Prov. 4: 13-19; or Missionary
Lesson. Acts 10: 25-28.

Communicated.

Reply to Mr. Johnston.
To the Editors of the Carleton Sentinel:
In your last issue, Mr. Johnston asks the
question: "Is the low price of apples in
Woodstock due to the McKinley Bill or to
the sluggishness of the apple growers?" He
then quotes the St. John Sun to show the
price of apples in St. John, and I think here
is where he makes the mistake. The Sun is
a very poor source to rely upon for infor-
mation. It is a fact that the price of apples
in Woodstock is 35 to 40 cents per bushel, and
in St. John, where, by paying
25 cents freight per barrel, they get three
times as much as they are worth here. St.
John's apples are not so good as ours, and
Mr. Johnston on the Sun's authority,
But, sir, I raise apples and I tried to sell
them in St. John, but could not realize half
what Mr. Johnston says. Also, Mr. Johnston
says that Mr. Johnston's communication, they
were not. And to all my enquiries I received
the same reply. But, sir, if I could have
shipped my apples to the States I could have
received from 40 to 50 cents per bushel. Last
winter we were delinquent, we were an-
nounced, we were for free run, so said
our enemies. Now we are too sluggish to
ship our apples to St. John and Toronto,
wonder what we will be accused of next. Oh,
well, most anything will do, either truth or
untruth, so long as the country suffers
from high taxation to feed and provide for
the army of leeches at Ottawa and elsewhere.
In reference to the lumber, my friends
across the border, but I think he is
getting astray again. Turkey is not the
question; sheep and apples is the question
he is arguing. And if the citizens of the
United States pay the duty on the sheep, the
farmers would like Mr. Johnston to give them
some pointers as to how they should do it.
I look into their pockets, for he cannot deny
that our farmers receive less for their pro-
duce than their neighbors just over the line.
I must be quiet the price of lamb in Toronto.
Well, I will just ask him if he is aware of
any lamb being shipped to Toronto. I will
go further; can he tell us of any horses, hay,
potatoes or machinery being shipped and sold
in Toronto, and if not, is it because our farm-
ers are too ignorant and depending on the
local market. No, sir!
It is a fact and beyond contradiction that
we sell about all our surplus produce and
stock to the United States. From them we
receive the cash which we need to Toronto
and other manufacturing centres in Ontario
and Quebec. But, sir, Mr. Johnston argues,
as he does of his party, that the McKinley
Bill does us harm, and that St. John,
Toronto and Great Britain are better market
places for us, and that we do not need the U.
S. market. Pray, what is the use of the
McKinley Bill? Mr. Johnston says that
Mr. Foster goes to Washington for, yes,
twice, and say they are going again, although
St. John A. MacDonald, in concluding a
speech in Parliament in 1891, said: "What
use in our going again for the fifth or sixth
time, on our knees, to Washington, and ask-
ing them again for 'Honey' money? We have
a treaty with us." And why did we hear
so much last winter about Vines and
Reciprocity. Why, sir, it was all done to
catch the voter, for public opinion is the great-
est power in the world. It is a fact, so strong
that it will not only win us but will
with the farmers of Ontario and Quebec, that
they had to trim their sails accordingly, to
target past utterances, and to send their
delegates to Washington. But they were to
give us reciprocity with honor to Canada.
This is where the difference comes in. The
honor and good name of Canada must not be
traded in the hands of St. John A. Macdonald,
Mr. Laurier, Mr. Mackenzie and Mr. Laurier.
It is, sir, that we must have men loyal and
not unscrupulous, but men of honor like the
Hon. George E. Foster, Sir Hector and
Under Thomas.

In conclusion, if Mr. Johnston doubts
about our farmers and citizens going to the
United States, I will refer him to the 'Wes-
leyan' printed in New Scotland, an article in
which says: "Rev. Mr. Melton states that in
the Simsbury, Mass., Methodist churches,
nearly every third person is a Nova Scotian."
Please read over these delightful to welcome persons
from the Eastern Province, as they make
splendid citizens and noble Methodists. We
are glad to hear so good a report, and we
forget that the gain of Methodist churches
across the line is our loss. We are sorely
depleted.

It is a fact that our young men are
constantly going, yes those that we have
raised, educated and fitted for the duties of
life and good citizenship, of whose ability
and promise there is no question, they are
marching steadily away from us to help
build up the country to the south of us.

Mr. Johnston asks the question: "If in
some sections lamb bring a higher price in
the States than they do in Canada, is it a
reason why our farmers should sell out and
go to the United States?" I say no, no,
friend Johnston, it is the policy pursued by
our rulers at Ottawa, called the National
Policy, and which you, by your franchises and
your pen, are trying to uphold, that is driv-
ing the young men the bone and sinew of our
country away from us. If you doubt it, I
would refer you to the party papers here, but
to the London Times, the New York
Times, and to the census from 1841 to 1891,
from 1841 to 1891, from 1841 to 1891, from
1841 to 1891, and compare them with the
same from 1841 to 1891.

Who Pays the Duty?
To the Editors of the Carleton Sentinel:
I notice in your last issue a communication
from my old friend, Rev. Alexander John-
ston, on purporting to be a letter to the ques-
tion as to who pays the duties on farm products
going across the line, and as proof that the
buyer pays the duty, he addresses an instance
of a man who bought a lot of turkeys at the
Brookville fair and afterwards had to pay the
duty on them. Now I just beg leave to say
to the one Rev. gentleman that he cannot
possibly win the farmer on this side the line
by any such ridiculous nonsense as that.
He cannot talk farmers out of their eyes and
ears. Every farmer along the line knows that
he pays the duty on his products, and that
by daily experience that everything he sells
to the American buyer has to be sold at an
amount below what it is worth on the other
side of the line equal to, or greater than, the
duty placed on such farm products by the
McKinley law. And it is an experience of
this that is peopling America in County
with our best farmers. In Upper Bloomfield
a few years ago, sharp lived three of our most
respectable well-to-do farmers, viz. Messrs.
Foster, Briggs and Plummer, but now they
are all settled in Anroostock County. Now it
was not because the soil was better there, nor
the society better, nor the institutions better,
but simply because the market is so much
better. Then he suggests in an uncom-
monly witty manner that I advise farmers to
emigrate to Great Britain. This might do very
well for farmers who understand the English
mode of farming, but I ask how could friend
Sandy, who knows about as much about farm-
ing as he does about preaching, get along
there? Besides, the political atmosphere
there is so contaminated with free trade prin-
ciples, that he would be in danger of being
suffocated at once, but I will not trouble you
or your readers further at present.

Yours most respectfully,
BRIGHTON, Sept. 21, 1891.

Brighton Polling Booth No. 2.
To the Editors of the Carleton Sentinel:
There appears to be a misunderstanding in
Parish of Brighton as to the polling place in
District No. 2, for election of County Coun-
cillors. For the information of those inter-
ested, I allow me to state that the law passed
last January fixed the polling place in the
district named, at Rockland, and repeated
the section of the former law locating the
place for taking the poll at Henderson's
Corner.

Yours, etc.
R. K. JONES,
Sec. Tress.

The farmers in the 'Palouse country, Wash-
ington, have straw rockers pronounced ex-
cellent. They take the straw after it is
threshed and scatter it over the roads and
after a while, when it is settled down,
it makes a road like paper-macoe, smooth
and durable.

TWO VIEWS.

A St. John Liberal Conservative paper
says, under the heading Canada's progress—
"Through the increase in the population of
the Dominion does not appear to have been
very great in the past decade, we have made
phenomenal progress in all other respects.
The statistics have not been brought down to
the very latest date, but as some of our con-
temporaries are attributing the small in-
crease in population to the national policy,
it may not be inappropriate to show the pro-
gress the country has made in the space of
ten years, from 1870 to 1889. The figures
are as follows:—

1870. 1889.
Foreign trade, \$168,455,168 \$218,607,300
Deposits in char-
tered banks, 71,888,022 136,238,678
Bank notes in cir-
culation, 18,000,814 31,209,972
Deposits in loan
companies, 9,426,148 17,307,068
Deposits in savings
banks, 8,407,013 41,371,058
Post office moneys,
1,487,182 2,668,134
Passengers carried
on railways, 6,628,816 12,161,081
Freight car-
ried, 8,848,810 17,028,628
Letters posted, 43,900,000 92,668,000
1,541,000 3,640,000
Postal cards, 6,940,000 19,855,000
Newspapers, 42,379,086 70,259,856
206,000 619,000
Life insurance at
risk, \$86,273,702 \$211,761,583
Real estate in-
sured, 11,351,224 \$1,236,629
Fire insurance, 407,357,385 \$50,735,059
These figures indicate a rate of progress of
which no country need be ashamed. The
postal and railway business of a country are
fair indices to its internal development, and
these show an increase of fully 100 per cent.
in the ten years, followed closely by the sta-
tioning of the banks. If we are not increasing
very rapidly in population, we certainly are
going ahead very fast in other things that go
to make a country great and prosperous.

The Telegraph, under the caption "Then
and Now," thus puts it:—
In the year 1851, just 40 years ago, the
following was the official report of the popu-
lation, imports and exports of St. John and
Portland. We submit also the population
by the census of 1891 and the imports and
exports for 1890, the latest for which we have
official returns:—

Population, 1851. 1890. 1891.
Imports, 31,174 30,179 30,179
Exports, \$4,627,440 \$4,352,018
It will be seen at a glance that with 8,000
more population the import and export trade
has remained almost stationary, according to
these official figures, for 40 years. The im-
ports of 40 years ago were, however, more
than in 1890, and the duties have enormous-
ly increased, as will appear from the fol-
lowing figure:—

Imports. Duty. Pr. et.
1851. 1890. 1891.
\$4,627,440 \$277,640 22
1890. 4,352,018 972,451 22

It will be seen that the duties are over 34
times what they were, or 22 per cent, as com-
pared with 6 per cent. Is it not a fair in-
ference that the nearly quadrupled taxes on
our trade have been the cause why our trade
has not grown? And also that the same
cause which has prevented the growth of
trade has prevented the growth of population?
And would not the Liberal policy of
Reciprocity by lightening the burden of
trade give an impetus to both trade and
population?

MADRID, Sept. 16.—Heavy rain fell on
Friday and Saturday, swelling the mountain
streams and causing the water to overflow
the banks. The water was carried 40 miles
The mayor of Orense puts the total
loss at 3,000. Accounts from the interior
are appalling in the extreme. The water
has ruined the crops and the people are
in a state of distress. The water has
plunged the city into absolute darkness.

Further distressing particulars in regard to
the flooded provinces continue to be received.
The governor of the province of Leon tele-
graphs that the whole commune of Audea is
under water. The damage done is enormous.
There has been considerable loss of life.
The estimate of damage to property and about
Orense places the loss at \$2,500,000, not
including religious buildings and other prop-
erty. The food supply is in the greatest
danger. The water has ruined the crops and
the people are in a state of distress. The
water has plunged the city into absolute dark-
ness.

The misery existing at Orense is intense.
The inhabitants are compelled to sleep in the
streets. The food supply is in the greatest
danger. The water has ruined the crops and
the people are in a state of distress. The
water has plunged the city into absolute dark-
ness.

South Russia. Murders and outrages by
starving peasants are of daily occurrence,
in many villages complete anarchy prevails.

"German Syrup"

A Throat
and Lung
Specialty.

Those who have not
used Boschee's Ger-
man Syrup for some
severe and chronic
troubles of the Throat
and Lungs can hard-
ly appreciate what a truly wonder-
ful medicine it is. The delicious
sensations of healing, easing, clear-
ing, strength-gathering and recover-
ing are unknown joys. For Ger-
man Syrup we do not ask easy cases.
Sugar and water may soothe a
throat or stop a tickling—for a while.
This is as far as the ordinary cough
medicine goes. Boschee's German
Syrup is a discovery, a great Throat
and Lung Specialty. Where for
years there have been sensitiveness,
pain, coughing, spitting, hemor-
rhage, voice failure, weakness, slip-
ping down hill, where doctors and
medicine and advice have been swal-
lowed and followed to the gulf of
despair, where there is the sickening
conviction that all is over and the
end is inevitable, then we place
German Syrup. It cures. You are
a live man yet if you take it.
