mr. Blair or his Government, we are compelled, by the logic of facts, to have faith in their sincere desire to faithfully and justly sonville, Cal. administer affairs, and carry forward to an issue those reforms they stand pledged to which have not already been achieved. there has been, as we do not think there has, any wavering on Mr. Blair's part as to bis daty regarding the Legislative Council, the almost universal testimony against its continuance, that comes from the press and platform during this campaign, must impell to final action, just as soon as a certain method there on the evening of the 30th inst. can be decided upon.
