The Advantages of Breeding Good

The good animal can be more cheaple aised. This arises first from the fact that it makes a better use of the food consumed, and "Ayer's Medicines have been satisfactory second that it reaches the period of maturity to me throughout my practice, especially in a shorter time. The difference in the Ayer's Cherry Pecteral, which has been used amount of food consumed by an animal that by many of my patients, one of whom says he is not a good doer, in proportion to the re-knows it saved his life."—F. L Morris, M D., turn made, as compared with one that is, is Canada only lacks 237,000 square miles of ed. This is owing, in part, to the less perarge as the whole continent of feet digestion and assimilation of the food or Europe. It is nearly thirty times as large as the part of the ill doing animal. Many who Great Britain and Ireland, and is 500,000 are engaged in breeding live stock do not square miles larger than the United States. seem to realize that the powers of good di-Each season has its own peculiar malady; but with the blood maintained in a state of uniform vigor and purity by the use of Ayer's Sarsparilla little danger may be feared from meteorological influences. No other blood medicine is so safe and effective.

The Moorish Government have agreed to pay an indemnity of £50,000 to Britain in respect of the murder of some persons connected with a British factory at Cape Juley, in 1889.

seem to realize that the powers of good digestion may be transmitted as regularly as color or any quality of form or shape. The more perfect the assimilation of the food fed to an animal, the sconer it reaches the period of maturity, other things being equal. The shorter the period of arriving at maturity, the less the cost of the food of maintenance. Hence it will always cost more relatively to mature an ill-doing animal than one which does well.

The good animal commands a ready sale.

The good animal commands a ready sale. This is of itself a great matter. Unless in times of great depression a good animal for breeding purposes may be disposed of at any As a protection from the results of colds, sprains, bruises, burns, scalds, sore throat, and all painful diseases, Hagyard's Yellow Oil holds first place. Its efficacy has been proved thousands of times. It should be found in every when in prime condition. This circumstance alone may determine whether the operations

The Brightest Jewels

for its object the preservation of seals in the Pacific—thus agreeing at last to what has long been proposed by Britain. This will probably lead to an early settlement of the whole question.

Misery vs Oomfort.

Misery is one result of biliousness or liver complaint. Comfort is the result of using Burdock Blood Bitters as a remedy. Cure is the final result always obtained. We back this with the strongest proof by testimonials from reliable Canadian people.
