Kent Parish S. S. Convenijon. Kent Parish S. S. Convention will meet at Bristol on Thursday, Nov. 3rd, at 2 p. m. Schools of the parish will please send representatives, and all interested in Sunday School work are cordially invited.

Wicklow Parish S. S. Convention. The Wicklow Parish Snnday School Convention will meet at Summerfield on Tuesday November 8th. There will be two sessions one at 2 p.m., the other at 7.30. Every school in the Parish is earnestly requested to send delegates, and the public generally are invited to attend. Per order executive.

New Brunswick S. S. Association. The session of the above Association, held at St. John last week, was, we should judge from newspaper reports, as well as from the address of welcome, an admirable one, was delivered by Rev. G. M. Campbell. The report of the treasurer, George Haddow of Dalhousie, was a very full one, giving the recipts from all parts of the province in detail. The expenditures were also set forth in full, the latter amounting to \$1,537.36, of which \$1,000 was for Rev. Mr. Lucas salary and \$238 for expenses in connection with his office. The receipts were \$1,639 .-52, which left a belance of \$102.16 in his hands. The receipts included \$1,302.23, which was sent in by the various counties.

The contributions of the different counties wess as follows: Charlotte 8 80 This site is much shorter than that at Northumberland 186 89 Bull's Island, being 1,050 feet from shore to St. John

Supplementary reports showed that these contributions had been still further increased, notably from Kinge, which sent in \$52 more.

The following is taken from the statistical present time about 15 and 20 feet respective. ly where two of the piers would be located.
This of course at low water, and the quantity of masonry would be greater than for the same piers below, but the total cost of build-

Modonal of Charles I.

Fowler,

Michologe I would presume to advise that particular care be taken in the foundations.

This is one of the most essential parts of bridge building, and should be put in care fully and well, most especially where a large structure is to be erected. The superstructure is to be erected. The superstructure will last much longer on a good foundation, and more easily and more easily and more easily renewed when worn out.

It seems to me that attent of the most essential parts of bridge building, and should be put in care fully and well, most especially where a large structure is to be erected. The superstructure is to be erected. The superstructure will last much longer on a good foundation, and more easily encewed when worn out.

The Highest, or an

permanent costing almost nothing to keep in classes, and it becomes a grave question how many farmers will be able to struggle many farmers will be able to struggle through it." Considering the continued shrinkage of wheat cultivation, the Times advices farmers to turn their attention to high class dairy produce.
