Asthma and Bronchitis Cured. HALIFAX, N. S.

C. E. PUTTNER, Esq., PH. M .: C. E. PUTTNER, Esq., Ph. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had, Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion. and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. I am, yours, &c.,

How absurd! This is not grit assertion but conservative logic. The promises made that the country would prosper under the N P. of increase of population; of advance in property values had all proved mere illusions. Population had diminished; land values had depreciated, while the public debt and taxation had immensely increased. To justify his statements, Mr. Fielding quoted

authorized etatistics. The liberals desired the prosperity of the whole country, not a prosperity that enriched a few at the expense of the many, but a prosperity that, like the rain from Heaven, would enrich and vivify all. The Conservatives might claim that they were in pursuit of prosperity, but by there present policy they could never overtake it; never while riding the old nag, National Policy. An old Methodist minister itinerating the country, riding did not answer his attention being given to the horse. The question was repeated and the lad then said who are you? the minister replied, a follower of the Lord. The urchin taking another look at the animal replied, You'l never catch up to Him on that horse.

and only bridly spoke as he was evidently unwell. He had come here to assist his friend Dr. Colter, who with himself was the entire liberal delegation, from New Bruns-wick, to Parliament. He felt a sadness in contemplation of the fact that so many of his old friends had gore. For forty years, about se long as the children of Israel had been in the wilderness, he had been in politice; he had seen the introduction of many reforms including free Schools and almost universal suffrage and had anxiously desired free trade from which, however, they seemed now further off than when be entered the local house. It was a dark day, but he thought he could see promises of a brighter daws in the near future, under the rule of the liberal party. He referred to the financial and economic condition of the country regretting that in all departments they had 1 and during the corn law agitation when John Bright and Cobden, great manufacturers, were working in the interests of the masses and in opposition to the large land owners. The subsequent prosperity of England proved that prosperity did not depend upon toxation, no doctor would attempt to etrengthen a patient by bleeding him which was the policy of the conservatives with their patient, Canada. He referred to the paintings of an armless artist at Autworp as showing how difficulties could be overcome and he hoped that this Dominion would soon rise superior to the difficulties and encumbrances

Oarleton county had done its duty and he hoped, when the opportunity came, the other counties of the province would fullow her example. For himself it was said that at the example. For himself it was said that he the next election Charlotte would withdraw the next election Charlotte would withdraw the N.B. TRADE MARK confidence so long reposed in him Well, it might be so; he had sought to do his duty and in a little while, in the natural order of things, he would be out of the way.

Mr. Gillmor was handsomely applauded. Hon. Mr. Davies came to the front and said, replying to a question asked him that afternoon by an advocate of prohibition, that at Ottawa the liberals had adopted with only one dissenting vote, a plank for the platform. firming that as soon as the liberals come into power they would have a plebiscite of

the whole Dominion and if the vote was for prohibition a prohibitory law would be enacted. This in effect, but Mr. Davies quoted the plank, in full, from the platform.

The band now played God Save the Queen and the meeting adjourned.
