The general verdict of the smokers of Canada to that "Myrtle Navy" is the finest tobacco they have ever used There can be no mistake upon this point for it is proved by this tangible evidence. The large demand for this tobacco shows it to be true, and the character of the demand gives further proof. It has never been one of the spasmodic kind, up one month and down the next. It has been a sustained and constantly increasing demand The unsurpassed quality of the tobacco accounts for this.
