The entire

road expenditure at that date was \$1880.63. In the month of July there was expended on streets and sidewalks, \$95; of this amount \$43 was expended by order of the Council on Emerald street and the balance, \$52, was the only portion for which the road committee was responsible that month. On the 5 h of August, by the ananimous vote of the Counoil, the committee was instructed to rut down in the vicinity of 2,000 feet of asphals side

walks; at a subsequent meeting, on motion of Mr. Leighton, 220 feet more were added to be put on Maple street sidewalk. Hence it would be seen the amount of money over expended by the road committee was only in light excess of the road appropriation, unless the expenditure was by special vote of the Council for particular service; and of shis amount the chairman of the road comnittee could not be held responsible for more than one third.
