The story was to the effect that Mr.
Chas. A. Quant, of Galway, who for the fast six or eight years has been a great sufferer from creeping paralysis and its attendant ills, and who had become utterly powerless of all self-help, had, by the use of a few boxes of Pink Pills for Pale People, been so fully restored to health as to be able to walk about the atreet whout the aid of orutches. The fame of this wonderful, miraoulous cure was so great that the Evening Journal reporter thought it worth his while to go to Galway to call on Mr. Quant, to learn from his lips, and from the observation and testimony of his neighbors, if his alleged cure was a fact or only an unfounded rumor. And so, he drove to Galway and spent a day and anight there in visiting Mr Quant, getting his story and interviewing his neighbors and fellow-townsmen It may be proper to say that Galway is a pretty little village of about 400 people, delightfully located near the centre of the town of Galway, in Saratoga County, and about 17 miles from Saratoga Springs. Upon inquiry, the residence of Charles A. Quant was easily found, for everybody seemed to know him, speak well of him and to I e overflowing with surprise and satisfaction at his wonderful cure and restoration to the activities of enterprising sitizenshin for Mr. Quant was born in Galway. though I could not stand it, and I almost longed for death as the only certain relief. Is September of 1888 my legg gave out entirely and my left eye was drawn to one side, so that I had double sight and was dizzy. My trouble so effected my whole nervous system that I had to give up business. Then I returned to New York and went to the Roosevelt hospital, where for four months I was treated by specialists and they pronounced my case locomoter ataxia and incurable. After I had been under treatment by Prof. Starr and Dr. Ware for four months, they told me that they had done all they could for me. Then I went to the New York hospital on Fifteenth street, where upon extended by specialists and SHOES, which we will sell at COST FOR THIRTY DAYS, become our annual stock taking.

Secure a Free Homestead of 160 Acres.

The Canada Northwest has the most productive soil in the world. Its wheat letches the highest price; its live cattle are admitted to the English markets, while United States cattle are not. There is a market for the farmer at every station; and there are schools and churches wherever there are settlers. It is not subject to drought nor floods, to grasshoppers or to cyclones or tornadoes. Ask any Canadian Pacific Railway agent for books and maps concerning it; ask for "Farming and Ranching in Western Canada," or the "Free Farms" map, or "Actual Experience," and read the testimony of men who are gone there from Eastern Canada. Young women are in great demand; they find occupation as domestics directly they arrive, and readily get married to prosperous young farmers. Young men or young women can start life there almost without money They make the money there; an independence is gained in a very few years by the thritty.

The old settlers of New Brunswick should use their influence with the young men who intend emigrating to keep them within the Dominion, they are offered better advantages than in the United States and do not lose their nationality.
