Poetry. The Mic-Mac.

(Suggested by the sight of Mic-Mac wigwam while sailing down the La Have River, N. S.)

XLIII.-41.

Who can the history of this Depleted race unfold? 'Twould far outshine the simple tales Historians have told. Back in the dusky dell of time,

Athwart the centuries past, We bend to lisp its parting chime, Now echo out its last. Historians grasp with eager hearts His last jeremiade, But place no epitaph above The sod wherein he's laid.

The sombre clouds of scorn have clung Around his sacred pall. And o'er his sepulchre we've sung The glory of his fall. Around his heart misfortune crept. And, with his iron hand,

The love of fatherland. His dying voice has echoed past O'er Scotia's field and glen, Now in her dark and sombre wood

Rut, scorned in birth, in death unwept, Through life by care oppressed; Within his silent grave, methinks, Now happy is his rest. Ah! where the graves of all his tribe?

Where sleeps the dusky brave? No headstone lifts its silent form To mark the Mic-mac's grave. The pearly May flower bows its head, As o'er his grave it creeps; But I know not when I may tread Where he forever sleeps
—Douglas Gough, St. John, N B.

By some strange freak of nature their twin children, Franz and Fretchen, were born mutes.

When we formed their acquaintance they were about eight years old, and seemed to enter into all the sports of childhood with as much zest as their more noisy companions. Still, it was pathetic to watch the little things going round so silently, and it was out of sheer pity for their forlorn condition that John and I undertook to master the deaf and

I took to give them enjoyment. We had been married five years, and in spite of the gloomy prophecies of some of our would-be advisers, John was junior member of the firm that once employed him, and the suit of rooms in the flat had been exchanged for a pleasant residence in a very respectable part of the behind the bed curtains.'
