derfully, and the doctors tell me if I was younger man I would be still more benefit ted. My general health has also improved very much. About six weeks ago I was in Toronto and walked fully five miles that day, something I could not have done before. In fact I feel so much better that I have taken a two year old mostang colt to break in."
At this point Mrs. Hellems, the life partner of the venerable gentleman, who had come into the room while Mr. Hellems was

ment. My legs have gained strength won

relating his story, said that a friend, when he heard that Mr. Hellems had taken a colt to break, said he was going to commence using Pink Pills too. Then the lady noting the Standard man writing at the table asked Mr. Hellems if all this was to be published.

'Yes," said Mr. Hellems, "if there are any other poor creatures who are suffering as I have done I would be glad to have them know the great good Dr. Williams' Pink Pills have done me, and be benefitted in the same way. I am glad to have my experience published for the benefit it may do others, and I cannot too strongly recommend these great pills." In reply to an enquiry Mr. Hellems said he had taken three half dozen boxes since he began to take them regularly and was now using the fourth half dozen. The Standard reporter called upon Mr. A L. Greenwood, the east end druggist, whose store is only a few doors from the residence of Mr. Hellems, to enquire how the sale of Dr. Williams' Pink Phils stood in regard to other proprietary medicines, and incidentally to enquire what he thought of their effect in Mr. Hellem's case. "Pink Pills for Pale People have a great sale," eaid Mr. Greenwood, "and I am continually asked for them.
With regard to Mr. Hellem's case I knew that for years he had suffered from rheumat. ism and other diseases and that he was thoroughly run down. He now speaks very highly of Pink Pills though at first he did not think they were doing him any good, but that may be accounted for by the hold the disease had on his system. He now feels like a young man and is able to attend the various animals, horses, etc. After he had

taken about a dozen boxes he came into the ike seabool boy. What's the matter." I exclaimed, perfectly astonished, and with happinese ringing in every tone of his voice he called ont, 'O, I'm young again; I'm young again.' He accribed as the reason for this that Dr. Williams' Pink Pills had performed the miracle. He has frequently told me that he had tried doctors without number, besides other patent medicines but without any avail. My sales of Dr. Williams' Pink Pills are constantly increasing, and all agree that these excellent little pills are beyend praise. There are many people in this district who have cause to be thankful they tried Pink Pilis.

The reporter called upon Mr. W. W Green-wood and Mr. Harry Southcott, the well known druggist, and both speke highly of Pink Pille, saying that they are the most popular remedy in the stores, and that those using them are loud in their praises of the results. Dr. Williams' Pink Pills are a perfect lood builder and nerve restorer, ouring such paralysis, locomotor ataxia, St. Vitus dance, increase headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending on humors in the blood such as scrofule, chronic erysipelas, etc. Pink Pills give a healthy glow to pate and sallow complexions, and are a specific for the troubles peculiar to the female system and in the case of men they effect the system and in the case of men they effect the system and in the case of men they effect the system and in the case of men they effect the system and in the case of men they effect the system and in the case of men they effect the system and in the case of men they effect the system and in the case of men they effect the system and in the case of men they effect the system.
