THE MISSING FIVE CENTS.

Holding out his hand for the change,

John's employer said, 'Well, my boy, did

you get what I sent you for?' 'Yes, sir,'

be twenty-two change, and there's only

seventeen according to my count.' 'Per-

ing you the money.' 'No, sir. I count-

ed it all over in the hall, to be sure it

was all right.' 'Then, perhaps the clerk

But John shook his head. 'No. sir. I

counted that too. Father said we must

always count our change before leaving

the store.' 'Then how in the world do

you account for the missing five cents?

John's cheeks grew red, but his voice

was firm. 'I don't account for it, sir; I

can't. All that I know is that it is so.'

account for the five-cent piece that i

satisfied air. 'I know you have been

and going, and to tell the exact truth,

whether it sounds well or no-two im-

portant things in an errand boy. I think

I'll try you, young man, without looking

At this John's cheeks grew redder than ever. He looked down and up, and

finally he said in a low voice: 'I think !

so badly that I almost made up my mine

to say nothing about the change if you

didn't ask me.' 'Exactly,' said Mr.

Brown: 'and if you had done it you

would have lost the situation, that's all.

I need a boy about me who can be hon-

est over so small a sum as five cents,

whether he is asked questions or not.'-

THE POETICAL DUN.

Some friends, says the National Intelli-

a copy of the subjoined very clever and

very practical jeu d' esprit, addressed by

the editor of the Methodist Protestant to

his delinquent subscribers. We copy

the article simply for the amusement of

our readers; for, as Mr. Randolph used

journal. They, therefore, as a body, need

"Should you ask us why this dunning, Why these sad complaints and murmurs,

Marmurs loud about delinquente Who have read the paper weekly, Read what they have never paid for

Read with pleasure and with profit,

Read the essays and the poems,

Full of wisdom and instruction

Read of news both home and foreign,

Should you ask us why this dunning, We should answer, we should tell you,

From the printer, from the mailer,

From the prompt old paper-maker, From the landlord, from the carrier,

With a stamp from Uncle Samuel-

Messege kind but firmly spoken,
Please to pay us what you owe us.

Uncle Sam the rowdies call him-

Sad it is to hear such message

When our funds are all exhausted

When the last bank note has left us

When the gold coin all has vanished

Gone to pay the paper-maker Gone to pay the toiling printer, Gone to pay the landlord tribute,

Gone to pay the active carrier,

Gone to pay the faithful mailer.

Sad it is to turn our ledger.

Gone to pay the paper-maker, Three and twenty hundred dollars!

Turn and see what sums are due us

Due for volumes long since ended

Due for years of pleasant reading,

Due despite our constant dunning

Due in same from two to twenty.

Would you lift a barden from us'

Would you drive a spectre from you?

Would you taste a pleasant slumber

Would you have a quiet conscience?

SEND THE MONEY THAT YOU OWE US.

RESIST NOT EVIL.

Englishman, the Chinaman said, 'No you

guese by 13,000,000 instead of 8,000,-

Would you read a paper paid for?

Send us money, send us money, Send us money, send us money,

Due for years of toilsome labor.

From the man who taxes letters

addressed to himself :

ought to tell you that I wanted the place

hiding inside your coat-sleve?'

queer story as that?"

Manitoba Flour. Prof. Goodfellow, who is Professor Physiology and Hygiene at the Bow and Bromley Institute, England, and consulting chemist to the Master Bakers' Protection Society, as well as the author of works on the subject, has reported as follows on samples of Manitoba flour:— "Bakers and confectioners will do well to

turn their attention to Manitoba flours. The Manitoba wheat is among the best in the world, and many experts maintain that the hard red Fyte wheat has no equal. The floure are very strong and stable, absorbing I do not know whether an account of much more water than English flour, and how Hudson Taylor was practically convinced of non-resisting principles has ever been published. He was sitting on the bank of a river in China, awaiting a ferryman he had called from the other side. A Chinaman came and sat beside him, and directly hit him, a blow on the them as being sound and reliable. The heat NITROUS OXIDE GAS used for the RINLESS EXTRACTION him, and directly hit him a blow on the head that knocked him over and stunned known are: Lake of the Woods strong head that knocked him over and stunned known are: Lake of the Woods strong J. C. Hartler.

F. B. Carvell

The design of the control of the co man into some very soft mud which was among the best flours I have ever examined, below him, and which he saw would indeed, I do not remember having seen a spoil his elegant silk suit, when he rais- flour to equal No. 4 (Ogilvie's) in good color, ed his arm the Scripture. 'Resist not combined with great strength and stability. evil,' came into his mind and he forebore.
The ferryman came, but refused the Chinaman a passage, but finding that he experiments, I am able to say that a blend of wanted to go out to a vessel that was balf Hungarian Manitoba and a half soft

To the Malto Peptonized Porter Co., Trure, N. S. GENTLEMEN—This is to certify that for five years I suffered from Chronic Dyspersia and my life was a continual misery. I could not eat anything without it distressing me and from weighing 245 pounds, I was reduced to 140 pounds.

Three months ago I was recommended by my physician Dr. Sutherland of this town, to take Malto Peptonized Porter and from the day I first took it I felt relieved and in three months have gained 33 pounds and I can eat with comfort anything comes along.

F. CAMERON.

Laws Should Not Protect Evil

Dr. Albert Bernes, the commentator, in his sermon, "The Throne of Iniquity," says: "I lay it down as a sound principle in regard to legislation that society should not by its laws protect evil. The purpose of society in organ. ising a government, and the purpose of a government under such an organization, ie not to protect evil in any form. The law is made 'for the lawless and disobedient, for the ungodly and for sinners, for unboly and profane, for murderers of fathers and murderers of mothers, for manslayers, for whoremongers, for men stealers, for liars, for perjured per sons' (1 Tim. i 9); and not to protect those who practice these vices, or to protect anyventured upon the work at the suggestion of prevent not to protect evil. The end of govmany whose opinions and wishes are greatly all, is to suppress orime, to punish wrong-The London Star says that Hon. Edward which is just and true. And it matters not Blake's return to Great Britain marks the what the evil is, nor how lucrative it may be final and lasting severance of his connection with Canada's affairs and politics. "There is not," says the Star, "in history another from it, nor how many persons may have an instance of each self-secrifice as Mr. Blake's eminent man to give up the greater part of his life to Irish Home Rule."

batever, take under ite protec The proposed underground electric railway in London, if sanctioned, will be 16 feet coil by law. Its business is to remove it—not under the Thames, 68 feet beneath Regent's

in and see about it or send postal.

Many people suffer for years from troublesome and repulsive sores, boils, and eruptions, withousands! said a young lady, when speaking out ever testing the marvelous curative properties of Ayer's Sarsaparilla. The experiment is, sortium of the sale of interesting the marvelous gurative properties of Ayer's Sarsaparilla. The experiment is, sortium of the sale of interesting drink.

TALKING

All customSarseparilla and no other.

Counting For Thousands.

How I wish my signature could count for thousands!

Said a young lady, when speaking of a petition for prohibition of the sale of interesting drink.

She had good reason for her wish. The shadow of intemperance had fallen on her wish. Counting For Thousands

At the Maryland experiment station it has beart and home-she knew what she spoke been found that ensilege is, "more than a of, and had felt how much of wickedness and maintenance ration"; that is, the stock not only held its own upon ensilege alone, but upon the innocent members of a family.

How little does the thoughtless world know of the bitterness of the awful curse which turne loving sone, tender huebands, and sober. domest citizens, into drunken boodlams, lying very bad cold which almost resulted in congestion of the lungs. After doctoring with her for three months without success I tried Hagyard's ble brutes. And this work is going on every hour of every day and night that passes over bour of every day and night that passes over our beads. And men are licensed, permitted and protected in doing this devilieh work. She is now strong and healthy.

MRS. SARWER MULHOLLAND, Hamilton, Ont.

LONDON, Nov. 14.—Sir Obsrlee Tupper's negotiations in Paris for the conclusion of a commercial treaty between France and Canada are making favorable progress. France makes minimum tariff concessions to Canada.

A Complicated Case.

Dear Sirs,—I was troubled with biliousness.

DEAR SIRE,—I was troubled with billousness. headache and lost appetite. I could not rest at night, and was very weak, but after using three bottles of B. B. my appetite is good and I am better than for years past. I would not now be without B. B. and am also giving it to my children.

deceive the people, and are draw distillers and brewers for their pay How long, Oh Lord, how long?

To Beat the Eiffel Tow The foundations of Sir Edward. distillers and brewers for their pay. MRS WALTER BURNS. Meitland, N. S.

There are now about 12,500 men employed daily at the World's Fair grounds.

Aching Pains Removed.

Gentlemen,—I cannot but praise B. B. B for it has revived me wonderfully. I was completely run down, had sching pains in my shoulders, a tired feeling in my limbs, low spirits, in fact I was in misery. Being recommended to try B. B B. I did so, and with the use of only one bottle I am to-day strong and healthy. I prise it highly.

Mer B Tuomen, Toronto, Ont.

Mar B Tuomen, Toronto, Ont.

Some idea of the magnitude of the whole undertaking may be gathered from the estatement that the E.ffel Tower, which is to be so far surpassed in size by the English tower, was made of 7,500 ton of steel and iron, consisting of 12,000 specially designed pieces, fastened together with 2,500,000 rivets. The English tower is to be 150 feet higher than the French wonder, and the latter can be seen at a distance of seventy five Aching Pains Removed.

It is stated that 32,000 persons own half the entire wealth of the United States, although it has a population of over 60,000,

India's Swarming Millions. Indian empire is very moderate.

For all that, the density in some parts is considerable and in other parts too great. On the other hand, there is a large quantity of coltivatable land still unused, the extent of which, according to the Fortnightly Review, on he folly known by experience alone.

Further, the existing cultivation can be made more and more productive by agricultural science, by development of irrigation in decretully prepared Remedies, used for years in private practice and for over thirty years by the people with entire success. Every single specific and deed the Sovereign and the success are successed in the summer still it joins the water from the accession of teeming millions, decade after decade, under the British rule may be well-comed without an afterthought. On the systemandare in fact and deed the Sovereign Remedies of the World.

Instead part of the demand the success are successed as the summer it will be used for boating, and in the winter for curling and rinking. At one end of the lake is a picture-eque water fall, by means of which the Breat, after detail and by improved appliances for husbandary. On the whole, there is fair reason to hope that the magnificent area of lead will be able to sustain its people, and that the summer it will be used for varieties, and in the winter for curling and rinking. At one end of the lake is a picture-eque water fall, by means of which the Breat, after detail and by improved appliances for husbandary or reducing several islands, releases itself, and pursues a winding course through the park and in the winter for curling and rinking. At one end of the lake is a picture-eque water fall, by means of which the Breat, after detail and by improved appliances for husbandary. On the whole, there is fair reason to hope that the magnificent area of lead will be able to sustain its people, and that the summer it will be used for varieties. In the summer it will be used for varieties, and in the winter for curling and rinking. At one end of the lake is a picture-eque water fall, by means of w One fearfully potent cause, arising from internal war, devastation and disorder, which up to the present century decimated the people, has been effectually stopped. But pestilence, which in former centuries occasionally stalked through the land, still lurks in many places. It is kept down by sanitation, by the diffusion of medical education of among the patives and by the purification of months lates. The whole ground of seven acres. The whole ciently drained. On higher ground workment are now laying out winter gardens, in the large pavillion of which entertainments are to be given. A band is also to be provided. The whole 120 acres will be opened to the public early next spring, although the tower will not be completed until ten or twelves.

among the natives and by the purification of months later. the water supply, The water works are to be found in almost every town; in the great cities they may be compared with anything of their kind in any country. The check on population, as imposed by sickness, will be ic candidate for President, was born in Cald-gradually lessened. Then there is the terri well, Essex county, N. To Beat the Eifel Tower

The foundations of Sir Edward Watkin's new tower of London have been compl They occupy four acres in a pleasure park of 120 acres between Willesden and Harrow. They consist of immense blocks of concrete All claims not consistent with the high character of Syrup of Figs are purposely avoided by the Cal. Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleaning the system effectually, but it is not a cure-all and makes no pretensions that every bottle will not substantiate.

I bey consist of immense blocks of concrete.

The nature of the ground where the tower is to be constructed is so aloping and uneven, that while one set of footings appears about five feet above the surface, another is seven feet below, a third five feet below, and the fourth at least treatment. To pay an election bet Charles Haven, of Fitchburg, Mass, welked nearly a quarter of a mile on his hands, his legs being held by two men.

The pay an election bet Charles Haven, of mearly twenty feet and should be capable of bearing any weight that could be placed upon them. They have cost between \$25,000 and two men. the surface. These toundations go down

miles. The English structure will also be on higher ground. On the top of the English tower there will be an observatory and roome for scientific experiment, which are likely to be of great value. The plan provides for a large landing stage that will accommodate 21,000. The landing stage will contain a The finest, completest and latest line of Electrical appliances in the world. They have never failed to cure. We are so positive of it that we will back our belief and sen lyou any Electrical appliance now in the mark x and you can try to posse, while at the top there will be a number posses, while at the top there will be a number vate dining rooms. Half way up will be another landing stage, and arrangements have been made in the plans for lifting to the top The population of the Indian Empire has risen within the memory of the present generation from 220,000,000 to 288,000,000. It has been increasing at the rate of 3,500,000 annually, and is now rising at the rate of 3,000,000 that the whole can be completed in eighteen months. Persons who have seen other tall buildings of the world may gain some composite of the century now drawing to a close. Even in the event of a decimation from these causes there will be an excess over the 800,000,000. Dame in Paris is but 217 feet high; Sc.
