ALCOHOL.

(Composed by James M. Rosborough, aged 15 years, Goods Corner, Carleton Co )

Alcohol is a thin colourless liquid, has a sharp taste, and is produced from rotten grain and fruit. It will burn with a blue

flame and great heat, and it is thus used in

making gass lighting torches and also in thermometers. Alcohol will preserve a

piece of flesh or plant and will not allow it to decay. When taken as a drink or food it

just as it irritates the skin when applied to

t. As it is a great preserver, when it enters

the stomach it preserves the food and will

not allow it to digest, and prevents the gas-

tric juice from changing the starchy part of the food into sugar. It thickens the coats of the stomach and increases the appetite

and causes more food to be taken but it is not digested. Alcohol does not change in

the stomach and s) it passes on in the blood to the Liver which it irritates just as it does

the mouth or stomach It also causes the

blood vessels to enlarge, the organ to swell, and causes fat to take the place of structure

and disease follows. The Liver throws the alcohol off and it passes on to the lungs where it comes in contact with their delicate

with their delicate structure producing ir-

Communicated,

A Short but Pleasant Outing. To the Editors of the Carleton Sentinel: Your correspondent having business Glassville, combined pleasure and business and left Woodstock by train on the 15th uf b on the road from the river to the back set-It is said that our late M. P. P. travelled over the road for several years and never made any attempt to improve it in any way. After a very pleasant drive of two hours we strived at Glassville Corner. We had

not been there for twenty three years, and it is almost impossible to believe the changes made in that time. The log houses and barns have given place to substantial frame buildings that any settlement might be proud of; the store of Mr. John McIotosh is a credit to him and an ornament to the corner. It is in this building that Court Glassville No. 1309, I. O. F., is held; the officers and members of this court are of the best men of the cettle this court are of the best men of the cettle this County. ment, and are sure to do good work for For estry in that section of the county. After a very pleasant time spent with Mesers. Thom as and Simpson, the financial and recording secretaries of the Court, we went on to East Glassville and remained over Sunday. On Monday bright and early, in company with the genial Dr. Welch, who, by the way, is

banks and now breaks into rapide that seem to be impassible; fine stretches present them selves to the view with the trees growing to the water's edge, as it was when Adam was a boy, then a sudden turn hides the view, which when reached opens to view another and, if possible, more beautiful scene.

Yours truly WANDERER.

largest and most conspicuous structures in New York. I went to mail a letter for home and additional 25 cents had previously been received from some unknown party. I am very much delighted with the amount that you and your friends have realized in Woodstock, and I sincerely thank you all for the unselfish efforts you have made to help forward a good cause. The proceeds were double the amount anticipated by me and I know that such a sum could not have been received from some unknown party. I am very much delighted with the amount that you and your friends have realized in Woodstock and I sincerely thank you all for the unselfish efforts you have made to help forward a good cause. The proceeds were double the amount anticipated by me and I know that such a sum could not have been received and most conspicuous structures in New York. I went to mail a letter for home and one would be nearly lost in the building; it has a frontage of 279 feet and is five storety high. The material used in the construction of the walls it a light colored ganite from Dix Island, Me. It was completed at a cost of between six and seven million dollars, and occupied in 1875. Nearly three thousand men are employed in the various operations of the Office.

Fifth Avenue:—I took a walk up this street which is called the centre of fashion

Again thanking you-

I remain, yours sincerely. Halifax, N. S., June 29, 1893. DOLLS' CARNIVAL ACCOUNT.

HANKING the Farmers of Carleton for their liberal patronage in purchas
Ur Mewing Machines and recreation as personal ADU.

In the new Governor General of Canada, who leaves London next month for Canada to as sume his new duties, has appointed as his stoff-captain Captain Kindersley, Coldetream Guarde, who will act as his military secretary; and Captain Urqubart, Cameron Highlanders, as personal ADU. THANKING the Farmers of Carleton ing our Mowing Machines, and regretting the disappointment caused to those who did not leave their orders in time, we beg to not leave their orders in time, we beg to alone prevents them from receiving proper medical not leave their ailments or infirmities, and that this fact heir ailments or infirmities, and that the heir ailments or infirmities here. say that we are now prepared to fill orders OR HUMPHREYS' Series of SPECIFICS befor a limited number of Threshing Ma- ing designated by numbers, entirely overcomes this difficulty. There are thirty five (35) numchines, (one-third of which are already sold) and hope intending purchasers will kindly leave their orders as early as possi-Yours respectfully,

SMALL & FISHER.

The Other Side of the Question. To the Editors of the Carieton Sentinel:

I have been surprised at the expression f opinion by E M Snaw, regarding the decision of the County Council in reference to a grant in aid of Exhibition buildings in the Town. of Woodstrok. He says "their set ws ... consistent and unrightrous." Now in reter ence to being "incon astent" I would like for met by A. G. Lindsay, E q. who drove us through one of the finest districts of this counthrough one of the finest districts of this coun-try. Our M. P. P.'s have been doing a good it merely in the fertile imagination of this great man E M. Shaw, with his superabundance of knowledge, that the "incon

sistency" rests. Then, as to the unholy part of it; well that's an uncharitable inference to draw, but charity is not much in his line, when he would seek to place a tax upon the masses to benefit the few; it is said to be wise Legislation that will confer the greatest benefits on the largest number of people this act would have just the opposite effect there would be thousands of men upon which this burden would fall who would not be benefited in the least degree, and the favored few to whom the loaves and fishes would fall are men who are already well off, which can Then he says, "we cannot gather where we

bave not strewn," which proves that he has read his bible to some purpose, if it has failed to teach him obstity and justice. Just here we will refer bim to another bible verse which tells us what the children of Israel Monday bright and early, in company with the genial Dr. Welch, who, by the way, is the editor, (publisher and proprietor of the Glassville News, and Squire Lindsay, we set off for the celebrated fishing stream, the south west branch of the Miramichi, which is reached in 14 miles from Highlands, through the flourishing settlement of Forestor; on the way we passed Inversry Castle, the country seat of Fred. Skinner, Eq, one of the best houses in that part of the county. We arrived at McKeowans, the end of the road, at 3 a.m., and then took a boat down river for the fishing grounds. The scenery along the Miramichi must be seen to be appreciated; the river runs now smooth between high wooded banks and now breaks into rapids that seem did to King Rehoboam when he told them he

A. C. CALDWELL, Conneiller for Wicklow ON THE WING.

when reached opens to view another side, to possible, more beautiful scene.

When we reached the forks, we found the fishery guardians who wanted to see our permits, which being shown, we were allowed to proceed. It is stated that some gentlemen of Canada and the United States, who have more money than they know what to do with give \$45,000 for the right to fish the Miramichi for 60 miles from the forks, and as a consequence none are allowed to drop a line in those waters without a permit; the stream abounds in salmon and trout, and at this time of the year, with the water low, the fishing is extra good, and so the wardens are keeping a sharp lockout for unlawful fishermen. We returned the same evening, having spent a very pleasant time on one of the finest streams in America. The next day found us in Woodstock, having enjoyed our trip very much, through the kindness of A. G. Lindsay, Esq., and E. A. Welch, M. D.

Yours truly

MESSRS EDITORS,—In closing up my first letter I wrote about the manner of doing business at the Stock Exchange. The stranger should not fail to vieit the gallery of the Exchange between the hours of ten and three. The manner in which the brokers transact business is most amusing and extraordinary, and to the uninitiated appears to consist of ehouting, gesticulation, etc When the market is active the scene is as though Pandemonium had broken loose. A seat in the Exchange for a year, or the privilege of standing in the ring to do business, costs thirty thousand dollars. The building is of white marble and the Great Hall is handsomely frescoed. The vicitors gallery is entered from Wall street.

Product Exchange. This is perhaps one of the most imposing and extraordinary, and to the uninitiated appears to consist of the suctive the scene is as though Pandemonium had broken loose. A seat in the Exchange for a year, or the privilege of standing in the ring to do business, costs thirty thousand dollars. The building is of white marble and the Great Hall is handsomely frescoed. The wistors galler From the visitors gallery you may look down on the 3,000 members of the Exchange, or gan; z-d in 1861, and called the largest in the BLANKETS, world, and see and hear the fierce bargaining. The Dolls' Carnival.

To the Editors of the Carleton Sentinel:

The following is a letter from C. F. Fraser, Eeq., acknowledging the proceeds of the Dolls' Carnival, the publication of which is seked for the information of those interested seked for the information of the informa iron and steel; the Exchange cost \$3,179,-
