At Newcastle, Colorado, on Nov. 20th a stone weighing probably ten tons fell from the sky, striking the earth a mile northwest of that town. It sank deep into the earth and was in a heated condition when discovered. The color was of a nature entirely foreign to the locality. People are convinced it dropped from the much talked of comet.

The Montreal Witness.—The people of the Dominion are indebted to Sir John Abbott for the self-sacrificing work he has done as a public man during the latter years of his career, and in the most regrettable manner, in connection with the political opponents would rather that he had been turned out of office after a fair fight by themselves. His successor Sir John Thompson, has been the real leader, and it is, perhaps just as well that he has at last accepted the responsibilities. He has some very difficult questions to face, and it remains to be seen whether he can prevent the revolution which seems to be impending.

Death Conquers All.
Jay Gould of New York, long one of the most conspicuous figures in financial circles, and the history of whose career is most interesting and instructive, and to whom millions of men are indebted for the millions of wealth, died on Dec. 2nd inst., aged only 65, of pulmonary consumption.

Immigration.
It appears that the Government has closed the immigration agency at St. John and re-opened Mr. Small's agency, for a number of years has had charge of this agency.

We know that Mr. Gardner was a most assiduous, attentive and hard working officer, but unfortunately in his zeal to afford the best possible service to the result of the means adopted to promote immigration, he was compelled to go too far, to imagine, on assumption rather than facts, because there were no means and use of by Government to learn the facts. The consequence was that the reports showed each year an accession to our population by immigrants who automatically were not here, or if they were did not remain. We are sorry of the situation that just now money paid to induce immigrants to settle in the Maritime Provinces is money thrown away, spent in the interior of the Western Provinces.

The Government.
The government of the Dominion has been reformed. It now stands on a firmer ground than before, certain departments having been brought into existence under power of a law passed several sessions back. The personnel of the government as now formed looks to be strong; its objective qualities are to be proven. In it some extremes do meet, there being Sir John Thompson a high Catholic and Mr. Clark Wallace a high Orangeman. Let us hope that the presence of such elements will prove of vast benefit. It will be observed that some important changes of position have been made, members.

The Government.
Sir John Thompson, premier and minister of justice.
Hon. George E. Foster, minister of finance.
Hon. McKenna B. Wells, trade and commerce.
Hon. J. A. O'Sullivan, public works.
Hon. John Haggart, railways and canals.
Hon. John O'Sullivan, minister of state.
Hon. A. R. Rogers, agriculture.
Hon. Sir A. C. Cameron, postmaster general.
Hon. Charles H. Tupper, marine and fisheries.
Hon. J. C. Patterson, militia and defence.
Hon. W. B. Lewis, president of the council.
Hon. E. M. D. Day, interior.
Hon. J. Carson, C. O. solicitor general.
Clark Wallace and J. F. Wood, comptroller of customs and inland revenue.
Sir John Abbott and Hon. F. Wood, ministers without portfolio.

It will be observed that there are in the new Dominion Cabinet 14 members.
Of these Messrs. Burrell, Haggart and Patterson with office, without office, are from Ontario; five, Messrs. Abbott, Rogers, Foster and Carson with office, and Mr. McKenna B. Wells, Thompson and Tupper, without office, are from New Brunswick, Messrs. Foster and Carson with office.
Two by-elections are involved in the Cabinet changes. It is not supposed that the ministers will be opposed at these elections.

Favors Independence.
At a mass meeting of the Citizens recently called in Montreal, to discuss the future of Canada, there were four speakers, a Mr. Cardinal, Conservative, who is in favor of continuing the present colonial condition; Prof. McGowan, of McGill University, in favor of imperial federation; Mr. Rodolph Lemieux, Liberal, in favor of Canadian independence and finally Mr. Egin Myers, Q. C., who spoke for the United States. The latter who was introduced as having been recently dismissed from office by Premier Mowat, because of his open advocacy of annexation.

On entering the hall each person was presented with a ballot, on which was written in accordance with his views, and as the close these ballots were collected and counted.
It was just midnight when the result of the voting was announced, and it then appeared that about 3,000 ballots had been cast. The vote stood as follows:—
Independence, 1,600
Imperial federation, 1,400
Colonial system, 1,000

Spaulding and his wife, Mrs. Spaulding, who were the pioneer Baptist missionaries to Houlton and surrounding sections, and who successfully laid the foundation of that church in Aroostook Co. The work is beautifully printed and illustrated, on heavy paper, by Wm. H. Smith, Houlton.

A very pleasant socialable was held on the evening of the 1st inst., at the manse, Florenceville. Political Corruption.
Political corruption appears to flourish in France as well as in other European countries and in the United States and Canada. It has recently been disclosed during investigation in Paris that whenever new loans were to be floated or derogatory rumors were to be written down large sums were paid out to purchase the most favorable press notices. Every time a new loan was to be placed the Paris Journal, it is said, received 100,000 francs; the Figaro, 80,000 francs; the Telegraph, 150,000 francs; the Dabon, 25,000 francs; the Matin, 50,000 francs; the Gaulois, 50,000 francs. These were the amounts paid in ordinary cases. When any especially important great movement was contemplated the subsidies were increased. Thus when the lottery bonds were floated the above-mentioned sums were doubled.

There will be a grand supper and entertainment in the hall, Wednesday evening, Dec. 17th, 1892, and the public are invited to go by the way of the Short Line through Maine, and as a consequence the shipment had to be made via the Long Line. The trip was very comfortable and the whole carload of cattle here arrived safely at Cayuga, not one of them being injured by the trip, which took 17 days. Mr. Hamilton considers himself a very successful trader under such conditions, and the carload was sold to the highest bidder.
