Thomas and adopted unanimously: "Resolved, that the association express its protest against the outlay of public monies for the work of special teaching of the Roman Catholic religious beliefs in this province and notably the recent management and expenditure of school money in the town of Bathurst in this Province."

The ice cream microbe is said to be larger than ever this year and to have teeth and claws like a tarantula. Impetuous young men who have best girls with a weakness for ice cream are expected to clip the above item out and show it to the young ladies.

June, the month of roses and of brides, has been no exception this year, for a number of weddings have been celebrated with considerable eclat. At Dumfries on Wednes-

day Wm. Anderson, eldest son of John Anderson M. P. P. was united in marriage to Miss Scott, daughter of Councillor John Scott. They at once took the train for St. John their future home.

On the 25th of October next, if nothing happens, Kingsclear will pride itself on being one of the very few villages in the country that has living within its borders a centenarian. Captain John Barker will on that date celebrate the 100th anniversary of his birthday. Mr. Barker comparatively speaking, retains possession of his faculties to a remarkable degree. He is said to be the oldest Freemason in Canada having been a member of the society upwards of 66 years.

Newspapers way out in California even are cognizant of the political degeneration of our country. The Los Angeles Times of the 18th inst. says: "During the month of May the debt of Canada increased \$1,051,543 and the gross debt now exceeds \$300,000,000. The revenue is declining and expenditures increasing. No wonder there is developing in Canada a large party who want to get in out of the wet." What with the recent exposure of the million dollar steals at Ottawa and the present mournful political aspect what a nice reputation Canada has abroad!

All the Orange lodges in the county of York will go to Moncton on July 12th.

Owing to the excessive rates charged for special excursion trains by the C. P. R., the Orangemen could make no satisfactory arrangements with that big monopoly. They have however secured a special from the Canada Eastern Ry. and will go to Chatham thence on the rails of the I. O. R. The train will leave here at 4 a. m. July 12th, arriving in Moncton six hours later. Only 3 stops will be made on the entire route. The train will leave on the return trip the same evening. The fare is only \$2 for the round trip, a rate that will draw a big crowd of excursionists.

What queer weather this is! June came in sunny and hot—uncomfortably hot—but it lasted short. The weather was dry too; only an infrequent thunder storm, and now what do we see? For two weeks a real fine day has hardly been seen. Can it be that this grand assembly of Baptist parsons has tempted the weather? If they are prone to exert such an influence Fredericton will not regret their departure ere Dominion day, for many plans have been laid for a most enjoyable spending of the anniversary should the weather permit. Many private picnics are arranged some fishing parties are made up, and a large number of persons will take advantage of the single fare excursion rates on the railways and make a run into the country. Those who stay at home will have an opportunity to enjoy themselves at the base ball games or at the bicycle and horse racing at the park in the afternoon and then in the evening "Oleopatra" in the City Hall will furnish lots of amusement for those who care for theatrical performances.

For sale at a great bargain one Bicycle 48 inch wheel, in good repair enquire of B. B. Manzer.

## Upper Woodstock Items.

On taking leave of her school on Monday, Miss Bessie Good was agreeably surprised by being presented with a beautiful plush case, autograph album and illuminated card. An affectionately worded address written out by a little girl, accompanied these tokens of the love of her pupils. The leave taking was quite affecting, as Miss Good had deeply endeared herself to those under her careful tuition.

Mr. G. R. Ketchum, M. P. P., having engaged in business at Ashland, Me. quite extensively, has found it necessary to remove his family thither. The village has suffered a great loss in their departure. To the poor Mrs. Ketchum was ever ready to render aid, and many of the old and feeble will miss her kind ministrations. Mr. Ketchum was one of the most public spirited men in the country, ever ready to forward what was for the best interests of his own locality, or the constituency at large. Giving employment to a number of men from time to time and always giving the highest price for country produce, it will in all probability be some time before his place will be filled.

## Richmond Items.

June 28, 1892.

We have been blest with plenty of rain in this vicinity the last fortnight back, and if it does not soon clear off and the sun once more smile upon us, we are in danger of losing our corn and potato crops.

Notwithstanding the threatening appearance of the weather, a large party attended our school picnic Saturday afternoon. It was well conducted under the management of our young school mistress, Miss Edith Rogers. Before leaving the grounds we were treated to a few choice recitations and stump speeches given by gentlemen from Woodstock and Houlton, and also a very touching and warning recitation by Miss Rogers, bringing out with startling clearness the danger lurking in the wine cup. Music was furnished by Richmond's fair belles. Miss Rogers' school closes the last day of this month when she will leave us for the holidays.

Mrs. Robinson from St. John, is visiting her brother, Mr. Albert Ray.

Mr. Joseph Wright of St. Stephen, is visiting friends in this vicinity.

Mrs. John Ray is spending the summer with her brother, Mr. Albert Ray.

Mr. Otis Hanson has, by a new veranda and a coat of paint, made a great improvement in the looks of his house.

Miss Canada from the Watson Settlement, intends holding her school picnic the last day of this month. There is to be a program. A pleasant afternoon may be expected.

## River de Chute Items.

June 27, 1892.

Come, brace up and show the many readers of the ever welcome CARLETON SENTINEL, you are not behind in these times of progression and modern improvements.

Considerable buildings are being erected this summer. One of our energetic go ahead young men, Mr. Frank Miller, has erected a shoe making shop which, when finished, will be quite an addition to our pretty village. Mr. Stanley Miller is making preparations for the raising of his barn on the flat, he having purchased the Henderson property some time previous. Push on young men, the ladies are anxious about such pleasant locations. Mr. D. Watson has put up a new road fence on his property in Upper River de Chute. Mr. John A. Graham raised a frame in connection with his barn on Friday last. Mr. Charles Bull is having his house and outer buildings connected by a shed.

A great amount of lumber has been rafted on the river here this spring. Mr. Henry Miller has conducted a number; he is absent now on his last trip he hopes.

Mr. D. Fraser is working his mill on an extended scale; he employs some forty or fifty men, working twenty-four hours per day.

Mr. and Mrs. C. A. Bull are absent on a visit to relatives and friends in Woodstock.

Dame rumor says we are about to lose the society of one of our young men, but by that loss we expect to gain a young lady as friend and neighbor.

Some of our friends across the border have been camping on the table land beyond the mill pond where, with fishing and the beautiful picturesque scenery of which that place gives a view, they report a very pleasant time.

Strawberries are ripe. H.

A number of our young men went away to day on their annual vacation, some to camp, Sussex, and others to the camp at Woodstock.

Deputy Sheriff Foster has just completed some improvements on his residence, adding very much to its handsome appearance.

The Corporation drive went past here Saturday, and the river is now entirely clear of lumber.

Mr. Allan Shaw has just finished a large barn on his farm.

School closes on Thursday, for the summer vacation; it appears we are about to lose our popular teacher.

Silver Tide Lodge meets every Saturday evening and has good and interesting meetings.

A public meeting was held here on Monday evening by Mr. G. E. Baxter of Perth, in the interest of the Dairy business. It is a pity that a cheese factory could not be built and operated in this fine section of the county.

## Centreville Items.

June 28, 1892.

## Northampton Items.

Wet weather being predominant, hoeing, in consequence, is much delayed.

Mr. S. L. Peters delivered a lecture, on the best method of conducting a dairy, in the school house at Greenbank Monday evening last.

Rev. Canon Neals held service in the school house on Thursday evening the 23rd.

Mr. William Gray left for his home in Duluth, Monday last.

Mr. George E. Baxter of Perth Centre Victoria Co. has been in this vicinity, agitating the feasibility of erecting a cheese factory. A meeting will be held by the farmers, in the interests of the same, at the Lodge Room on July the 6th. We hope that success will crown their efforts as a factory would undoubtedly fill the place of a long felt want.

Miss Lena Rogers of Auburn, Maine, is visiting her parents, after an absence of some years.

Our day school will finish the term this week. Our teachers will soon be at home enjoying a well earned vacation.

Notwithstanding the fact that the weather was quite disagreeable on Saturday last, a large number of pleasure seekers sought the grove of Mr. Wm. Olmstead at Grafton, where a very enjoyable afternoon was spent. After the usual games, a bountiful repast was spread before the picnicers who after doing ample justice to the same, dispersed to their homes, feeling none the worse for a pleasant afternoon's outing.

## Cleveland Nominated.

Notwithstanding the fact that Mr. Cleveland had the delegation from his own State, New York, in opposition to him, he was nominated on the first ballot at Chicago, on Wednesday of last week, it being a two-third vote. This is the first time since the war that a Democratic nomination for President was made on the first ballot. The vote was as follows:—

Whole number.....	992 1-2
Necessary for choice.....	607
Cleveland.....	616 1-2
Hill.....	112
Boies.....	103
Gorman.....	38 1-2
Stevenson.....	16 2-3
Morrison.....	5
Campbell.....	2
Rattison.....	1
Whitney.....	1
Russell.....	1

We read that a representative from Maryland moved to make the nomination unanimous which carried, only five or six dissenting.

Senator Daniels said:—

"On behalf of the delegation from Virginia, which came here divided but which shall go forth as one, and on behalf of every loyal and true-hearted Democrat who loves the great party that bears the banner of the people, I move you, sir, now that one voice shall ascend from this convention and that every town shall utter the word that Grover Cleveland is the leader in this great campaign." (Tremendous applause.)

The motion to make the nomination unanimous was carried with about a half dozen noes, which were greeted with hisses.

Gov. Flower, of New York, said: "We from New York move to make it unanimous." Cochrane, of New York, stated that, on the motion to make it unanimous, New York's vote was cast in full in the affirmative. Shields, of Iowa, made a similar announcement for his state.

A. E. Stevenson, of Illinois, was nominated for Vice President.

The Boston Globe, under the heading "A pretty scene," records of the return of Mr. Cleveland to his summer residence at Bozard Bay from a day's visit to Boston, two days before the nomination, that when ex-President Cleveland alighted from the train and going across the street to where Mrs. Cleveland was seated in her phaeton, he reached up and kissed her fondly. His face was all smiles and so was hers. They had been separated since morning.

A Slight Cause

Might have produced a serious national result at Chester, Eng., on Saturday last. Mr. Gladstone was driving to address a meeting at the place named when a woman, in the crowd, threw a piece of hard gingerbread, "for luck" she said, and struck the great statesman in the nose, causing considerable inflammation in one eye and making a bandage and confinement in a dark room for a time necessary.

The Sun's correspondent at the Methodist Conference, Charlottetown, P.E.I., writes:—

"The resignation of Rev. S. C. Wells was accepted. The names of two probationers were ordered to be dropped, and that of Henry Warman on account of ill health, and that of W. A. Taylor on account of being out of harmony with Methodist doctrine. Mr. Taylor has been quite unsettled in opinion for several years, but being a young man of good parts and more than average ability the conference was anxious to retain him if possible, and gave him full time for consideration, and only dropped his name when, on his own statements, he could not accept the doctrines of the denomination. It is understood he has united with the Unitarians."

Mrs. Allison, wife of Rev. John Allison, died at Escanaba, Michigan, on the 17th inst., aged 70 years. She was a daughter of the late Rev. Dr. Knight. Mrs. Allison will be well remembered by many of our readers as a lady, who, during her residence in the Methodist parsonage here, many years ago, was much beloved.

Premier Mowat, of Ontario, has dismissed a County Attorney and Clerk of the Peace for publicly advocating annexation to the United States.

Full indemnity of \$1,000 is to be paid Mrs. MacKenzie, widow of deceased ex-premier. A grant of \$100,000 is asked for the World's Fair at Chicago.

The union moulders at Hamilton, Ont., have been on strike for six months and are still receiving \$1,000 weekly from the Moulders International Union.

Supplementary estimates were submitted to parliament on the 27th, amounting to \$2,217,257.
