From answers made by Government to enquiries in Parliament, as to the report of the British farmer delegates to the Maritime Provinces, it seems doubtful if that report will be very soon forthcoming; it was also suggested that the report was not of a character favorable to the provinces under existing trade relations.

Redistribution.

We publish elsewhere the summary of the speech of Sir John Thompson, explaining the redistribution bill. As for the other Provinces we are not in a position to judge, but New Brunswick has, we should think, been treated quite fairly, the slight changes being those that recommend themselves to the sense of fair-minded men. Quebec and Ontario are to be united and St. John loses one of the city and county members.

Life Boats.

Mr. Temple, M. P., for York Co., don't make frequent speeches in the House of Commons, when he does speak however his remarks are pointed and practical. Recently when the question of life boats on the coast was under discussion, Mr. Temple said:—

"As I live on the River St. John, I would like to say a word upon this subject. I am sorry to see the opposition that is made to the proposal of Mr. Minister of Marine. The proposal is made in the interest of many seamen that are now loaded in the dock and all ready for transporting freight up the River St. John, but they cannot proceed so long as the life remains in its present shape. It seems that the Minister is taking no notice of the fact that the vessels on the river are not only in the river but are all ready to start; so that not only is freight waiting to be transported, but the boats also which are destined to plough the river, are delayed on account of not having been given to the owners that they must provide certain accident boats on their steamers in case of accident. Now, I have never known an accident occur on the River St. John, and I have lived there for over forty years. They have always been provided with boats, which have proved sufficient to guard against loss of life. At present, as I understand the law, they have to provide a metal boat of twenty odd tons for each steamer; and in order to launch such a boat in case of accident, the vessel would have to carry double the weight of boats on the river. I think this provision of the law is a very great hardship to the steamboat owners, I would recommend the member for York County (Mr. Miller) to move that law be passed, the provision of this House has greatly changed. As that the Conservatives were sitting on the other side of the House, and all the members of the River St. John district, from Mr. John to Madawaska, were sitting on this side of the House, along with the Conservatives. I hope to see the Government appropriate will cease their opposition to this bill, and allow the Minister to move the bill, he thinks best in the interest of the public."

Town Council.

At Monday night's meeting of the Town Council, a resolution moved by Councillor O'Brien, seconded by Councillor Fleming, was passed, instructing the road committee to repair the old and build new plank sidewalks, from the corner of King and Main streets, north as far as James Hayden's residence, and to repair and build for an equal distance, a sidewalk along the east side of the bridge down towards the station, the new walk to be laid on the old one, and the old one to be laid on the new one. After this work is completed the committee are to lay out the road of the road fund as follows: 40 per cent in Wellington Ward; 40 per cent in Queens Ward and 20 per cent in King Ward.

The Council determined, as they should have done long ago, to grapple with the no compelling delinquent tax laws, and immediate and prompt measures for the collection of all the unpaid taxes possible.

Prov. Farmers' Association.

An occasional correspondent kindly furnishes the following:—
 As there has been, in the last few months, a passing notice of the annual meeting of the Provincial Farmers' Association, held at Fredericton last month, you may think it worth while, even at this late date, to publish a brief sketch of proceedings. The sessions this year were extremely interesting and the organization of the meeting more satisfactory and prosperous condition than at any previous period of its history. It has been proposed to organize a Dairy-men's Association for the Province and this question was discussed at some length, but the conclusion reached was that the existing society be hereafter known as the Farmers' and Dairy-men's Association of New Brunswick. This decision appeared to give general satisfaction and met with the cordial approval of Professor Robertson, whose lectures and addresses formed so important a feature of the meetings.

It was gratifying to note the position taken and the marked interest shown by the Northern counties; evidenced not only by the goodly number of farmers in attendance, but by the fact that the speaker, Mr. J. H. Bates, of the Association and in the discussion of various subjects on the programme. The dairy men, however, are from the Province of W. J. Owens as president of the association for the ensuing year. Mr. Owens is known as an enterprising and successful farmer, and his presence to which he was chosen, most creditably.

Messrs. Donald Jones and Hamilton Evans were made Vice Presidents, and were about to leave Woodstock, and who had been one of the most faithful and energetic members of the association, was presented with the following address, and a handsome souvenir in the shape of a beautiful fruit basket, of ground glass, on silver stand, purchased from the establishment of W. B. Jewett. Mrs. Burpee replied in feeling terms, thanking her sisters for the tokens of their esteem, assuring them that she would keep them in the kindest remembrance and that her constant prayer would be for their continued success.

Some snow still remains in the Woods and on the hills, but it is cold and backward for farming; there has been no snow yet. Nearly all the men who could possibly be engaged in the woods are now driving on the Mainland and its tributaries. Mat-hooking forms the chief employment of the ladies at present.

Among the late arrivals are Mrs. A. T. N. Mack and Mr. Bird of Boston. Mrs. Sylvia has had a very nice mare from England; so says our local vet.
