Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events.

There may be gid diness and often headache and acidity or flatulence and tenderness in the pit of the stomach. The wholesale trade of the country have a distributing machinery which handles the "Myrtle Navy" without any addition to its permanent expenses. If the manufacturers were to undertake that work, as they would by selling to the retail trade, it would require an independent machinery, the whole cost of which would have to be borne by the proceeds of the tobacco sales, and of course it would fail upon the consumer. Selling to the wholesale trade alone is, therefore, for the consumers benefit, and is a convenience to the retail trade, because every traveller who calls—in the grocery line—can take orders for "Myrtle Navy."
